Accordingly, the Board of the Demerged Company, Resulting Company 4 and other Resulting Companies have approved the updated Scheme of Arrangement, between the Demerged Company and Resulting Company 1 and Resulting Company 2 and Resulting Company 3 and Resulting Company 5 and their respective shareholders and creditors.*

EXPLANATORY STATEMENT UNDER SECTION 230(3) READ WITH SECTION 232(2) AND 102 OF THE COMPANIES ACT, 2013 READ WITH THE COMPANIES (COMPROMISES, ARRANGEMENTS AND AMALGAMATIONS) RULES, 2016

1. This is a statement accompanying the Notice convening the meeting of the unsecured creditors of Talwandi Sabo Power Limited ("**Resulting Company 2**") on Friday, November 21, 2025 at 11:30 AM IST ("**Meeting**"), as per the details specified in the said notice, pursuant to the order dated October 17, 2025 ("**Order**") passed by the Hon'ble National Company Law Tribunal, Mumbai Bench ("**NCLT**" or "**Tribunal**") in the Company Scheme Application No. C.A.(CAA)/220 (MB) 2024, for the purpose of considering and, if thought fit, approving, the proposed Scheme of Arrangement between Vedanta Limited ("**Demerged Company**") and Vedanta Aluminium Metal Limited ("**Resulting Company 1**") and Resulting Company 2 and Malco Energy Limited ("**Resulting Company 3**") and Vedanta Iron and Steel Limited ("**Resulting Company 4**") and their respective shareholders and creditors pursuant to the provisions of Sections 230-232 and other applicable provisions of the Companies Act, 2013 (the "**Act**") ("**Scheme**"). A copy of the Scheme is enclosed herewith as **Annexure A**.

2. Pursuant to intimation dated March 5, 2025 by the Demerged company to BSE Limited ("**BSE**") and National Stock Exchange of India Limited ("**NSE**") (hereinafter collectively referred to as the "**Stock Exchanges**"), the Resulting Company 2 filed an appeal before the Hon'ble NCLAT against the order dated March 4, 2025 ("**NCLT Order**") passed by the Mumbai Bench of the Hon'ble National Company Law Tribunal ("**NCLT**"), rejecting the Scheme presented by the Resulting Company 2 in the Company Scheme Application (C.A./CAA/ MB/220/2024). By way of the order dated September 15, 2025, the Hon'ble NCLAT set aside the NCLT Order and directed Ld. NCLT to proceed with the TSPL's first motion application and decide on convening / dispensation of the meetings. Accordingly, Hon'ble NCLT by way of the order dated October 17, 2025 directed to convene meetings of secured and unsecured creditors of the Resulting Company 2 and dispensed with the meetings of shareholders of the Resulting Company 2. A copy of the intimation made by the Demerged Company to BSE and NSE regarding the NCLT Order is enclosed herewith as **Annexure G**.

3. Pursuant to Demerged Company's discussions and deliberations with stakeholders (including lenders) with respect to the Original Scheme, following had emerged:

   (i) A demerger of the Base Metals Undertaking may be considered at a stage when the Base Metals business evolves and matures to realize the full value potential of such demerger for shareholders;

   (ii) Lenders believe the Original Scheme would be more favourable for unlocking value and overall optimal balancing of debt allocation across the Demerged Company and the Resulting Companies post the demerger if the Base Metals Undertaking is retained in the Demerged Company itself;

(iii) Given the Demerged Company is exploring alternative avenues for restarting the copper business (at Thoothukudi, Tamil Nadu), which is an integral part of the Base Metals Undertaking, the Demerged Company should proceed with the Original Scheme, without implementing Part V of the Original Scheme in relation to demerger of Base Metals undertaking; and

(iv) The non-implementation of demerger of the Base Metals Undertaking and retaining the same in the Demerged Company will not affect the overall value creation as envisioned. The shareholders will continue to enjoy value unlocking of the Base Metals Undertaking as part of legacy residual Demerged Company where they will remain shareholders in addition to receiving equivalent shares in other Resulting Companies which will mirror shareholding of the Demerged Company. The shareholders' beneficial interests in the overall value of the Demerged Company and the Resulting Companies will remain unaffected.

4. Accordingly, pursuant to paragraphs 44, 46 and 51 of the proposed Scheme of Arrangement between the Demerger Company and Resulting Company 1 and Resulting Company 2 and Resulting Company 3 and Vedanta Base Metals Limited ("**VBML**") and Resulting Company 4 and their respective shareholders and creditors ("**Original Scheme**"), the board of directors ("**Board**") of the Demerged Company, VBML and the Resulting Companies, have by way of their resolutions dated December 20, 2024, December 23, 2024 and December 23, 2024 respectively decided to not proceed with implementation of Part V (*Demerger and Vesting of the Base Metals Undertaking*) of the Original Scheme. Accordingly, the Board of the Demerged Company, VBML and the Resulting Companies have approved the updated Scheme of Arrangement, between the Demerged Company and Resulting Company 1 and Resulting Company 2 and Resulting Company 3 and Resulting Company 4 and their respective shareholders and creditors ("**Scheme**"). Thereafter, by way of the observation letters dated June 03, 2025 issued by BSE and NSE, Demerged Company received "no adverse observations" with respect to the Scheme ("**Revised Observation Letters**"). A copy of the Scheme is enclosed as **Annexure A** and forms part of this Statement. The proposed Scheme is envisaged to be effective from the Appointed Date (*as defined in the Scheme*), Copies of the Revised Observation Letters issued by BSE and NSE are enclosed as **Annexure E** and **Annexure F**, respectively.

Resulting Company 1, Resulting Company 2, Resulting Company 3 and Resulting Company 4 are hereinafter collectively referred to as the "**Resulting Companies**". Capitalised terms not defined herein and used in the Notice and this Statement shall have the same meaning as ascribed to them in the Scheme.

5. On November 21, 2024, NCLT, Mumbai Bench passed an order ("**VEDL First Motion Order**") in company scheme application number C.A./CAA/MB/171/2024, directing convening meetings of shareholders, secured creditors and unsecured creditors of the Demerged Company and secured creditors and unsecured creditors of the Resulting Company 3. Additionally, NCLT dispensed with convening meetings of shareholders of Resulting Company 1, Resulting Company 3 and Resulting Company 4 and meetings of creditors of Resulting Company 1 and Resulting Company 4. Pursuant to the VEDL First Motion Order, the Demerged Company and Resulting Company 3 issued notices for convening meetings of shareholders and creditors on January 17, 2025. The Scheme was subsequently approved by shareholders and creditors of the Demerged Company and Resulting Company 3 in their respective meetings on February 18, 2025 and the outcome was duly intimated to the Stock Exchanges by the Demerged Company on February 20, 2025. Thereafter, on March 5, 2025, a company petition (C.P.(CAA)/79(MB)2025) was filed before the Hon'ble NCLT *inter alia* by the Company and Resulting Company 1, Resulting Company 3 and Resulting Company 4 as applicant companies, seeking sanction of the Scheme. Copy of the intimation made by the Demerged Company to BSE and NSE regarding scrutinizer's reports of the meetings of shareholders, secured creditors and unsecured creditors of the Demerged Company are enclosed herewith as **Annexure H.**

6. The unsecured creditors of the Resulting Company 2 would be entitled to vote by remote e-voting prior to the Meeting or by e-voting during the Meeting. The quorum of the Meeting shall be 5 (five) unsecured creditors of the Resulting Company 2 present through VC / OAVM.

7. Dear Sir/Madam,

Sub: Scheme of Arrangement of between Vedanta Limited ("Company" or "VEDL"), Vedanta Aluminium Metal Limited ("VAML or "Resulting Company-1"), Talwandi Sabo Power Limited ("TSPL" or "Resulting Company-2"), Malco Energy Limited ("MEL" or "Resulting Company-3"), Vedanta Base Metals Limited ("VBML" or "Resulting Company-4"), Vedanta Iron and Steel Limited ("VISL" or "Resulting Company-5") and their respective shareholders and creditors ("Scheme")

Disclosure under Regulation 30 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015

We refer to our previous intimations dated July 30, 2024 and November 22, 2024 with respect to the Scheme.

Pursuant to the Hon'ble National Company Law Tribunal ("NCLT") order dated November 21, 2024, VEDL is in the process of issuing the notice to convene requisite meetings of its Equity Shareholders, Secured Creditors and Unsecured Creditors and is liaising with stakeholders concerned. During the course of management's discussions and deliberations with stakeholders (including lenders) with respect to the Scheme, the following has emerged:

(i) A demerger of the Vedanta Base Metals undertaking may be considered at a stage when the Base Metals business evolves and matures to realize the full value potential of such demerger for shareholders;

(ii) Lenders believe the Scheme would be more favourable for unlocking value and overall optimal balancing of debt allocation across residual Vedanta and resulting companies if the **Vedanta Base Metals** undertaking is retained in residual Vedanta itself;

(iii) Given Vedanta is exploring alternative avenues for restarting the copper business (at Thoothukudi, Tamil Nadu), which is an integral part of the Base Metals undertaking, Vedanta should proceed with the Scheme, without implementing Part V in relation to demerger of Vedanta Base Metals undertaking;

(iv) The non-implementation of demerger of the Base Metals undertaking and retaining the same in Vedanta will not affect the overall value creation as envisioned. The shareholders will continue to enjoy value unlocking of the Vedanta Base Metals business as part of legacy residual Vedanta where they will remain shareholders in addition to receiving equivalent shares in other resulting companies which will mirror Vedanta shareholding. The shareholders' beneficial interests in the overall value of Vedanta and resulting companies will remain unaffected.

Accordingly, we would like to update you that the Board has today at 08:20 p.m. IST, approved the decision to not implement Part V of the Scheme pertaining to Base Metals undertaking along with appropriate updates to the Scheme. The non-implementation of the Base Metals undertaking any other Parts of the

Scheme in relation to demerger of (a) Aluminium Undertaking (*as defined under the Scheme*); (b) the Merchant Power Undertaking (*as defined under the Scheme*); (c) the Oil and Gas Undertaking (*as defined under the Scheme*); and (d) the Iron Ore Undertaking (as defined under the Scheme), in any manner. All key terms as originally envisaged under the Scheme including with respect to share entitlement ratio shall remain unaffected.

The updated draft of the Scheme shall be circulated along with the notice convening shareholders/ creditors meeting in accordance with the order of the NCLT dated November 21, 2024.

This is for your information and record.

Thanking you,

Yours faithfully,

For Vedanta Limited

APPLICANT COMPANY / RESULTING COMPANY 2

18. Learned Counsel for the Applicant Company submits that as on October 03, 2024, the Resulting Company 2 has 7 equity shareholders (including 6 nominee shareholders). A meeting of the equity shareholders of the Resulting Company 2 to approve the scheme be dispensed with since, Resulting Company 2 has received consents from all the equity shareholders in the form of affidavits approving the Scheme. The consent affidavits of the equity shareholders of the Resulting Company 2 are annexed to the Company Scheme Application. Accordingly, the requirement to hold a meeting of the equity shareholders of the Resulting Company 2 is dispensed with.

19. Learned Counsel for the Applicant Company submits that there are 2 secured creditors of the Applicant Company having an outstanding amount of around INR 65,50,84,94,137. A meeting of the secured creditors of the Applicant Company be convened and held within 90 days from the date of receipt of the order. votes electronically. In addition to the above, the Applicant Company shall provide facility of remote e-voting to its secured creditors to cast their votes.

20. Learned Counsel for the Applicant Company submits that there are 212 unsecured creditors of the Applicant Company having an outstanding amount of INR 2,35,88,70,909. A meeting of the unsecured creditors of the Applicant Company be convened held within 90 days from the date of receipt of the order. The meeting shall be convened through video conferencing, other audio-visual means or in the physical presence of unsecured creditors, for the purpose of considering, and, if thought fit, approving with or without modification(s), the Scheme, wherein the unsecured creditors of the Applicant Company will be able to cast their votes electronically. In addition to the above, the Applicant Company shall provide facility of remote e-voting to its unsecured creditors to cast their votes.

21. SEPCO being the Creditor of the Applicant Company vehemently objected to the proposed Scheme presented by TSPL before this Court for approval by contending that the Applicant Company owes the Objector, SEPCO, an amount of Rs. 1251 Crores and their claims have not been properly projected in the present Scheme. The Counsel contended that in view of withholding of material information, the present Scheme deserves to be rejected as neither the Creditors nor the Shareholders in the present set of circumstances shall be able to exercise, their right to vote for or against the proposed Scheme. While elaborating his contentions, the Ld. Counsel submitted that in view of Rule 5 of the Companies (Compromise, Arrangement and Amalgamation) Rules 2016, the Tribunal is specifically conferred with the power to dismissed the 1st Motion Petition at the threshold where all the relevant facts are not disclosed by the Applicant as at the stage of First Motion, the Applicant is duty bound to declare all material information. The Ld. Counsel contended that on the contrary in the present case, the Applicants have very conveniently concealed material information from this Hon'ble Tribunal. The Counsel drew our attention to the list of Unsecured Creditors enclosed with the present Scheme by the Applicant certified by VP Garg and Company Chartered Accountants wherein a total debt of Rs. 235 Crores has been shown to be admitted whereas the case of the Objector is that their

Sensitivity: Public (C4)

Sensitivity: Public (C4)

admitted, unconditional, and unqualified debt is Rs. 1251 Crores as on 31.10.2023 which has deliberately been excluded without any payment and/or adjudication. The Counsel emphasized that the Board of Directors of TSPL approved the Scheme on 10.10.2023 and on this date of approval of the Scheme, the amount of Rs. 1251 Crores was due to SEPCO even as per TSPL's own record.

22. Strangely, this amount of Rs. 1251 Crores has been shown to be admitted debt towards SEPCO in the list of Creditors bearing TSPL Company Seal, Signatures of two Directors of TSPL and that of the Company Secretary of TSPL as well. The said list of Creditors has also been verified to be correct by an affidavit dated 23.11.2023 by a Director of TSPL.

23. It is pertinent to note that the list of Creditors has also been certified to be true by way of Certificate dated 23.11.2023 issued by the Chartered Accountant of TSPL, i.e. VP Garg and Company Chartered Accounts. All these stated documents have been filed by TSPL in the proceedings before Ld. Regional Director, Ministry of Corporate Affairs, for change of registered office of TSPL. Since all these documents were filed before the Regional Director, the Applicant was duty bound to file the same set of documents before the Court as well.

24. The Counsel further emphasized that TSPL has recognized SEPCO as a Creditor, not just as on October 31, 2023, but in balance sheet dating back to FY 2019-2020. In Balance sheet for FY 2022-23, SEPCOs debt was recognized as "foreign currency exposure" of approx. USD 137 million. The said amount arises from a consent award dated 21.05.2016 passed in favor of SEPCO against TSPL wherein TSPL had agreed to pay an amount of USD 138 million and INR 122 Crores.

25. It is vehemently contended by the Ld. Counsel that TSPL has deliberately filed an incorrect list of Creditors so as to exclude SEPCO from meeting of Creditors. It is further stated that these incorrect financials have been presented by TSPL against provisions of law as TSPL is duty bound to disclose all the facts and withholding this material information is bound to cause tremendous prejudice to the interest of all its Creditors and public at large. Counsel further submitted that had the debt due to SEPCO was considered, the valuation would have been

Sensitivity: Public (C4)

Sensitivity: Public (C4)

greatly impacted rather the same could have lead to negative net worth post the demerger.

26. To substantiate his contentions, the Ld. Counsel placed on record the affidavit dated 28.09.2024 filed by Director of TSPL wherein it is stated as under:

> "*That SEPCO has email dated 30.08.2024 raised an objection to the proposed change of registered office which is not liable to be considered by the Ld. Regional Director as there exists a dispute between the Petitioner Company and SEPCO which is subject to arbitration of Singapore, and the final outcome of the said dispute shall be honored whether it is in favor of the Petitioner Company or otherwise, irrespective of the quantum. Sufficient provisioning shall be made by the Petitioner Company after the outcome of the dispute attains finality if the Petitioner Company is held liable to pay any amount to SEPCO. Therefore, the concerns of SEPCO are addressed as on date*

27. The Counsel contended that in view of this, affidavit having been filed by the Director of TSPL, making provisioning of the amount due to SEPCO is bound to affect the shareholders and Creditors' interest to their prejudice and in view of this affidavit, TSPL is duty bound to inform all the Creditor, Shareholders BSE, NSE and this Hon'ble Court about these correct facts and the concealment of this material information deliberately at the hands of TSPL makes them ineligible for grant of any relief by the Hon'ble Court. The Counsel also relied upon the standalone Financial Statements for the period 01.04.2019 to 31.03.2020 placed on record wherein, it is categorically referred as under (page 175 note A):

> "*During* previous *year, the Company entered into minutes of meeting with one of its EPC project contractors for pending liabilities. Basis the agreement with contractor, Rs. 745.95 Crore (previous year Rs. 761.35 Crore) has been classified to non-current liability as this is not payable in next 12 months. Further, the contractor agreed for not charging any interest under the contract. Accordingly, Rs. 98.66 Crore interest liability*

was written back, out of which Rs. 70.64 Crores pertaining till March 31.03.2019 was booked under the Income".

Statements for the period 01.04.2021 to 31.03.2022 stating as under:

"*The Company signed minutes of meeting with one of its EPC project contractors for pending liabilities. Basis the agreement with contractor, Rs. 769.19 Crore (previous year Rs. 745.95 Crore) has been classified to non current liability as this is not payable in 12 months. No interest liability exists for the said settlement"*

Also, the Financial Statements for the period 01.04.2022 to 31.03.2023 stating as under:

"*TSPL had entered a contract with SEPCO for set up of power plant for 1980 MW. While the plant has been commissioned and is in operational certain aspects like ESP modifications are pending to be completed by Vendor. As per the last MoM dated 15th February, 2020 signed with SEPCO, payments would be due post completion of the ESP modification, PG testing and closure of other points. During the current year, it was reviewed that the Company is currently having it's foreign currency eposure w.r.t. SEPCO amounting to USD 137.24 Mn. While no USD payment has been made to SEPCO since FY 2019-20, we were incurring- INR 40 Cr. every year on account of forward premium There is significantly uncertainty in the timing and amount that would finally be settled in respect of SEPCO. Considering there would not be any foreign exchange outgo in next 2 years, it was decided to cancel the forex cover pertaining to project creditor liability in full.*

28. In view of the above, the Counsel contended that the facts projected by the Ld. Counsel before the Court for approval of the 1st Motion are not true and correct and, on this ground, the present Petition deserves to be rejected at the outset.

29. To substantiate his contention, the Counsel also relied upon the judgment of the Hon'ble Supreme Court in the case of "***Asset Reconstruction Company (India) Limited Vs. Bishal Jaiswal and another 2021 (6 SCC 366)"*** wherein the Hon'ble Court has been pleased to hold as under:

> *"21……The natural inference to be drawn from the balance sheet is that the closing balance due to the creditor at the end of the previous year will be carried forward as the opening balance due to him at the beginning of the next year. In each balance sheet there is thus an admission of a subsisting liability to continue the relation of debtor and creditor and a definite representation of a present intention to keep the liability alive until it is lawfully determined by payment or otherwise……"*

30. The Counsel also placed reliance on the judgment ***in M/s Mist Direct Sales Private Limited and Unsecured Creditors (CA 10 of 2024),*** wherein it was held as under:

> *"11…..all relevant material facts, including the latest financial position of the Company, any pending investigations or proceedings, and the effect of these on the Scheme are required to be disclosed to the Stakeholders. The scheme should not result in the oppression of any group which have not been included in the Scheme, but are however, an integral part of the overall project concerned nor should it be prejudicial to the public interest."*
>
> *"14. Further it is observed that the petitioner has made only a partial disclosure in its petitioner under Section 230 of the Companies Act,*

Sensitivity: Public (C4)

2013. The full disclosure of all relevant material facts is imperative for a fair and thorough examination of the scheme of compromise and arrangement by the allotees. The absence of complete information, including any pending investigations or proceedings, and their potential impact on stakeholders, undermines the transparency and fairness required in such matters in the interest of the stakeholders for whom the scheme has been proposed. Without full disclosure, this Tribunal also cannot adequately assess whether the scheme is equitable, reasonable, and not prejudicial to any class of stakeholders or the public interest.

"19. .....Before us is a petitioner filed for sanctioning a scheme of Compromise and Arrangement wherein it is observed that there are many shortcomings which are essential requirements in a first motion petition. The very purpose of taking permission from this Tribunal for convening a meeting is to ensure that the scheme is not prejudicial to the interests of any class of stakeholders involved and that all classes of stakeholders who will be affected by the Scheme have been made to participate in its approval. Most importantly, all relevant material facts any pending investigations or proceedings, and the effect of these on the Scheme are disclosed to all those stakeholders who will decide regarding approval of the scheme. The same is not the case here and therefore this judgment does not render any help to the Petitioner."

"24. We are therefore of the view that the Scheme suffers from lack of disclosure of material facts which are essential for the allottees/constituents of the meeting to consider and excludes some class of creditors who are integral to this project and should have a say in the decision making. It is a conditional scheme fraught with too many uncertainties. In the light of the foregoing discussions, the petition stands ***dismissed.****"*

31. On the issue of the Applicant being the necessary party who deserve to be allowed to intervene, the Ld. Counsel placed reliance upon the judgment of Hon'ble

Sensitivity: Public (C4)

Sensitivity: Public (C4)

NCLT, Kolkata Bench in the case of ***Shristi Infrastructure Development Corporation Limited in CP 737 of 2017,*** wherein the Hon'ble Court has been pleased to hold as under:

> *"14. ..... The applicant has made substantial claim against the R1. Thus, the question is whether the claim of the applicant under consideration before the Arbitration Tribunal stand affected by the approval of the scheme in the CP. If it affects necessarily the applicant is an interested party allowed to intervene."*

The Counsel also placed reliance on the para 17 of the aforesaid judgment, wherein it was held as under:

> *"17. According to him the applicant comes under the purview of contingent creditors as per Indian Accounting Standard and therefore the R1 is obliged to show its liability arise out of SHA in the financial statement and it deliberately not shown in it for avoiding notice under section 230(3) of the Act to the applicant. I find some fore in the above said argument advanced on the side of the applicant.*

32. On the other hand, the Ld. Counsel for the Applicant not only strongly opposed the intervention by the Intervenor at this stage but also stated that the Hon'ble Court has very limited right at the time of First Motion and even if the Intervenor is to be allowed to intervene, he should be granted permission at the time of approval of the Scheme as the meeting of shareholders and Creditors is yet to happen. The Counsel relied upon the judgment in the case of ***Rainbow Denim v. Rama Petrochemical [(2002) 10 SCC 249]***. It was also emphasized by the Ld. Counsel for the Applicant that the Tribunal is not to examined the merits of the Scheme at the stage of First Motion where the issue is only on holding of meeting of the Creditors / members qua the proposed arrangement and any interference by the Tribunal at this stage is without jurisdiction. Reliance has been placed upon the judgments of Hon'ble NCALT in the matter of ***MEL Windmills Private Limited Vs. Minerals Enterprises Private Limited [(2019) SCC OnLine NCLAT 900]***. Reliance was also placed upon the various judgments stating that an

Sensitivity: Public (C4)

Sensitivity: Public (C4)

Objector cannot object to a Scheme of Arrangement relying on a disputed claim and the proceedings before the Tribunal cannot be used as a weapon to recover any claims. The Counsel has also relied upon the judgment of the Hon'ble NCLAT in the matter of ***Ericsson India Private Limited (Company Appeal No. 148 of 2021)*** passed with respect to the issue of the requirements of disclosures. Further, on the issue that the notes to Balance-Sheets have to be read together, the Ld. Counsel has relied on the judgment in the case of the ***State of Bihar Vs. M/s Ziqitza Healthcare Limited [2024 SCC Online SC 2553].***

33. After having considered all the objections raised by the Ld. Counsel for the Parties and perusing the judgments relied upon, it deserves to be clarified at the outset that the Objector, by way of filing the objections, has not sought adjudication or repayment of its debt, nor has dwelled upon the merits of the Scheme. Rather, the Objector has highlighted the procedural non-compliances on the part of the Applicants and the concealment of material facts that would cause prejudice to the interests of the Creditors/Members of the Applicant Company.

34. It is the mandate of law under Section 230 (2)(a) of the Companies Act, 2013, that all the material facts relating to the Company, such as the latest financial position of the company, the latest auditor's report on the accounts of the company and the pendency of any investigation or proceedings against the company have to be disclosed before the Tribunal. In the present case, the Objector has brought to our attention that material information with respect to the pending dues of SEPCO, which was duly reflected in the balance sheets of the Applicant Company since 2019 util the approval of the Scheme by the Directors, have been altered to the prejudice of the Objector. From the perusal of the documents available on record, it is an undisputed position that the Intervenor SEPCO is a Creditor of TSPL. However, TSPL has conveniently excluded SEPCO from the process of consideration and approval of the Scheme by not projecting SEPCO as a Creditor to the extent of Rs. 1251 Crores. This has been done deliberately to defeat SEPCO's rights. SEPCO was listed as an Unsecured Creditor to the extent of Rs. 1251 Crores, which would constitute more than 75% of the Unsecured Debt by value and as a result of the same, the vote by SEPCO

Sensitivity: Public (C4)

Sensitivity: Public (C4)

itself would have been against the Scheme, potentially impacting the interest of TSPL. Furthermore, there is merit in the contentions of the Ld. Counsel for the Intervenor with respect to the net worth of TSPL prior to and post demerger of the Scheme. The calculation of net worth bereft of the claim of the Intervenor cannot be stated to be the correct calculation which is bound to prejudice the interest of the Creditors and of Members. The non-disclosure of the amount due to be paid to the Intervenor not only is bound to affect the net worth but also the valuation having been arrived at as while calculating "*Fair Exchange Share Ratio"*, the valuer has not carried out any independent valuation thereby not factoring the dues of Rs. 1251 Crores of SEPCO. These dues would have a great impact on any valuation and are bound to impacting the public interest at large.

35. On the other hand, the Ld. Counsel for the Applicant, TSPL, has vehemently contended that the dues of SEPCO are contingent and subject to the adjudication, the same deserves no consideration at this stage. In this regard, it deserves to be taken note of that since 2019, the dues are duly reflected in the Balance-Sheet of TSPL. At the time of shifting of the registered office on the objection of SEPCO, the Director of TSPL made a statement on oath stating that sufficient provisioning shall be made by the Petitioner Company after the outcome of the dispute attains finality if the Petitioner Company is held liable to pay any amount to SEPCO. In view of the fact that the TSPL is well aware of the huge liability towards SEPCO, they are duty bound to inform the Shareholders and also the Creditor with respect to this liability (Even if contingent) as the same is subsequently bound to affect the interests of the Shareholders and also the Creditors. The concealment of this fact on the part of the TSPL is a matter of grave concern for the Tribunal.

36. Additionally, the timing of the Arbitration Proceedings having been initiated by the Applicant against the SEPCO too cannot be ignored. The amount due to SEPCO arises out of the settlement agreement having been arrived at between the parties in 2016. The said settlement was made binding in terms of the consent award dated 21.05.2016 passed by the Arbitral Tribunal. At the time of approval of the Scheme of TSPL by the Board of Directors on 10.10.2023, SEPCO has been shows as a Creditor on 10.10.2023. SEPCO was sent an email notifying it

Sensitivity: Public (C4)

Sensitivity: Public (C4)

as a Creditor about the proposed change in the place of registered office and the SEPCO was called upon to provide a No Objection. The documents submitted before the Ld. Registrar included list of Creditors clearly stating that an amount of Rs. 1251 Crores is payable to SEPCO, there is no condition qualification or caveat attached to the said payment. A certificate by Chartered Accountant certifying this list of Creditors and also the affidavit of Director certifying the list of Creditors was enclosed.

37. It is pertinent to note that till this time, the said amount was not stated to be contingent. It is only once SEPCO submitted its objection before the Regional Directors that TSPL permitted the contracts and this unilateral termination of contract is subsequently reflected in balance-sheet for the Financial Year ended on 31.03.2024 and it is only after this that TSPL had issued a notice of Arbitration on SEPCO on 31.06.2024.

38. Therefore, keeping the totality of circumstances and also gone through the judgments referred by the Ld. Counsel for the Applicant, we deem it appropriate to hold that none of the judgments are relevant to the facts of the instant case as the present one is a case where material facts have not been disclosed by the Applicant Company, violating Section 230 (2)(a) of the Companies Act, 2013, which in our considered opinion is bound to prejudice the public interest at large. It is made clear that the merits of the Scheme proposed by the Applicant has not been gone into and the objections raised by the Objector and considered by the Tribunal are only to the extent of the disclosures which the Applicant Company is required to make in terms of law. Therefore, keeping in view of the facts and circumstances of the present case, we deem it appropriate to reject the Scheme presented by the Applicant under Section 230 of the Companies Act.

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the reports of the other auditors on separate audited financial information of the subsidiaries, associates, joint ventures and joint operations, the Statement:

i. includes the results of the entities as mentioned in Annexure-1;
ii. is presented in accordance with the requirements of the Listing Regulations in this regard; and
iii. gives a true and fair view in conformity with the applicable accounting standards, and other accounting principles generally accepted in India, of the consolidated net profit for the quarter and year ended March 31, 2025, other comprehensive income for the quarter and year ended March 31, 2025, and other financial information of the Group for the quarter and year ended March 31, 2025.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs), as specified under Section 143(10) of the Companies Act, 2013, as amended ("the Act"). Our responsibilities under those Standards are further described in the "Auditor's Responsibilities for the Audit of the Consolidated Financial Results" section of our report. We are independent of the Group, its associates, joint ventures and joint operations in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence obtained by us and other auditors in terms of their reports referred to in "Other Matter" paragraph below, is sufficient and appropriate to provide a basis for our opinion.

Management's Responsibilities for the Consolidated Financial Results

The Statement has been prepared on the basis of the consolidated annual financial statements. The Holding Company's Board of Directors are responsible for the preparation and presentation of the Statement that give a true and fair view of the net profit and other comprehensive loss and other financial information of the Group including its associates, joint ventures and joint operations in accordance with the applicable accounting standards prescribed under section 133 of the Act read with relevant rules issued thereunder and other accounting principles generally accepted in India and in compliance with Regulation 33 and 52 of the Listing Regulations. The respective Board of Directors of the companies included in the Group and of its associates, joint ventures and joint operations are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of their respective companies and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Statement that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the Statement by the Directors of the Holding Company, as aforesaid.

S.R. BATLIBOI & CO. LLP MUMBAI CHARTERED ACCOUNTANTS

In preparing the Statement, the respective Board of Directors of the companies included in the Group and of its associates, joint ventures and joint operations are responsible for assessing the ability of their respective companies to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operation, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and of its associates, joint ventures and joint operations are also responsible for overseeing the financial reporting process of their respective companies.

Auditor's Responsibilities for the Audit of the Consolidated Financial Results

Our objectives are to obtain reasonable assurance about whether the Statement as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the Statement.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Statement, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors.
- Conclude on the appropriateness of the Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its associates, joint ventures and joint operations to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Statement or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associates, joint ventures and joint operations to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Statement, including the disclosures, and whether the Statement represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities within the Group and its associates, joint ventures and joint operations of which we are the independent auditors and whose financial information we have audited, to express an opinion on the Statement. We are responsible for the direction, supervision and performance of the audit of the financial information of such entities included in the Statement of which we are the independent auditors. For the other entities included in the Statement, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company and such other entities included in the Statement of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

a) During the year ended 31 March 2025, the Group evaluated the fair value of the Oil & Gas business and updated other key assumptions such as brent price, discount rate, tax rate, etc., in line with the market participant approach. Consequently, the Group has recognized an impairment reversal of ₹ 2,358 Crore on its assets in the Rajasthan oil and gas block ("CGU").

b) During the previous year ended 31 March 31, 2024, Talwandi Sabo Power Limited ("TSPL"), a wholly owned subsidiary, terminated its contract with one of its major capital contractors (the "Contractor"), due to its persistent failure to fulfil its contractual obligations, which adversely affected the plant's performance since commissioning. Consequently, as of 31 March 2024, TSPL had written back creditors amounting to ₹ 1,252 crores, representing amounts assessed as no longer payable under the terminated contract. The management had assessed that the amount written back comprised ₹ 793 Crore towards loss of profit due to plant performance in the previous and earlier years and therefore recognised the same as Exceptional gain in the Consolidated Statement of Profit and Loss and adjusted the balance amount towards the cost of spares and ancillaries capitalised in Property, Plant & Equipment in earlier years.

Subsequently, the Contractor disputed the termination of the contract and claimed dues along with damages arising from the TSPL's action. TSPL issued a counter claim on the Contractor and also initiated arbitration proceedings to enforce its claims. Nominee arbitrators have been appointed by both the parties and on 03 April 2025, the Hon'ble Supreme Court appointed the presiding arbitrator.

Based on its detailed evaluations, merits of the case and independent legal advice obtained, the management continues to believe that the termination of the contract is contractually enforceable. The management believes that this position is sustainable, when this matter is finally decided by the adjudicating authority and accordingly, no adjustments are required to be made in the financial results for the quarter and year ended 31 March 2025 in respect of the Contractor's claims.

4 The Government of India ("GoI"), acting through the Directorate General of Hydrocarbons ("DGH"), had raised demand up to 14 May 2020 for Government's additional share of Profit Oil, based on its computation of disallowance of cost incurred over retrospective re-allocation of certain common costs between Development Areas (DAs) of Rajasthan Block and certain other matters aggregating to ₹ 9,545 Crore (US$ 1,162 million) and applicable interest thereon representing share of Vedanta Limited and its subsidiary.

The Group had disputed the aforesaid demand and invoked arbitration as per the provisions of the Production Sharing Contract. The Group had received the Final Partial Award dated 22 August 2023 from the Arbitration Tribunal ('the Tribunal') as amended by order dated 15 November 2023 and 08 December 2023 ("the Award"), dismissing the Government's contention of additional Profit Petroleum in relation to allocation of common development costs across Development Areas and certain other matters in accordance with terms of the Production Sharing Contract for Rajasthan Block, while allowing some aspects of the objections. Further, the Tribunal had decided that the Group was allowed to claim cost recovery of exploration cost as per terms of the Production Sharing Contract.

Pursuant to the Award, the Group had recognized a benefit of ₹ 4,761 Crore (US$ 578 million) in revenue from operations in financial year ended 31 March 2024. The Group has been adjusting the profit petroleum liability against the aforesaid benefit.

GoI filed interim relief application to the Tribunal on 03 February 2024 stating that the Group has unilaterally enforced the Award although the quantification of the same is pending. The matter was heard and the Tribunal vide its order dated 29 April 2024 has denied GoI's interim relief application. GoI has filed an appeal before the Delhi High Court ("Section 37 Appeal"). The hearing was concluded and the matter has been reserved for judgement. In the interim, vide letter dated 06 May 2024, GoI has submitted its calculation of the quantum, basis the Award. GoI has claimed a sum of US$ 224 million from the Group. The Group is of the view that the GoI computation is prima-facie contrary to the Award including clarifications issued by the Tribunal. The Tribunal has allowed these costs for cost recovery but this was not considered by GoI in their calculation of the quantum. The Group has responded to the GoI with its detailed analysis. As the Parties are unable to agree on quantum of the calculations, the matter will be decided by the Tribunal in the quantum proceedings.

GoI had also filed a challenge against the Award on 07 March 2024 in Delhi High Court ("Section 34 Appeal") and the matter was first heard on 14 March 2024. Notice has been issued on 01 August 2024 and liberty was granted to the Group to file its response. The response was filed on 30 August 2024. Further, no stay has been granted to GoI against adjustment of liability by the Group. Next date of hearing is awaited. The Group believes that the Court may not re-appreciate the evidence in Section 34 Appeal, as the interpretation by the Tribunal is plausible.

5	The Board of Directors, in its meeting held on 29 September 2023, had approved a Scheme of Arrangement ("the Original Scheme") for demerger of various businesses of the Company, namely, demerger of the Company's Aluminium (represented by the Aluminium segment), Merchant Power (represented by the Power segment), Oil & Gas (represented by the Oil and Gas segment), Base Metals (represented by the Copper and Zinc International segment) and Iron Ore (represented by Iron Ore segment and Steel business) Undertakings, resulting in 6 separate companies (including Vedanta Limited, being the demerged Company), with a mirrored shareholding and consequent listings at BSE Limited and National Stock Exchange of India Limited ("the Stock Exchanges"). The Stock Exchanges gave their no-objection to the Scheme. A first motion application, in respect of the Original Scheme, was filed by demerged company (i.e., Vedanta Limited) and four resulting companies (i.e., Vedanta Aluminium Metal Limited ("VAML"), Malco Energy Limited ("MEL"), Vedanta Base Metals Limited ("VBML") and Vedanta Iron and Steel Limited ("VISL")) before the Hon'ble National Company Law Tribunal, Mumbai Bench ("NCLT") on 06 August 2024 (''VEDL First Motion''). The Hon'ble NCLT by way of its order dated 21 November 2024 ("VEDL NCLT Order") inter alia: a) directed the Company to convene a meeting of its equity shareholders, secured creditors and unsecured creditors within 90 days of the date of receipt of the Order; b) directed MEL to convene a meeting of its secured and unsecured creditors within 90 days of the date of receipt of the Order; c) dispensed with the meeting of equity shareholders of VAML, MEL, VBML and VISL; and d) dispensed with the meeting of secured and unsecured creditors of VAML, VBML and VISL. In December 2024, Vedanta Limited and other five resulting companies decided not to proceed with implementation of Part V of the Original Scheme i.e., demerger of Base Metal undertaking into VBML, along with making appropriate updates to the Original Scheme ("Updated Scheme"). The non-implementation of the demerger of the Base Metals undertaking shall not affect any other parts of the Original Scheme described above. In compliance with VEDL NCLT Order, the meetings were held on 18 February 2025 and the Updated Scheme (with modification to exclude demerger of Base Metals Undertaking) was approved by the equity shareholders, secured creditors and unsecured creditors of the Company, as well as the secured and unsecured creditors of MEL. On 05 March 2025, Vedanta Limited along with VAML, MEL and VISL, filed a second motion petition before the Hon'ble NCLT inter alia seeking sanction of the Updated Scheme. The same is currently pending for admission before the Hon'ble NCLT. Further, a separate first motion application was filed by Talwandi Sabo Power Limited ("TSPL"), one of the resulting companies, with the Hon'ble NCLT, Mumbai on 22 October 2024 ("TSPL First Motion") for demerger of Merchant Power Undertaking of the Company, since TSPL's Registered Office ("RO") was in the process of being changed from Mansa (Punjab) to Mumbai (Maharashtra) at the time of filing VEDL First Motion. The Hon'ble NCLT, Mumbai by its order dated 04 March 2025, disposed the TSPL First Motion by rejecting the scheme ("TSPL NCLT Order"). TSPL has filed an appeal against the TSPL NCLT Order before the Hon'ble National Company Law Appellate Tribunal, New Delhi and the matter is being heard. Pending regulatory and other substantive approvals, no adjustments have been recorded in the financial results for the quarter and year ended 31 March 2025.

Independent Auditor's Report on the Quarterly and Year to Date Audited Standalone Financial Results of the Company Pursuant to the Regulation 33 and 52 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended

To
The Board of Directors of
Vedanta Limited

Report on the audit of the Standalone Financial Results

Opinion

We have audited the accompanying statement of quarterly and year to date standalone financial results of Vedanta Limited (the "Company") for the quarter and year ended March 31, 2025 ("Statement"), attached herewith, being submitted by the Company pursuant to the requirement of Regulation 33 and 52 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended (the "Listing Regulations").

In our opinion and to the best of our information and according to the explanations given to us, the Statement:

i. is presented in accordance with the requirements of the Listing Regulations in this regard; and
ii. gives a true and fair view in conformity with the applicable accounting standards and other accounting principles generally accepted in India, of the net profit, other comprehensive income and other financial information of the Company for the quarter ended March 31, 2025 and for the year ended March 31, 2025.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013, as amended ("the Act"). Our responsibilities under those Standards are further described in the "Auditor's Responsibilities for the Audit of the Standalone Financial Results" section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our opinion.

Management's Responsibilities for the Standalone Financial Results

The Statement has been prepared on the basis of the standalone annual financial statements. The Board of Directors of the Company are responsible for the preparation and presentation of the Statement that gives a true and fair view of the net profit and other comprehensive income of the Company and other financial information in accordance with the applicable accounting standards prescribed under Section 133 of the Act read with relevant rules issued thereunder and other accounting principles generally accepted in India and in compliance with Regulation 33 and 52 of the Listing Regulations. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the

accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Statement, the Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Results

Our objectives are to obtain reasonable assurance about whether the Statement as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the Statement.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Statement, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors.
- Conclude on the appropriateness of the Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial results or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Statement, including the disclosures, and whether the Statement represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other

matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

a) During the year ended 31 March 2025, the Company evaluated the fair value of the Oil & Gas business and updated other key assumptions such as brent price, discount rate, tax rate, etc., in line with the market participant approach. Consequently, the Company has recognized an impairment reversal of ₹ 913 Crore on its assets in the Rajasthan oil and gas block ("CGU") and ₹ 200 Crore on its investment in wholly owned subsidiary, Cairn India Holdings Limited ("CIHL").

b) Based on current operational performance of coking coal division of MALCO Energy Limited ("MEL"), a subsidiary of the Company, the management has reassessed the recoverability of loans given to and other receivables from MEL. Consequently, a provision of ₹ 217 Crore has been recorded in for the quarter and year ended 31 March 2025.

4 The Government of India ("GoI"), acting through the Directorate General of Hydrocarbons ("DGH"), had raised a demand up to 14 May 2020 for Government's additional share of Profit Oil based on its computation of disallowance of cost incurred over retrospective re-allocation of certain common costs between Development Areas (DAs) of Rajasthan Block and certain other matters aggregating to ₹ 9,545 Crore (US$ 1,162 million) and applicable interest thereon representing share of Vedanta Limited and its subsidiary.

The Company had disputed the aforesaid demand and invoked arbitration as per the provisions of the Production Sharing Contract. The Company had received the Final Partial Award dated 22 August 2023 from the Arbitration Tribunal ('the Tribunal') as amended by order dated 15 November 2023 and 08 December 2023 ("the Award"), dismissing the Government's contention of additional Profit Petroleum in relation to allocation of common development costs across Development Areas and certain other matters in accordance with terms of the Production Sharing Contract for Rajasthan Block, while allowing some aspects of the objections. Further, the Tribunal had decided that the Company was allowed to claim cost recovery of exploration cost as per terms of the Production Sharing Contract.

Pursuant to the Award, the Company had recognised a benefit of ₹ 2,381 Crore (US$ 289 million) in revenue from operations in financial year ended 31 March 2024. The Company has been adjusting the profit petroleum liability against the aforesaid benefit.

GoI filed interim relief application to the Tribunal on 03 February 2024 stating that the Company has unilaterally enforced the Award although the quantification of the same is pending. The matter was heard and the Tribunal vide its order dated 29 April 2024 has denied GoI's interim relief application. GoI has filed an appeal before the Delhi High Court ("Section 37 Appeal"). The hearing was concluded and the matter has been reserved for judgement.
In the interim, vide letter dated 06 May 2024, GoI has submitted its calculation of the quantum, basis the Award. GoI has claimed a sum of US$ 224 million from the Company. The Company is of the view that the GoI computation is prima-facie contrary to the Award including clarifications issued by the Tribunal. The Tribunal has allowed these costs for cost recovery but this was not considered by GoI in their calculation of the quantum. The Company has responded to the GoI with its detailed analysis. As the Parties are unable to agree on quantum of the calculations, the matter will be decided by the Tribunal in the quantum proceedings.

GoI had also filed a challenge against the Award on 07 March 2024 in Delhi High Court ("Section 34 Appeal") and the matter was first heard on 14 March 2024. Notice has been issued on 01 August 2024 and liberty was granted to the Company to file its response. The response was filed on 30 August 2024. Further, no stay has been granted to GoI against adjustment of liability by the Company. Next date of hearing is awaited. The Company believes that the Court may not re-appreciate the evidence in Section 34 Appeal, as the interpretation by the Tribunal is plausible.

5 The Board of Directors, in its meeting held on 29 September 2023, had approved a Scheme of Arrangement ("the Original Scheme") for demerger of various businesses of the Company, namely, demerger of the Company's Aluminium (represented by the Aluminium segment), Merchant Power (represented by the Power segment), Oil & Gas (represented by the Oil and Gas segment), Base Metals (represented by the Copper and Zinc International segment) and Iron Ore (represented by Iron Ore segment and Steel business) Undertakings, resulting in 6 separate companies (including Vedanta Limited, being the demerged Company), with a mirrored shareholding and consequent listings at BSE Limited and National Stock Exchange of India Limited ("the Stock Exchanges"). The Stock Exchanges gave their no-objection to the Scheme.

A first motion application, in respect of the Original Scheme, was filed by demerged company (i.e., Vedanta Limited) and four resulting companies (i.e., Vedanta Aluminium Metal Limited ("VAML"), Malco Energy Limited ("MEL"), Vedanta Base Metals Limited ("VBML") and Vedanta Iron and Steel Limited ("VISL")) before the Hon'ble National Company Law Tribunal, Mumbai Bench ("NCLT") on 06 August 2024 ("VEDL First Motion"). The Hon'ble NCLT by way of its order dated 21 November 2024 ("VEDL NCLT Order") inter alia

a) directed the Company to convene a meeting of its equity shareholders, secured creditors and unsecured creditors within 90 days of the date of receipt of the Order;

b) directed MEL to convene a meeting of its secured and unsecured creditors within 90 days of the date of receipt of the Order;

c) dispensed with the meeting of equity shareholders of VAML, MEL, VBML and VISL; and

d) dispensed with the meeting of secured and unsecured creditors of VAML, VBML and VISL.

In December 2024, Vedanta Limited and other five resulting companies decided not to proceed with implementation of Part V of the Original Scheme i.e., demerger of Base Metal undertaking into VBML, along with making appropriate updates to the Original Scheme ("Updated Scheme"). The non-implementation of the demerger of the Base Metals undertaking shall not affect any other parts of the Original Scheme described above.

In compliance with VEDL NCLT Order, the meetings were held on 18 February 2025 and the Updated Scheme (with modification to exclude demerger of Base Metals Undertaking) was approved by the equity shareholders, secured creditors and unsecured creditors of the Company, as well as the secured and unsecured creditors of MEL.

On 05 March 2025, Vedanta Limited along with VAML, MEL and VISL, filed a second motion petition before the Hon'ble NCLT inter alia seeking sanction of the Updated Scheme. The same is currently pending for admission before the Hon'ble NCLT.

Further, a separate first motion application was filed by Talwandi Sabo Power Limited ("TSPL"), one of the resulting companies, with the Hon'ble NCLT, Mumbai on 22 October 2024 ("TSPL First Motion") for demerger of Merchant Power Undertaking of the Company, since TSPL's Registered Office ("RO") was in the process of being changed from Mansa (Punjab) to Mumbai (Maharashtra) at the time of filing VEDL First Motion. The Hon'ble NCLT, Mumbai by its order dated 04 March 2025, disposed the TSPL First Motion by rejecting the scheme ("TSPL NCLT Order"). TSPL has filed an appeal against the TSPL NCLT Order before the Hon'ble National Company Law Appellate Tribunal, New Delhi and the matter is being heard.

Pending regulatory and other substantive approvals, no adjustments have been recorded in the financial results for the quarter and year ended 31 March 2025.

6 Other income includes dividend income from subsidiaries of ₹ 278 Crore, ₹ NIL Crore, ₹ NIL Crore, ₹ 9,944 Crore, and ₹ 4,965 Crore for the quarters ended 31 March 2025, 31 December 2024, 31 March 2024, years ended 31 March 2025 and 31 March 2024, respectively.

Basis for Opinion

We conducted our audit in accordance with Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements.

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance (including other comprehensive income), changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including Ind AS prescribed under section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal

financial controls with reference to financial statements in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

[Referred to in paragraph 2(f) under 'Report on Other Legal and Regulatory Requirements' section in our Independent Auditor's Report of even date to the members of Vedanta Aluminium Metal Limited on the financial statements for the year ended March 31, 2025]

Report on the Internal Financial Controls with reference to Financial Statements under clause (i) of sub-section 3 of section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to financial statements of Vedanta Aluminium Metal Limited ("the Company") as of March 31, 2025 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing specified under section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness.

Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal controls based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Continuation Sheet

Meaning of Internal Financial Controls with reference to Financial Statements

A company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2025, based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal controls stated in the Guidance Note issued by the ICAI.

NOTE 1. CORPORATE INFORMATION

Vedanta Aluminium Metal Limited ("the Company") is a Public Company domiciled in India and incorporated under the provisions of the Companies Act, 2013 ("the Act"). The Company was incorporated on 06 October 2023 for carrying out the business activities in the metal and mining sector.

NOTE 2.1 BASIS OF PREPARATION AND BASIS OF MEASUREMENT OF FINANCIAL STATEMENTS

(a) Basis of Preparation

These financial statements of the Company have been prepared in accordance with Indian Accounting Standards notified under the Companies (Indian Accounting Standard) Rules, 2015 and other relevant provisions of the Act (as amended from time to time). These financial statements have been prepared in accordance with the accounting policies, set out below.

All financial information presented in Indian Rupee has been rounded off to the nearest Lakhs except when indicated otherwise.

These financials statements are approved for issue by the Board of Directors on April 17, 2025. The revision to these financials statements is permitted by the Board of Directors after obtaining necessary approvals or at the instance of regulatory authorities as per provisions of the Act.

(b) Basis of Measurement

The financial statements have been prepared on a going concern basis using historical cost convention and on an accrual method of accounting.

NOTE 2.2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Use of estimates

The preparation of financial statements in conformity with the Indian Accounting Standards requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods

(b) Accounting for foreign currency transactions

The functional currency of the Company is determined as the currency of the primary economic environment in which it operates. For all principal businesses of the Company, the functional currency is Indian rupee. The financial statements are presented in Indian rupee

In the financial statements of the Company, transactions in currencies other than the functional currency are translated into the functional currency at the exchange rates ruling at the date of the transaction. Monetary assets and liabilities denominated in other currencies are translated into the functional currency at exchange rates prevailing on the reporting date. Non-monetary assets and liabilities denominated in other currencies and measured at historical cost or fair value are translated at the exchange rates prevailing on the dates on which such values were determined

All exchange differences are included in the statement of profit and loss except those where the monetary item designated as an effective hedging instrument of the currency risk of designated forecasted sales or purchases, which are recognized in the other comprehensive income

(c) Earnings Per Share

The Company presents basic and diluted earnings per share ("EPS") data for its equity shares. Basic EPS is calculated by dividing the profit or loss attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the period. Diluted EPS is determined by adjusting the profit or loss attributable to equity shareholders and the weighted average number of equity shares outstanding for the effects of all dilutive potential equity shares

(d) Provisions

The assessments undertaken in recognising provisions have been made in accordance with the applicable Ind AS
Provisions represent liabilities for which the amount or timing is uncertain. Provisions are recognized when the Company has a present obligation (legal or constructive), as a result of past events, and it is probable that an outflow of resources, that can be reliably estimated, will be required to settle such an obligation.
If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows to net present value using an appropriate pre-tax discount rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. Unwinding of the discount is recognized in the statement of profit and loss as a finance cost. Provisions are reviewed at each reporting date and are adjusted to reflect the current best estimate

(e) **Current and non-current classification**

The Company presents assets and liabilities in the balance sheet based on current / non-current classification.

An asset is classified as current when it satisfies any of the following criteria:
– it is expected to be realized in, or is intended for sale or consumption in, the Company's normal operating cycle
– it is held primarily for the purpose of being traded;
– it is expected to be realized within twelve months after the reporting date; or
– it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date.

All other assets are classified as non-current.
A liability is classified as current when it satisfies any of the following criteria:
– it is expected to be settled in the Company's normal operating cycle;
– it is held primarily for the purpose of being traded;
– it is due to be settled within twelve months after the reporting date; or
– the Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current only.

(f) **Cash and cash equivalents**

Cash and cash equivalents comprise cash at bank and on hand and short-term money market deposits which have a maturity of three months or less from the date of acquisition that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.
For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above.

(g) **Financial assets**

The Company classifies its financial assets in following measurement categories :

a. those to be measured subsequently at fair value (either through other comprehensive income (OCI) or through profit or loss) and

b. those measured at amortised cost

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of financial asset not at fair value through profit and loss, transaction cost that are directly attributable to the acquisition of financial asset. Transaction cost of financial assets carried at fair value through profit or loss are expensed in profit or loss.

For equity instruments, the Company may make an irrevocable election to present subsequent changes in the fair value in OCI. The Company makes such election on an instrument-by-instrument basis. If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognised in the OCI. There is no recycling of the amounts from OCI to the statement of profit and loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

(h) Financial liabilities

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, or as loans, borrowings and payables as appropriate

All financial liabilities are recognised initially at fair value and, in the case of financial liabilities at amortised cost, net of directly attributable transaction costs. The Company's financial liabilities include trade and other payables, loans and borrowings.

After initial recognition, interest-bearing loans, borrowings and trade and other payables are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in the statement of profit and loss when the liabilities are derecognised as well as through the EIR amortisation process.

(i) Equity investment in subsidiaries

At initial recognition, investments representing equity interest in subsidiaries are recognized at Fair value. Subsequently, all fair value changes, excluding dividends, are recognized in the Other Comprehensive Income(OCI). There is no recycling of the amounts from OCI to the statement of profit and loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

(j) Standards notified but not yet effective

with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to

events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

ANNEXURE 2 TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE FINANCIAL STATEMENTS OF Talwandi Sabo Power Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to financial statements of Talwandi Sabo Power Limited ("the Company") as of March 31, 2025 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to these financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, as specified under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to these financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to these financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to these financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to these financial statements.

Meaning of Internal Financial Controls With Reference to Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation

of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls With Reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to these financial statements and such internal financial controls with reference to these financial statements were operating effectively as at March 31, 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

Talwandi Sabo Power Limited

Notes forming part of the financial statements as at and for the year ended March 31, 2015

1 **Company's Overview :**

Talwandi Sabo Power Limited (herein after referred as "TSPL" or "the Company") was incorporated as a Special Purpose Vehicle by Punjab State Power Corporation Limited (herein after referred as "PSPCL") (formerly known as Punjab State Electricity Board (PSEB)) to construct a 3*660 MW coal based thermal power plant (The Plant) on Build, Own and Operate (BOO) basis. TSPL became a wholly owned subsidiary of Vedanta Limited (herein after referred as "VL") (formerly known as Sesa Sterlite Limited (SSL)) pursuant to the selection of VL as the successful bidder after going through a tariff based international Competitive Bidding (ICB) process. The Share Purchase Agreement (SPA), Power Purchase Agreement (herein after referred as "PPA") for sale of power from the Plant to PSEB for a period of 25 years and other necessary documents were signed between VL, TSPL and PSPCL on September 01, 2008. The address of the registered office is 1st floor, C wing, Unit 103, Corporate Avenue Atul Projects, Chakala, Andheri (East), Mumbai, Maharashtra, 400093 and principal place of business is in village Banawala , Mansa - Talwandi Sabo Road, Mansa, Punjab - 151302

The Financial Statements were approved for issuance by the Board of Directors on April 22, 2015.

2 **Basis of Preparation and Material Accounting Policies :**

2.A. BASIS OF PREPARATION

(a) Basis of Preparation and Compliance with Ind AS

(i) These financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and other relevant provisions of the Companies Act, 2013 (the Act).

(ii) Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

(iii) Certain Comparative figures appearing in these Financial statements have been regrouped and/or reclassified to better reflect the nature of these items.

(b) Basis of Measurement

(i) The financial statements have been prepared on a going concern basis using historical cost convention, except for certain financial assets and liabilities which are measured at fair value/amortised cost (Refer note 2.B.(d)).

2.B. MATERIAL ACCOUNTING POLICIES

The Company has applied the following Accounting policies to all periods presented in the Financial Statements:

(a) Functional and presentation Currency

The Financial Statements are prepared in Indian Rupees (₹), which is the Company's functional currency. All financial information presented in Indian Rupee has been rounded to the nearest Crore with two decimals.

(b) Revenue from Contract with Customer

Ind AS 115 outlines a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers. The core principle of the standard is for companies to recognise revenue when the control of the goods and services is transferred to the customer as against the transfer of risk and rewards. The amount of revenue recognised reflects the consideration to which the Company expects to be entitled in exchange for those goods or services.

Revenue from sale of power is recognised when delivered and measured based on rates as per bilateral contractual agreement with its sole customer i.e. PSPCL. Late Payment Surcharge Cess ("LPSC") if any received by the Company from PSPCL as per the contract is recorded as revenue from sale of power. Revenue from sale of by-products are included in revenue.

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Company transfers goods or services to a customer even before the customer pays consideration or payment is due, a contract asset is recognised for the earned consideration when that right is conditional on the Company's future performance.

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made, or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company performs under the contract.

The Company does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a result, the Company does not adjust any of the transaction prices for the time value of money.

Lease Income

Where the Company is a lessor, lease income from operating leases (excluding amounts for services on maintenance, etc. and contingent rentals) is recognised in income on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases and another systematic basis is more representative of the time pattern in which user's benefit derived from the leased asset is diminished. Contingent rent is recognised in the period when earned. The respective leased assets are included in the balance sheet according to the nature of the asset.

Interest Income

Interest income from debt instruments is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts throughout the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses.

S.R. BATLIBOI & CO. LLP NEW DELHI

(c) Property, Plant and Equipment

(i) Property, Plant and Equipment

The initial cost of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, and any directly attributable costs of bringing an asset to working condition and location for its intended use. It also includes the cost of replacing part of the plant and equipment and borrowing costs for long-term construction projects if the recognition criteria are met. Machinery spare parts are capitalized when they meet the definition of property, plant and equipment.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment. Likewise, expenditure towards major inspections and overhauls are identified as a separate component and depreciated over the expected period till the next overhaul expenditure.

Subsequent costs and disposal:

Subsequent expenditure related to an item of property, plant and equipment is added to its book value only if it increases the future economic benefits from the existing asset beyond its previously assessed standard of performance/life. All other expenses on existing property, plant and equipment, including routine repair and maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss for the period during which such expenses are incurred.

An item of property, plant and equipment and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Gains and losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment, and are recognized net within other income/other expenses in Statement of Profit and Loss.

(ii) Capital Work in Progress

Assets during construction are capitalized in capital work in progress account. All costs attributable to construction of project or incurred in relation to the project under construction, net of incidental income during the construction/pre-production period, are aggregated under 'Expenditure during Construction Period' to be allocated to individual identified assets on completion. At the point when an asset is capable of operating in the manner intended by the management, the cost of construction is transferred to the appropriate category of property, plant and equipment. Costs associated with the commissioning of an asset are capitalized until the period of commissioning has been completed and the asset is ready for its intended use.

(iii) Depreciation

Assets during development or construction and freehold land are not depreciated. Property plant and equipment are stated at cost less accumulated depreciation and any provision for impairment. Depreciation commences when the assets are ready for their intended use.

Depreciation is calculated over the depreciable amount, which is the cost of an asset less its residual value. Depreciation is provided at rates calculated to write off the cost, less estimated residual value, of each asset on a straight-line method over its expected useful life.

The estimated useful lives of assets are as follows:

• Buildings	3-25 years
• Roads	5-10 years
• Plant and machinery	5-25 years
• Furniture and fixtures	5-10 years
• Vehicles*	4-8 years
• Railway siding	15 years
• Office equipment	5 years
• Computers and data processing an	3-6 years
• Laboratory equipment	10 years

The Company, based on technical assessment made by technical expert and management estimates, depreciates certain items of building, plant and equipment and furniture and fixtures over estimated useful lives which are different from the useful life prescribed in Schedule II to the Companies Act, 2013. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

Depreciation methods, useful lives and residual values of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

*Useful life of vehicles is taken as per the tenure of Finance Lease.

(d) Intangible Assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortisation and accumulated impairment losses, if any.

Intangible assets are amortized over their estimated useful life on a straight-line basis. Software is amortized over the estimated useful life of software of 3-6 years. The amortization period and the amortization method are reviewed at least at each financial year end. If the expected useful life of the asset is different from previous estimates, the change is accounted for prospectively as a change in accounting estimate.

(e) Lease

Company as a lessee

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

(i) Right-of-use assets

The Company recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

The right-of-use assets are also subject to impairment. Refer to the accounting policies in section (j) Impairment of non-financial assets.

(ii) **Lease Liabilities**

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

(iii) **Short-term leases and leases of low-value assets**

The Company applies the short-term lease recognition exemption to its short-term leases of machinery and equipment (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the recognition exemption of low-value assets to leases of office equipment that are of low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

Company as a Lessor

Leases in which the Company does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

(f) Current and Non Current Classification

The Company presents assets and liabilities in the balance sheet based on current and non-current classification.

An asset is treated as current when it is:
a. Expected to be realised or intended to be sold or consumed in normal operating cycle
b. Held primarily for the purpose of trading
c. Expected to be realised within twelve months after the reporting period, or
d. Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when it is:
a. Expected to be settled in normal operating cycle
b. Held primarily for the purpose of trading
c. Due to be settled within twelve months after the reporting period, or
d. There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

All other liabilities are classified as non-current. The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.
Deferred tax assets and liabilities are classified as non-current only.

(g) Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets – recognition

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit and loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

Subsequent Measurement

For purposes of subsequent measurement, financial assets are classified in three categories:

(i) Debt instruments at amortised cost

A 'Debt instrument' is measured at the amortised cost if both the following conditions are met:
a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the Effective Interest Rate (EIR) method. Amortised cost is calculated by considering any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in Finance Income in the Statement of Profit and Loss. The losses arising from impairment are recognised in the Statement of Profit and Loss.

S.R. BATLIBOI & CO. LLP NEW DELHI

MANSA

(i) Debt instruments at fair value through other comprehensive income (FVTOCI)

A 'debt instrument' is classified as FVTOCI if both of the following criteria are met:

a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
b) The asset's contractual cash flows represent SPPI.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognised in the other comprehensive income (OCI). However, the interest income, impairment losses & reversals and foreign exchange gain or loss are recognised in the statement of profit and loss. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to profit or loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

(ii) Debt instruments at fair value through profit and loss (FVTPL)

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorisation as at amortised cost or as FVTOCI, is classified as at FVTPL.

In addition, the Company may elect to designate a debt instrument, which otherwise meets amortised cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). The Company has not designated any debt instrument as at FVTPL.

Debt instruments included within the FVTPL category are measured at fair value with all changes recognised in the P&L.

Financial assets – derecognition

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contracted cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred.

Impairment of financial assets

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets:

- Financial assets that are debt instruments, and are measured at amortised cost e.g., loans, debt securities, deposits and trade receivables;
- Financial assets that are debt instruments and are measured as at FVTOCI;
- Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 115;

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables. The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

At each reporting date, for recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR.

ECL impairment loss allowance (or reversal) recognised during the period is recognised as income or expense in the Statement of Profit and Loss under the head 'Other Expenses'.

The balance sheet presentation for financial instruments is described below:

- Financial assets measured at amortised cost: ECL is presented as an allowance, i.e., as an integral part of the measurement of those assets in the balance sheet. The allowance reduces the net carrying amount. Until the asset meets write-off criteria, the Company does not reduce impairment allowance from the gross carrying amount.

- Debt instruments measured at FVTOCI: Since financial assets are already reflected at fair value, impairment allowance is not further reduced from its value. Rather, ECL amount is presented as 'accumulated impairment amount' in the OCI.

For assessing increase in credit risk and impairment loss, the Company combines financial instruments based on shared credit risk characteristics with the objective of facilitating an analysis that is designed to enable significant increases in credit risk to be identified on a timely basis.

Financial Liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.
The financial liabilities include trade and other payables, loans and borrowings including bank overdrafts and derivative financial instruments.

Subsequent measurement
The subsequent measurement of financial liabilities depends on their classification, as described below:

• Financial liabilities at amortised cost (Loans & Borrowings)

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in Statement of Profit and Loss when the liabilities are derecognised as well as through the EIR amortisation process.
Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

• Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on financial liabilities held are recognised in profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognised in OCI. These gains/losses are not subsequently transferred to profit or loss. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit or loss. The Company has not designated any financial liability as at fair value through profit and loss.

Financial Liabilities- Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

Equity Instruments
An equity instrument is any contract that evidences a residual interest in the assets of any entity after deducting all its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

Offsetting of financial instruments

Financial assets and financial liabilities are offset, and the net amount is reported in the balance sheet if there is a currently enforceable legal right to off-set the recognised amounts and there is an intention to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Supplier finance arrangements

The Company has established supplier finance arrangements. The Company evaluates whether financial liabilities covered such arrangements continue to be classified within trade payables, or they need to be classified as a borrowing or as part of other financial liabilities/ as a separate line item on the face of the balance sheet. Such evaluation requires exercise of judgment basis specific terms of the arrangement.

The Company classifies financial liabilities covered under supplier finance arrangement within trade payables in the balance sheet only if (i) the obligation represents a liability to pay for goods and services, (ii) is invoiced and formally agreed with the supplier, (iii) is part of the working capital used in its normal operating cycle, (iv) the company is not legally released from its original obligation to the supplier, and has not assumed a new obligation toward the bank, and another party (v) there is no substantial modification to the terms of the liability.

If one or more of the above criteria are met, the Company derecognises its original liability toward the supplier and recognises a new liability toward the bank which is classified as bank borrowing or other financial liability, depending on factors such as whether the Company (i) has obligation toward bank, (ii) is getting extended credit period such that obligation is no longer part of its working capital cycle, (iii) is paying interest directly or indirectly, (iv) has provided guarantee or security, and/or (v) is recognised as borrower in the bank books.

Cash flows related to liabilities arising from supplier finance arrangements that continue to be classified in trade payables in the standalone balance sheet are included in operating activities in the standalone statement of cash flows, when the Company finally settles the liability.

In cases, where the Company has derecognised its original liability toward the supplier and recognise a new liability toward the bank, the Company has assessed that the bank is acting as its agent in making payment to the supplier. Accordingly, the Company presents operating cash outflow and financing cash inflow, when bank made payments to the supplier. The payment made by the Company to the bank toward interest, if any, as well as on settlement is presented as financing cash outflow.

(h) Derivative Financial Instruments

Initial recognition and subsequent measurement

In order to hedge its exposure to foreign exchange risks, the Company enters into forward contracts for hedging of exposures of foreign currencies borrowings and capital vendors. The Company does not hold derivative financial instruments for speculative purposes. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.
Any gains or losses arising from changes in the fair value of derivatives are taken directly to Statement of Profit and Loss.

(i) Fair Value Measurement

The Company measures financial instruments, such as, derivatives at fair value at each balance sheet date.
Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:
• In the principal market for the asset or liability, or
• In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.
The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset considers a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.
The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:
• Level 1: Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
• Level 2: Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
• Level 3: Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

(j) Borrowing Costs

Borrowing cost includes interest expense as per Effective Interest Rate (EIR) and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

Borrowing costs directly relating to the acquisition, construction or production of a qualifying capital project under construction are capitalised and added to the project cost during construction until such time that the assets are substantially ready for their intended use i.e. when they are capable of commercial production. Where funds are borrowed specifically to finance a project, the amount capitalised represents the actual borrowing costs incurred. Where surplus funds are available out of money borrowed specifically to finance a project, the income generated from such short-term investments is deducted from the total capitalised borrowing cost. Where the funds used to finance a project form part of general borrowings, the amount capitalised is calculated using a weighted average of rates applicable to relevant general borrowings of the Company during the year.
Capitalisation of borrowing costs is suspended and charged to the statement of profit and loss during the extended periods when the active development on the qualifying asset is suspended.
All other borrowing costs are recognised in the Statement of Profit and Loss in the year in which they are incurred.

EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial liability or a shorter period, where appropriate, to the amortised cost of a financial liability. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options).

(k) Impairment of Non- Financial Assets

Impairment charges and reversals are assessed at the level of cash-generating units. A cash-generating unit (CGU) is the smallest identifiable group of assets that generate cash inflows that are largely independent of the cash inflows from other assets or group of assets.

Impairment tests are carried out annually for all assets when there is an indication of impairment. The Company conducts an internal review of asset values annually, which is used as a source of information to assess for any indications of impairment or reversal of previously recognised impairment losses. External factors, such as changes in expected future prices, costs and other market factors are also monitored to assess for indications of impairment or reversal of previously recognised impairment losses.

If any such indication exists then an impairment review is undertaken, the recoverable amount is calculated, as the higher of fair value less costs of disposal and the asset's value in use. Fair value less costs of disposal is the price that would be received to sell the asset in an orderly transaction between market participants and does not reflect the effects of factors that may be specific to the entity and not applicable to entities in general.

Value in use is determined as the present value of the estimated future cash flows expected to arise from the continued use of the asset in its present form and its eventual disposal. The cash flows are discounted using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which estimates of future cash flows have not been adjusted. Value in use is determined by applying assumptions specific to the Company's continued use and cannot take into account future development. These assumptions are different to those used in calculating fair value and consequently the value in use calculation is likely to give a different result to a fair value calculation.

The carrying amount of the CGU is determined on a basis consistent with the way the recoverable amount of the CGU is determined. If the recoverable amount of an asset or CGU is estimated to be less than its carrying amount, the carrying amount of the asset or CGU is reduced to its recoverable amount.

An impairment loss is recognised in the Statement of Profit and Loss. Any reversal of the previously recognised impairment loss is limited to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined if no impairment loss had previously been recognised. Company has done the impairment assessment as at March 31, 2025 and concluded that no impairment indicators exist for the current year reporting.

(k) Inventories

Inventories comprising fuel, stores and spares, consumables, supplies and loose tools are valued at the lower of cost and the net realisable value after providing for obsolescence and other losses. Cost includes all charges in bringing the goods to the present location and condition, and other levies, transit insurance and receiving charges and is determined on a weighted average basis.

Net realisable value is determined based on estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

(m) Taxation

Tax expense represents the sum of current tax and deferred tax. Current tax is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the reporting date and includes any adjustment to tax payable in respect of previous years.

Subject to exceptions below, deferred tax is provided, using the balance sheet method, on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes, on carry forward of unutilised tax credits and unutilised tax loss;

- deferred income tax is not recognised on the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- deferred tax assets are recognised only to the extent that it is more likely than not that they will be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date. Tax relating to items recognised outside Statement of Profit and Loss is recognised outside Statement of Profit and Loss (either in other comprehensive income or equity).

The carrying amount of deferred tax assets is reviewed at each reporting date and is adjusted to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the asset to be recovered.

(n) *Retirement and other employee benefits*

Retirement benefit in the form of provident fund is a defined contribution scheme. The Company has no obligation, other than the contribution payable to the provident fund. The Company recognises contribution payable to the provident fund scheme as an expense, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognised as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognised as an asset to the extent that the pre-payment will lead to, for example, a reduction in future payment or a cash refund.
The Company operates a defined benefit gratuity plan in India, which requires contributions to be made to a separately administered fund.
The cost of providing benefits under the defined benefit plan is determined using the projected unit credit method.

Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurements are not reclassified to profit or loss in subsequent periods.

Past service costs are recognised in profit or loss on the earlier of:
The date of the plan amendment or curtailment, and the date that the Company recognises related restructuring costs.

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Company recognises the following changes in the net defined benefit obligation as an expense in the Standalone statement of profit and loss:
Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and Net interest expense or income.

Accumulated leave, which is expected to be utilized within the next 12 months, is treated as short-term employee benefit. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date. The Company recognises expected cost of short-term employee benefit as an expense, when an employee renders the related service.

The Company treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the reporting date. Remeasurement gains/losses are immediately taken to the statement of profit and loss and are not deferred.

(s) Provisions for liabilities and charges, contingent liabilities and contingent assets

Provisions represent liabilities of the Company for which the amount or timing is uncertain. Provisions are recognised when the Company has a present obligation (legal or constructive), as a result of past events, and it is probable that an outflow of resources, that can be reliably estimated, will be required to settle such an obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows to net present value using an appropriate pre-tax discount rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. Unwinding of the discount is recognised in the Statement of Profit and Loss as a finance cost. Provisions are reviewed at each reporting date and are adjusted to reflect the current best estimate.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Company does not recognise a contingent liability but discloses its existence in the financial statements (Refer note 33).
Contingent assets are not recognised but disclosed in the financial statements when an inflow of economic benefits is probable.

(p) Foreign Currency Translation

The functional currency for the Company is determined as the currency of the primary economic environment in which it operates. The functional currency is the local currency of the country in which it operates which is Indian Rupee (₹).

Transactions in currencies other than the functional currency are translated into the functional currency at the exchange rates ruling at the date of the transaction. Monetary assets and liabilities denominated in other currencies are translated into the functional currency at exchange rates prevailing on the reporting date. Non-monetary assets and liabilities denominated in other currencies and measured at historical cost or fair value are translated at the exchange rates prevailing on the dates on which such values were determined.

All exchange differences are included in the Statement of Profit and Loss except any exchange differences on monetary items designated as an effective hedging instrument of the currency risk of designated forecasted sales or purchases, which are recognised in the other comprehensive income.

The Company had applied paragraph 46A of AS 11 as prescribed under the accounting standards notified pursuant to Section 133 of the Act. On transition to Ind AS, the Company had elected the option, whereby a first time adopter could continue its accounting policy for exchange differences arising from translation of long-term foreign currency monetary items recognised in the financial statements for the period ending immediately before the beginning of the first Ind AS financial reporting period. Hence, foreign exchange gain/loss on long-term foreign currency monetary liabilities recognised upto March 31, 2016 which were obtained for acquisition of property, plant and equipment, have been adjusted to the cost of PPE.

Such exchange differences arising on translation/settlement of long-term foreign currency monetary items and pertaining to the acquisition of a depreciable asset are amortised over the remaining useful life of the assets.

From accounting periods commencing on or after April 01, 2016, exchange differences arising on translation/ settlement of long-term foreign currency monetary items, acquired post April 01, 2016, pertaining to the acquisition of a depreciable asset are charged to the statement of profit and loss.

The date of the transaction for the purpose of determining the exchange rate to use on initial Ind AS 21 recognition of the related asset, expense or income (or part of it) is the date on which an entity initially recognises the non-monetary asset or non-monetary liability arising from the payment or receipt of advance consideration.
If there are multiple payments or receipts in advance, the entity shall determine a date of the transaction for each payment or receipt of advance consideration.

(q) Earnings per share

The Company presents basic and diluted earnings per share ("EPS") data for its equity shares. Basic EPS is calculated by dividing the profit or loss attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the period. Diluted EPS is determined by adjusting the profit or loss attributable to equity shareholders and the weighted average number of equity shares outstanding for the effects of all dilutive potential equity shares.

(r) Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and on hand and demand deposits with banks with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

(s) Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit/(loss) for the year before tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past and future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.
Cash comprises cash at bank and in hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

(t) Segment Reporting

The Company operates only in one segment namely power generation and there are no reportable segments.
Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker i.e., Board of Directors.

(u) Share-based payments

The Company does not have any outstanding share-based payments. Vedanta Limited ("VL"), the immediate holding company offers certain share-based incentives under the Long-Term Incentive Plan ("LTIP") to employees and directors of the Company and its subsidiaries. VL recovers the proportionate cost (calculated based on the grant date fair value of the options granted) from the respective group companies, which is charged to the statement of profit and loss.

3.C. SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of financial statement in conformity with Ind AS requires management to make estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income, expenses and disclosures of contingent assets and liabilities at the date of these financial statements and the reported amounts of revenues and expenses for the years presented. Actual results may differ from these estimates under different assumptions and conditions.
Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised, and future periods affected.
Information about significant areas of estimation uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements are included in the following accounting policies and/or notes.

Critical estimates and judgements in applying accounting policies

The management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Information about estimates and judgements made in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements are as follows:

Critical estimates:

• Useful life of property, plant and equipment

Useful life of depreciable/ amortisable assets (tangible and intangible) - Management reviews its estimate of the useful lives and consumption pattern of depreciable/ amortisable assets at each reporting date, based on the expected utility of the assets. The reassessment may lead to a change in depreciation and amortisation charges. Accordingly the Company had revised the useful life of its property, plant and equipment from 40 years to 25 years during earlier years.

Critical Judgements:

• Determining whether an arrangement contains a lease and fixed rentals therein

Significant judgement is required to apply lease accounting rules under Ind AS 116 'Determining whether an arrangement contains a lease. In assessing the applicability to arrangements entered by the Company, management has exercised judgement to evaluate the right to use the underlying asset, substance of the transactions including legally enforceable agreements and other significant terms and conditions of the arrangements to conclude whether the arrangement meets the criteria under Ind AS 116.

The Company has ascertained that the Power Purchase Agreement (PPA) executed between the Company and Punjab State Power Corporation Limited (PSPCL) qualify as operating lease as per Ind AS 116 Leases. Accordingly, the consideration receivable under the PPA relating to recovery of capacity charges have been recognised as operating lease rentals and in respect of energy charges is considered as revenue from sale of products.

The Company has assessed the nature of operating lease payments received as a lessor. Management has assessed that the entire lease payments as disclosed in Note 24 are contingent in nature as the payments are based on the number of units of electricity made available by the Company. This is subject to variation on account of various factors like availability of coal, water, etc. at the plant.

• Contingencies and commitments

In the normal course of business, contingent liabilities may arise from litigation, taxation, and other claims against the Company. A tax provision is recognised when the Company has a present obligation as a result of a past event, it is probable that the Company will be required to settle that obligation.

Where it is management's assessment that the outcome cannot be reliably quantified or is uncertain, the claims are disclosed as contingent liabilities unless the likelihood of an adverse outcome is remote. Such liabilities are disclosed in the notes but are not provided for in the financial statements.

When considering the classification of legal or tax cases as probable, possible or remote, there is judgement involved. This pertains to the application of the legislation, which in certain cases is based upon management's interpretation of country specific tax law, in particular India, and the likelihood of settlement. Management uses in-house and external legal professionals to confirm their decision.

Although there can be no assurance regarding the final outcome of the legal proceedings, the Company does not expect them to have a materially adverse impact on the Company's financial position or profitability. The liabilities which are assessed as possible and hence are not recognised in these financial statements are disclosed in Note 35.

• Revenue Recognition of disputed dues:

The Company has evaluated the provisions of Ind AS 115, which states that revenue should be recorded if it is probable that the entity will collect the consideration to which it will be entitled in exchange for the goods or services has been transferred to the customer. Management has assessed the recognition of revenue and recoverability of disputed dues with PSPCL as disclosed in Note 47 as highly probable due to the following reasons:
• The Company has favorable legal opinions from senior advocates.
• Favourable judgement in one of the related matters.
• PSPCL being a government owned company, credit risk is low.

TALWANDI SABO POWER LIMITED MANSA

S.R. BATLIBOI & CO. LLP NEW DELHI

Climate Related Matters:

The Company considers climate-related matters in estimates and assumptions, where appropriate. This assessment includes a wide range of possible impacts on the Company due to both physical and transition risks. Even though the Company believes its business model and products will still be viable after the transition to a low-carbon economy, climate-related matters increase the uncertainty in estimates and assumptions underpinning several items in the financial statements. Even though climate-related risks might not currently have a significant impact on measurement, the Company is closely monitoring relevant changes and developments, such as new climate-related legislation. The items and considerations that are most directly impacted by climate-related matters are:

• Useful life of property, plant and equipment: When reviewing the residual values and expected useful lives of assets, the Company considers climate-related matters, such as climate-related legislation and regulations that may restrict the use of assets or require significant capital expenditures.

• Impairment of non-financial assets: The value in use may be impacted in several different ways by transition risk in particular, such as climate-related legislation and regulations and changes in demand for the Company's products. The Company has concluded that no climate-related assumption will have impact on FY 2024-25 test of impairment.

2.D. NEW AND AMENDED STANDARDS

The Company applied for the first-time certain standards and amendments, which are effective for annual periods beginning on or after 1 April 2024. The Company has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

(i) Ind AS 117 Insurance Contracts

The Ministry of Corporate Affairs (MCA) notified the Ind AS 117, Insurance Contracts, vide notification dated 12 August 2024, under the Companies (Indian Accounting Standards) Amendment Rules, 2024, which is effective from annual reporting periods beginning on or after 1 April 2024.

Ind AS 117 Insurance Contracts is a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure. Ind AS 117 replaces Ind AS 104 Insurance Contracts. Ind AS 117 applies to all types of insurance contracts, regardless of the type of entities that issue them as well as to certain guarantees and financial instruments with discretionary participation features; a few scope exceptions will apply. Ind AS 117 is based on a general model, supplemented by:

• A specific adaptation for contracts with direct participation features (the variable fee approach)

• A simplified approach (the premium allocation approach) mainly for short-duration contracts

The application of Ind AS 117 does not have material impact on the Company's separate financial statements as the Company has not entered any contracts in the nature of insurance contracts covered under Ind AS 117.

(ii) Amendments to Ind AS 116 Leases – Lease Liability in a Sale and Leaseback Transaction:

The MCA notified the Companies (Indian Accounting Standards) Second Amendment Rules, 2024, which amended Ind AS 116, Leases, with respect to lease liability in a Sale and Leaseback Transaction.

The amendment specifies the requirements that a seller-lessee uses in measuring the lease liability arising in a sale and leaseback transaction, to ensure the seller-lessee does not recognise any amount of the gain or loss that relates to the right of use it retains.

The amendment is effective for annual reporting periods beginning on or after 1 April 2024 and must be applied retrospectively to sale and leaseback transactions entered into after the date of initial application of Ind AS 116.

The amendments do not have a material impact on the Company's financial statements.

2.E. STANDARDS NOTIFIED BUT YET NOT EFFECTIVE

There are no standards that are notified and not yet effective as on the date.

Risk analysis
The Company is exposed to a number of risks in the defined benefit plans. Most significant risks pertaining to defined benefits plans, and management's estimation of the impact of these risks are as follows:

Interest risk
A decrease in the interest rate on plan assets will increase the plan liability.

Longevity risk/ Life expectancy
The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and at the end of the employment. An increase in the life expectancy of the plan participants will increase the plan liability.

Salary growth risk
The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. An increase in the salary of the plan participants will increase the plan liability.

Investment risk
The Gratuity plan is funded with Life Insurance Corporation of India ("LIC"). The Company does not have any liberty to manage the fund provided to LIC. The present value of the defined benefit plan liability is calculated using a discount rate determined by reference to Government of India bonds. If the return on plan asset is below this rate, it will create a plan deficit.

Note 39
Financial instruments (Contd.)

- Long-term fixed-rate and variable-rate borrowings (including their current maturities): Fair value has been determined by the Company using level 2 technique, based on parameters such as interest rates, specific country risk factors, individual creditworthiness of the customer and the risk characteristics of the financed project. For all other long-term fixed-rate and variable-rate borrowings, either the carrying amount approximates the fair value, or fair value have been estimated by discounting the expected future cash flows using a discount rate equivalent to the risk free rate of return adjusted for the appropriate credit spread. The changes in counterparty credit risk had no material effect on the hedge effectiveness assessment for derivatives designated in hedge relationship and the value of other financial instruments recognised at fair value.

- **Current financial assets and liabilities:** The fair value of current trade receivables, cash and bank balances, loans and other financial assets, current borrowings, trade and other payables and other current financial liabilities is likely to approximate their carrying values due to short term maturities of these instruments.

- **Non-current trade receivables:** Fair value has been determined by the Company based on interest rates and recoverability of dues from the customer. Also, refer note 40.

Note 40
Risk management (Contd.)

The table below illustrates the impact of a 0.5% to 2.0% movement in interest rates on interest expense on loans and borrowings for the year ended March 31, 2025. The risk estimate provided assumes that the changes occur at the reporting date and has been calculated based on risk exposure outstanding as of date. The year end balances are not necessarily representative of the average debt outstanding during the year. This analysis also assumes that all other variables remain constant.

(₹ in Crore)

	Effect on profit before tax	
Movement in interest rates	FY 2024-25	FY 2023-24
0.50%	28.89	30.25

2.00%	115.57	121.01

Credit Risk:
Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the Company. The Company has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults. The Company is exposed to credit risk primarily on trade and other receivables and cash and cash equivalents.

Given the nature of PPA, trade receivables are from a single customer Punjab State Power Corporation Limited (PSPCL), with significant concentration of credit risk. The history of trade receivables shows a negligible provision for bad and doubtful debts. Altough there are significant disputed trade receivables, classified as non-current with PSPCL, the management has assessd that the company has strong chances of getting the dispute resolved in its favour.Therefore, the Company does not expect any material risk on account of non-performance by any of the Company's counterparties.

The carrying value of the financial assets other than cash and investments in bank deposits represents the maximum credit exposure. The Company's maximum exposure to credit risk at March 31, 2025 is ₹ 2,656.64 Crore (previous year ₹ 2,175.13 Crore) of which ₹ 2,650.93 Crore (previous year ₹ 2,166.89 Crore) was from a single customer.
None of the Company's cash equivalents, including time deposits with banks, are past due or impaired. Regarding trade and other receivables, and other non-current assets, there were no indications as at March 31, 2025, that defaults in payment obligations will occur, except for disputed matters.

Receivables are deemed to be past due or impaired with reference to the customer's credit quality and prevailing market conditions. Receivables that are classified as 'past due' in the above tables are those that have not been settled within the terms and conditions of the agreement with the customer. The Company based on past experiences does not expect any material loss on its receivables.The credit quality of the Company's customer is monitored on an ongoing basis. Where receivables have been impaired, the Company actively seeks to recover the amounts in question and enforce compliance with credit terms.

TALWANDI SABO POWER LIMITED MANSA

Note 47
Disputed Trade Receivables

Punjab State Power Corporation Limited ("PSPCL"), which is the Company's sole customer has withheld payments aggregating to ₹ 1,691.35 Crore (previous year ₹ 1,619.79 Crore) which are on account of various disputes including tax benefits at the time of initial plant setup, procurement of alternate coal, and basis of computation of plant availability amongst others.
In a Mid-declaration matter, APTEL has pronounced the order in favour of the Company on March 18, 2025 directing PSPCL to refund the deducted penalty along with 'Late Payment Surcharge'. The Company has classified the deducted penalty from non-current trade receivables to current trade receivables for the year ended March 31, 2025.
The balance matters are under litigation and the Company has obtained independent legal advice which supports its claims and is thus not expecting any material losses on these balances and believes that it is highly probable that the Company's claims would be upheld. Based on the expected timing of realisation of these balances, which is in turn dependent on the settlement of legal disputes, the Company has bifurcated the receivables into current and non-current. The management has assessed the recoverability of the outstanding balances and does not believe that any material adjustment is required.

Note 48
Segment Information

The Company's activities during the year revolved around operating 3*660 MW Thermal Power Plant at Mansa, Punjab. Considering the nature of Company's business and operations, there are no seperate reportable segments (business and/or geographical) in accordance with the requirements of Ind AS 108 - Operating Segments. All the Company's revenues, trade receivables and non-current operating assets are in India. The Company's revenues aggregating to ₹ 5,223.40 Crore (previous year ₹ 5,256.06 Crore) is from a single customer.

Note 49
Share based compensation plans

The Company offers equity-based award plans to its employees and officers through its parent (Vedanta Limited), Employee Stock Option Plan ("ESOP").

Share-based incentives under ESOP of Vedanta Limited (introduced w.e.f. September 2017) are provided to the defined management group. The maximum value of shares that can be awarded to members of the defined management group is calculated by reference to the individual fixed salary and share-based remuneration consistent with local market practice. The scheme is both tenure and performance based share schemes. The awards are indexed to and settled by parent's shares. The awards have a fixed exercise price denominated in Parent's functional currency (₹ 1 in case of Vedanta Limited), the performance period of each award is three years and is exercisable within a period of six months from the date of vesting beyond which the option will lapse.

Further, in accordance with the terms of the agreement between the Parent and the Company, the cost recognized towards the scheme is recovered by the parent from the Company.

Amount recovered by the parent and recognised by the Company in the statement of profit and loss for the financial year ended March 31, 2025 is ₹ 0.37 Crore (previous year ₹ 1.33 Crore). The Company considers these amounts as not material and accordingly has not provided further disclosures.

Note 50

During the previous year ended March 31, 2024, the Company had terminated its contract with one of its major capital contractors (the "Contractor"), due to its persistent failure to fulfil its contractual obligations, which adversely affected the plant's performance since commissioning. Consequently, as of March 31, 2024, the Company had written back creditors amounting to ₹ 1,252 Crore, representing amounts assessed as no longer payable under the terminated contract. The management had assessed that the amount written back comprised of ₹ 794 Crore towards loss of profit due to plant performance in the previous and earlier years and therefore recognised the same as Exceptional gain in the Statement of Profit & Loss and adjusted the balance amount towards the cost of spares and ancillaries capitalised in Property, Plant & Equipment in earlier years.

Subsequently, the Contractor disputed the termination of the contract and claimed dues along with damages arising from the Company's action. The Company issued a counter claim on the Contractor and also initiated arbitration proceedings to enforce its claims. Nominee arbitrators have been appointed by both the parties and on April 3, 2025, the Hon'ble Supreme Court appointed the presiding arbitrator.

Based on its detailed evaluations, merits of the case and independent legal advice obtained, the management continues to believe that the termination of the contract is contractually enforceable. The management also believes that this position is sustainable, when this matter is finally decided by the adjudicating authority. Accordingly, no adjustments are required to be made in these financial statements in respect of the Contractor's claims.

We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. S R B C & CO LLP MUMBAI CHARTERED ACCOUNTANTS

Responsibility of Management for the IND AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these IND AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015 as amended, specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the IND AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the IND AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the IND AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the IND AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these IND AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the IND AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the IND AS financial statements, including the disclosures, and whether the IND AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

2A. Basis of preparation and basis of measurement of financial statements

(a) Basis of preparation:
The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS compliant Schedule III).

Basis the projections prepared by the Company; the management believes that the net current liabilities of Rs. 659.99 crores will be bridged mainly through additional funding by the holding company and internal accruals. Further, Vedanta Limited, the parent Company has through letter of support, agreed to continue to provide financial support to the Company for its continued operations at least for next eighteen months, if the Company is unable to meet its funding requirements.

The financial statements have been prepared on a historical cost basis, except for certain financial assets and liabilities measured at fair value as explained in accounting policy of fair value measurement and financial instruments below. The accounting policies adopted for preparation and presentation of financialstatement have been consistently applied. The financial statements are presented in INR and all values are rounded to the nearest Crores, except when otherwise indicated.

(b) Use of estimates and judgments
The preparation of financial statements in conformity with Ind AS requires management to make judgements, estimates and assumptions, that affect the application of accounting policies and the reported amounts of assets, liabilities, income, expenses and disclosures of contingent liabilities at the date of these financial statements and the reported amounts of revenues and expenses for the years presented. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. In particular, information about significant areas of estimation uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the financial statements are disclosed in Note 2B.

2B. Material accounting policies:

(a) Revenue Recognition:
Revenue from contracts with customers is recognized when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services.

Sale of Power:
Revenue from sale of power is recognized at the point in time when control of the asset is transferred to the customer, generally on delivery and measured based on rates as per contractual agreements with buyers.

Sale of Coke & Nickel:

Revenue from the sale of coke & Nickel is recognized at the point of time when control of assets is transferred to the customer, measured at the rates as per contractual agreement with the customer. Revenue is recognized net of discounts, volume rebates, outgoing sales taxes/ goods and service tax and other indirect taxes. Revenues from sale of by products are included in revenue.

Certain sales contracts of the Company provide for provisional pricing based on the price on the London Metal Exchange (LME) as specified in the contract. Revenue in respect of such contracts is recognized when control passes to the customer and is measured at the amount the entity expects to be entitled – being the estimate of the price expected to be received at the end of the measurement period. Post transfer of control of goods, provisional pricing features are accounted in accordance with Ind AS 109 'Financial Instruments' rather than Ind AS 115 Revenue from contracts with customers and therefore the Ind AS 115 rules on variable consideration do not apply. These 'provisional pricing' adjustments, i.e. the consideration adjusted post transfer of control are included in total revenue from operations on the face of the statement of profit and loss and disclosed by way of note to the financial statements. Final settlement of the price is based on the applicable price for a specified future period. The Company's provisionally priced sales are marked to market using the relevant forward prices for the future period specified in the contract and is adjusted in revenue.

Dividend Income:
Dividend income is recognized when the right to receive payment is established.

Interest Income:
Interest income from a financial asset is recognized using the Effective Interest Rate (EIR).

(b) Fair Value Measurement
Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

(i) In the principal market for the asset or liability, or

(ii) In the absence of a principal market, in the most advantageous market for the asset or liability

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is

SRBC & CO LLP MUMBAI CHARTERED ACCOUNTANTS

Malco Energy Limited

significant to the fair value measurement as a whole:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

(c) Foreign Currency:
The Company's financial statements are presented in INR, which is also the Company's functional currency. Income and expenses in foreign currencies are recorded at exchange rates prevailing on the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognized in the Statement of Profit or Loss.

Non-monetary items denominated in a foreign currency are measured at historical cost and translated at exchange rate prevalent at the date of transaction.

(d) Income Tax:

Current Tax:

Current Income tax is measured at the amount expected to be paid to the tax authorities in accordance with Income Tax Act, 1961. The tax rates and tax laws used to compute the tax are those that are enacted at the reporting date. In financial year 21-22 Company has adopted Section 115BAA of Income Tax Act,1961 with Statutory rate of 22% plus surcharge of 10% and cess of 4%. Current income tax relatingto items recognized outside profit or loss is recognized outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity.

Deferred Tax:

Deferred Tax is provided using the Balance Sheet approach on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities.

Malco Energy Limited

(e) Property, Plant and Equipment:
Property, plant and equipment is stated at cost net of accumulated depreciation and accumulated impairment loss, if any. The initial cost of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, and any directly attributable costs of bringing an asset to working condition and location for its intended use. Expenditure incurred after the property, plant and equipment have been put into operation, such as repairs and maintenance, are normally charged to the Statement of Profit or Loss in the period in which the costs are incurred. Major shut-down and overhaul expenditure is capitalised as the activities undertaken improve the economic benefits expected to arise from the asset.

Assets in the course of construction are stated at cost less impairment loss, if any. Such assets are classified to the appropriate category of property, plant and equipment when completed and ready for intended use.

Gain or loss arising on de-recognition of the asset is included in the Statement of Profit & Loss when the asset is derecognised.

Depreciation is recognized so as to write off the cost of assets less their residual values over their useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Depreciation is calculated on a straight-line basis over the estimated useful lives of the assets as follows:

Buildings	05-50 years
Plant and equipment	03-40 years
Furniture and fixtures	05-10 years
Vehicles	05-10 years
Office equipment	03-10 years

The management has estimated the above useful life and the same is supported by technical expert.

Major overhaul costs are depreciated over the estimated life of the economic benefit to be derived from the overhaul.

(f) Intangible Assets:
Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses, if any. Intangible assets are amortized over their estimated useful lives. The estimated useful life are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets representing cost of software capitalized is amortized over its useful life which is estimated to be a period of three years.

(g)Right-of-Use Asset:
The Company recognizes right-of-use assets at the commencement date of the lease (i.e., the date when the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. The right-of-use assets are also subject to impairment. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets as described below

Leasehold Land : 60-80 years

Leasehold plant & equipment : 5 years

Leasehold Vehicle : 1-2 years

S R B C & CO LLP MUMBAI CHARTERED ACCOUNTANTS

Malco Energy Limited

(h)Inventories:
Inventories are valued at the lower of cost and net realisable value. Cost is determined on following basis :

Purchased concentrate is recorded at cost on a first-in, first-out ("FIFO") basis; all other materials including stores and spares are valued on a weighted average basis; finished products are valued at raw material cost plus costs of conversion, comprising labour costs and an attributable proportion of manufacturing overheads based on normal levels of activity and are moved out of inventory on a weighted average basis (except in Nickle business where FIFO basis is followed); and By-products and scrap are valued at net realizable value.

Net realizable value is determined based on estimated selling price, less further costs expected to be incurred for completion and disposal.

(i) Borrowing costs:
Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

(j) Provisions:
Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

(k) Contingent liabilities and contingent assets
A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements. Contingent assets are not recognized but disclosed in the financial statements when an inflow of economic benefits is probable.

(l) Retirement and other employee benefits:

i) Defined contribution plans
Retirement benefit in the form of provident fund and superannuation fund is a defined contribution scheme. The Company has no obligation, other than the contribution payable to the respective funds. The Company recognizes contribution payable to the provident fund and superannuation scheme as an expense, when an employee renders the related service.

ii) Defined benefit plans
The Company operates a defined benefit gratuity plan, which requires contributions to be made to a separately administered fund. The cost of providing benefits under the scheme is determined on the basis of actuarial valuation using Projected Unit Credit Method at the date of Balance Sheet.

Remeasurements, comprising actuarial gains and losses and the return on plan assets (excluding net interest), are recognized immediately in the Balance Sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurements are not reclassified to the Statement of Profit or Loss in subsequent periods.

S R B C & CO LLP MUMBAI CHARTERED ACCOUNTANTS

Malco Energy Limited

iii) Short term and other long term employee benefits

Benefits accruing to employees in respect of wages, salaries and compensated absences and which are expected to be availed within twelve months immediately following the year end are reported as expenses during the year in which the employee performs the service that the benefit covers and the liabilities are reported at the undiscounted amount of the benefit expected to be paid in exchange of related service. Where the availment or encashment is otherwise not expected to wholly occur within the next twelve months, the liability on account of the benefit is actuarially determined using the projected unit credit method at the present value of the estimated future cash flow expected to be made by the Company in respect of services provided by employees up to the reporting date. The Company presents the leave as a current liability in the Balance Sheet, to the extent it does not have an unconditional right to defer its settlement for 12 months after the reporting date.

(m)Financial instruments:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

(i) Financial assets:

Initial recognition and measurement:

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Subsequent measurement:

All recognized financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial asset

- **Financial assets at amortised cost:**

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business model whose objective is to hold assets for collecting contractual cash flows and contractual terms of the asset give rise on specified dates to cash flows that are Solely Payments of Principal and Interest (SPPI) on the principal amount outstanding. After initial measurement, such financial assets are subsequently measured at amortised cost using the Effective Interest Rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in other income in the Statement of Profit or Loss. The losses arising from impairment are recognized in the Statement of Profit or Loss.

- **Financial assets at fair value through other comprehensive income:**

Financial assets are subsequently measured at fair value through other comprehensive income if these financial assets are held within a business model whose objective is achieved both by collecting contractual cash flows and selling the financial assets and the asset's contractual cash flow represents SPPI.

Financial instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the Other Comprehensive Income (OCI). However, the Company recognizes interest income, dividend income, impairment losses and reversals and foreign exchange gain or loss in the Statement of Profit and Loss. On derecognition of the asset, cumulative gain or loss previously recognized in OCI is reclassified from the equity to Statement of Profit and Loss.

- **Financial assets at fair value through profit & loss (FVTPL):**

FVTPL is a residual category for financial assets. Any financial assets, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL. Financial assets included within the FVTPL category are measured at fair value with all changes recognized in the Statement of Profit & Loss.

Derecognition:

The Company derecognises a financial asset when the rights to receive cash flows from the asset have expired or it transfers the right to receive the contractual cash flow on the financial assets in a transaction in which substantially all the risk and rewards of ownership of the financial asset are transferred.

SRBC & CO LLP MUMBAI CHARTERED ACCOUNTANTS

Malco Energy Limited

(ii) Investment in subsidiary:
Investment in subsidiary is measured at cost less impairment, if any, as per Ind AS- 27 'Separate Financial Statement'.

(iii)Financial Liabilities:

Initial recognition and measurement:

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

Subsequent measurement:

- **Financial liabilities at fair value through profit & loss:**

Financial liabilities at fair value through profit and loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit and loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Gains or losses on liabilities held for trading are recognized in the Statement of Profit or Loss.

- **Financial liabilities at amortised cost:**

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognized in the Statement of Profit and Loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the Statement of Profit and Loss.

Derecognition:

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the Statement of Profit or Loss.

(iv)Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

(n) Derivative financial instruments and hedge accounting

Initial recognition and subsequent measurement In order to hedge its exposure to foreign exchange, interest rate, and commodity price risks, the Company enters into forward, option, swap contracts and other derivative financial instruments. The Company does not hold derivative financial instruments for speculative purposes

Such derivative financial instruments are initially recognized at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Any gains or losses arising from changes in the fair value of derivatives are taken directly to the statement of profit and loss, except for the effective portion of cash flow hedges, which is recognized in OCI and later reclassified to the statement of profit and loss when the hedge item affects profit or loss or treated as basis adjustment if a hedged forecast transaction subsequently results in the recognition of a non-financial asset or non-financial liability.

SRBC & CO LLP MUMBAI CHARTERED ACCOUNTANTS

Malco Energy Limited

For the purpose of hedge accounting, hedges are classified as:

• Fair value hedges when hedging the exposure to changes in the fair value of a recognized asset or liability or an unrecognised firm commitment;
• Cash flow hedges when hedging the exposure to variability in cash flows that is either attributable to a particular risk associated with a recognized asset or liability or a highly probable forecast transaction or the foreign currency risk in an unrecognised firm commitment;
• Hedges of a net investment in a foreign operation.

At the inception of a hedge relationship, the Company formally designates and documents the hedge relationship to which the Company wishes to apply hedge accounting. The documentation includes the Company's risk management objective and strategy for undertaking hedge, the hedging/ economic relationship, the hedged item or transaction, the nature of the risk being hedged, hedge ratio and how the entity will assess the effectiveness of changes in the hedging instrument's fair value in offsetting the exposure to changes in the hedged item's fair value or cash flows attributable to the hedged risk. Such hedges are expected to be highly effective in achieving offsetting changes in fair value or cash flows and are assessed on an ongoing basis to determine that they actually have been highly effective throughout the financial reporting periods for which they were designated.

Hedges that meet the strict criteria for hedge accounting are accounted for, as described below:

· **Fair value hedges**
Changes in the fair value of derivatives that are designated and qualify as fair value hedges are recognized in the statement of profit and loss immediately, together with any changes in the fair value of the hedged asset or liability that are attributable to the hedged risk. When an unrecognised firm commitment is designated as a hedged item, the subsequent cumulative change in the fair value of the firm commitment attributable to the hedged risk is recognized as an asset or liability with a corresponding gain or loss recognized in the statement of profit and loss. Hedge accounting is discontinued when the Company revokes the hedge relationship, the hedging instrument or hedged item expires or is sold, terminated, or exercised or no longer meets the criteria for hedge accounting.

· **Cash flow hedges**
The effective portion of the gain or loss on the hedging instrument is recognized in OCI in the cash flow hedge reserve, while any ineffective portion is recognized immediately in the statement of profit and loss. Amounts recognized in OCI are transferred to the statement of profit and loss when the hedged transaction affects profit or loss, such as when the hedged financial income or financial expense is recognized or when a forecast sale occurs. When the hedged item is the cost of a non-financial asset or non-financial liability, the amounts recognized in OCI are transferred to the initial carrying amount of the non-financial asset or liability. If the hedging instrument expires or is sold, terminated or exercised without replacement or rollover (as part of the hedging strategy), or if its designation as a hedge is revoked, or when the hedge no longer meets the criteria for hedge accounting, any cumulative gain or loss previously recognized in OCI remains separately in equity until the forecast transaction occurs or the foreign currency firm commitment is met.

(o) Impairment

(i) Financial assets

The Company assessed the expected credit losses associated with its assets carried at amortised cost and fair value through other comprehensive income based on the Company's past history of recovery, credit worthiness of the counter party and existing and future market conditions.

For all financial assets other than trade receivables, expected credit losses are measured at an amount equal to the 12-month expected credit loss (ECL) unless there has been a significant increase in credit risk from initial recognition in which case thoseare measured at lifetime ECL. For trade receivables, the Company has applied the simplified approach for recognition of impairment allowance as provided in Ind AS 109 which requires the expected lifetime losses from initial recognition of the receivables and contract assets. Impairment of Investment in subsidiary, if any, is determined based on value in use.

SRBC & CO LLP MUMBAI CHARTERED ACCOUNTANTS

Malco Energy Limited

In assessing value in use, the estimated future cash flows are discounted to their present value using a post-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the investment.

(ii) Non-financial assets

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. Impairment losses including impairment on inventories are recognized in the statement of profit and loss. For assets, an assessment is made at each reporting date to determine whether there is an indication that previously recognized impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the asset's or CGU's recoverable amount. A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amountthat would have been determined, net of depreciation, had no impairment loss been recognized for theasset in prior years. Such reversal is recognized in the statement of profit and loss.

(p) Share Based payments:
Vedanta Resources Plc ("VRPLC"), the ultimate holding Company, offers certain share based incentives under the Long-Term Incentive Plan ("LTIP") to employees and directors of the Company. VRPLC recovers the proportionate cost (calculated based on the grant date fair value of the options granted) from the Company, which is charged to the Statement of Profit or Loss.

(q) Cash and cash equivalents:
Cash and cash equivalent in the Balance Sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

(r) Lease:
The Company assesses at contract inception, all arrangements to determine whether they are, or contain, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessee:
The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities towards future lease payments and right-of-use assets representing the right to use the underlying assets.

(i) Right-of-use assets
The Company recognises right-of-use assets at the commencement date of the lease (i.e., the date when the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. The right-of-use assets are also subject to impairment. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets as described in Note 2(i)

S K B C & CO LLP MUMBAI CHARTERED ACCOUNTANTS

Malco Energy Limited

(ii) Lease Liabilities

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (and, in some instances, in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognized as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs. In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is generally not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset. The Company's lease liabilities are included in Financial Liabilities.

(iii) Short term leases and leases of low value assets

The Company applies the short-term lease recognition exemption to its short-term leases of equipment (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low value assets recognition exemption to leases of office equipment that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognized as expense on a straight-line basis over the lease term.

(s) Buyers' Credit/ Suppliers' Credit and vendor financing:

The Company enters into arrangements whereby banks and financial institutions make direct payments to suppliers for raw materials and project materials. The banks and financial institutions are subsequently repaid by the Company at a later date providing working capital timing benefits. These are normally settled between twelve months (for raw materials) to thirty-six months (for project materials). Where these arrangements are with a maturity of up to twelve months, the economic substance of the transaction is determined to be operating in nature and these are recognized as operational buyers' credit/ suppliers' credit and disclosed on the face of the balance sheet. Where these arrangements are with a maturity beyond twelve months and up to thirty six months, the economic substance of the transaction is determined to be financing in nature, and these are presented within borrowings in the balance sheet. Interest expense on these are recognized in the finance cost. Payments made by banks and financial institutions to the operating vendors are treated as a non cash item and settlement of due to operational buyer's credit/ suppliers' credit by the Company is treated as an operating cash outflow reflecting the substance of the payment.

(t) Events after Reporting Period:
There are no significant events which have occurred after the end of reporting period requiring adjustment of disclosure in Financial Statements.

2C. Significant accounting judgements, estimates and assumptions

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of revenues, expenses, assets and liabilities and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised and future periods affected. The Company considers the following areas as the key sources of estimation uncertainty:

S R B C & CO LLP MUMBAI CHARTERED ACCOUNTANTS

Malco Energy Limited

(i) Taxes

Deferred tax assets are recognized for unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilized. Significant management judgement is required to determine the amount of deferred tax assets that can be recognized, based upon the likely timing and the level of future taxable profits together with future tax planning strategies. The Company has Rs. 1,808.19 Crores (31 March 2024: Rs. 1,744.59 Crores) of unabsorbed depreciation and Rs. 551.12Crores (31 March 2024: Rs 405.85 Crores) of business losses carried forward. The Company neither have any major taxable temporary difference nor any tax planning opportunities available that could partly support the recognition of these losses as deferred tax assets. On this basis, the Company has recognized the deferred tax assets only to the extent of deferred tax liabilities on the taxable temporary differences. Further details on taxes are disclosed in Note 40.

(iii) Defined benefit plans

The Company's obligation on account of gratuity is determined based on actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. The parameter most subject to change is the discount rate. In determining the appropriate discount rate, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation. The mortality rate is based on publicly available mortality tables. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates. Further details about gratuity obligations are given in Note 45 to the financial statements.

(iv)Contingencies and commitments:

In the normal course of business, contingent liabilities may arise from litigation, taxation and other claims against the Company. Where it is management's assessment that the outcome cannot be reliably quantified or is uncertain, the claims are disclosed as contingent liabilities unless the likelihood of an adverse outcome is remote. Such liabilities are disclosed in the notes but are not provided for in the financial statements. While considering the possible, probable and remote analysis of taxation, legal and other claims, there is always a certain degree of judgement involved pertaining to the application of the legislation which in certain cases is supported by views of tax experts and/or earlier precedents in similar matters. Although there can be no assurance regarding the final outcome of the legal proceedings, the Company does not expect them to have a materially adverse impact on the Company's financial position or profitability. These are set out in Note 43 to the financial statements.

2D. Standards notified but not yet effective

There are no standards that are notified and not yet effective as on the date.

2E. New and amended standards

The Company applied for the first-time certain standards and amendments, which are effective for annual periods beginning on or after 1 April 2024. The Company has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

(i) Ind AS 117 Insurance Contracts

The Ministry of corporate Affairs (MCA) notified the Ind AS 117, *Insurance Contracts*, vide notification dated 12 August 2024, under the Companies (Indian Accounting Standards) Amendment Rules, 2024, which is effective from annual reporting periods beginning on or after 1 April 2024.

S R B C & CO LLP MUMBAI CHARTERED ACCOUNTANTS

Malco Energy Limited

Ind AS 117 *Insurance Contracts* is a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure. Ind AS 117 replaces Ind AS 104 *Insurance Contracts*. Ind AS 117 applies to all types of insurance contracts, regardless of the type of entities that issue them as well as to certain guarantees and financial instruments with discretionary participation features; a few scope exceptions will apply. Ind AS 117 is based on a general model, supplemented by:

- A specific adaptation for contracts with direct participation features (the variable fee approach)
- A simplified approach (the premium allocation approach) mainly for short-duration contracts

The application of Ind AS 117 had no impact on the Company's financial statements as the Company has not entered any contracts in the nature of insurance contracts covered under Ind AS 117.

(ii) Amendment to Ind AS 116 Leases – Lease Liability in a Sale and Leaseback

The MCA notified the Companies (Indian Accounting Standards) Second Amendment Rules, 2024, which amend Ind AS 116, *Leases*, with respect to Lease Liability in a Sale and Leaseback.

The amendment specifies the requirements that a seller-lessee uses in measuring the lease liability arising in a sale and leaseback transaction, to ensure the seller-lessee does not recognise any amount of the gain or loss that relates to the right of use it retains.

The amendment is effective for annual reporting periods beginning on or after 1 April 2024 and must be applied retrospectively to sale and leaseback transactions entered into after the date of initial application of Ind AS 116.
The amendment does not have a material impact on the Company's financial statements.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including the Indian Accounting Standards ("Ind AS") prescribed under section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, of the state of affairs of the Company as at March 31, 2025, its loss (including other comprehensive income), its changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements.

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance (including other comprehensive income), changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including Ind AS prescribed under section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal

financial controls with reference to financial statements in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

ANNEXURE 2 TO THE INDEPENDENT AUDITOR'S REPORT
[Referred to in paragraph 2(f) under 'Report on Other Legal and Regulatory Requirements' section in our Independent Auditor's Report of even date to the members of Vedanta Iron and Steel Limited on the financial statements for the year ended March 31, 2025]

Report on the Internal Financial Controls with reference to Financial Statements under clause (i) of sub-section 3 of section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to financial statements of Vedanta Iron and Steel Limited ("the Company") as of March 31, 2025 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing specified under section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness.

Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal controls based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls with reference to Financial Statements

A company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation

of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2025, based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal controls stated in the Guidance Note issued by the ICAI.

NOTE 1. CORPORATE INFORMATION

Vedanta Iron and Steel Limited ("the Company") is a Public Company domiciled in India and incorporated under the provisions of the Companies Act, 2013 ("the Act"). The Company was incorporated on 10 October 2023 for carrying out the business activities in the metal and mining sector.

NOTE 2.1 BASIS OF PREPARATION AND BASIS OF MEASUREMENT OF FINANCIAL STATEMENTS

(a) Basis of Preparation

These financial statements of the Company have been prepared in accordance with Indian Accounting Standards notified under the Companies (Indian Accounting Standard) Rules, 2015 and other relevant provisions of the Act (as amended from time to time). These financial statements have been prepared in accordance with the accounting policies set out below.

All financial information presented in Indian Rupee has been rounded off to the nearest Lakhs except when indicated otherwise.

These financials statements are approved for issue by the Board of Directors on April 17, 2025. The revision to these financials statements is permitted by the Board of Directors after obtaining necessary approvals or at the instance of regulatory authorities as per provisions of the Act.

(b) Basis of Measurement

The financial statements have been prepared on a going concern basis using historical cost convention and on an accrual method of accounting.

NOTE 2.2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Use of estimates

The preparation of financial statements in conformity with the Indian Accounting Standards requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

(b) Accounting for foreign currency transactions

The functional currency of the Company is determined as the currency of the primary economic environment in which it operates. For all principal businesses of the Company, the functional currency is Indian rupee. The financial statements are presented in Indian rupee.

In the financial statements of the Company, transactions in currencies other than the functional currency are translated into the functional currency at the exchange rates ruling at the date of the transaction. Monetary assets and liabilities denominated in other currencies are translated into the functional currency at exchange rates prevailing on the reporting date. Non-monetary assets and liabilities denominated in other currencies and measured at historical cost or fair value are translated at the exchange rates prevailing on the dates on which such values were determined.

All exchange differences are included in the statement of profit and loss except those where the monetary item designated as an effective hedging instrument of the currency risk of designated forecasted sales or purchases, which are recognized in the other comprehensive income.

(c) Earnings Per Share

The Company presents basic and diluted earnings per share ("EPS") data for its equity shares. Basic EPS is calculated by dividing the profit or loss attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the period. Diluted EPS is determined by adjusting the profit or loss attributable to equity shareholders and the weighted average number of equity shares outstanding for the effects of all dilutive potential equity shares.

(d) **Provisions**

The assessee's undertaken in recognising provisions have been made in accordance with the applicable Ind AS
Provisions represent liabilities for which the amount or timing is uncertain. Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of past events, and it is probable that an outflow of resources, that can be reliably estimated, will be required to settle such an obligation
If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows to net present value using an appropriate pre tax discount rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. Unwinding of the discount is recognized in the statement of profit and loss as a finance cost. Provisions are reviewed at each reporting date and are adjusted to reflect the current best estimate

(e) **Current and non-current classification**

The Company presents assets and liabilities in the balance sheet based on current / non-current classification

An asset is classified as current when it satisfies any of the following criteria
– it is expected to be realized in, or is intended for sale or consumption in, the Company's normal operating cycle
it is held primarily for the purpose of being traded,
– it is expected to be realized within twelve months after the reporting date, or
– it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date.

All other assets are classified as non-current

A liability is classified as current when it satisfies any of the following criteria
– it is expected to be settled in the Company's normal operating cycle;
– it is held primarily for the purpose of being traded;
– it is due to be settled within twelve months after the reporting date, or
– the Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

All other liabilities are classified as non-current

Deferred tax assets and liabilities are classified as non-current only.

(f) **Cash and cash equivalents**

Cash and cash equivalents comprise cash at bank and on hand and short-term money market deposits which have a maturity of three months or less from the date of acquisition that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value
For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above

(g) Financial assets

The company classifies its financial assets in following measurement categories :

a. Those to be measured subsequently at fair value (either through other comprehensive income (OCI) or through profit or loss) and

b. those measured at amortised cost.

At initial recognition, the company measures a financial asset at its fair value plus, in the case of financial asset not at fair value through profit and loss, transaction cost that are directly attributable to the acquisition of financial asset. Transaction cost of financial assets carried at fair value through profit or loss are expensed in profit or loss.

For equity instruments, the Company may make an irrevocable election to present subsequent changes in the fair value in OCI. The Company makes such election on an instrument-by-instrument basis. If the Company decides to classify an equity instrument as at FVOCI, then all fair value changes on the instrument, excluding dividends, are recognised in the OCI. There is no recycling of the amounts from OCI to the statement of profit and loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

(h) Financial liabilities

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, or as loans, borrowings and payables as appropriate.
All financial liabilities are recognised initially at fair value and, in the case of financial liabilities at amortised cost, net of directly attributable transaction costs. The Company's financial liabilities include trade and other payables, loans and borrowings.
After initial recognition, interest-bearing loans, borrowings and trade and other payables are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in the statement of profit and loss when the liabilities are derecognised as well as through the EIR amortisation process.

TSPL became a wholly owned subsidiary of Vedanta Limited (herein after referred as "VL") pursuant to the selection of VL as the successful bidder after going through a tariff based International Competitive Bidding (ICB) process. The Share Purchase Agreement (SPA), Power Purchase Agreement (herein after referred as "PPA") for sale of power from the Plant to PSPCL for a period of 25 years and other necessary documents were signed between VL, TSPL and PSPCL on September 01, 2008. 2 Basis of Preparation and Material Accounting Policies :

2.A. Basis of preparation and measurement of financial statements

(i) The financial statements have been prepared on a going concern basis using historical cost convention, except for certain financial assets and liabilities which are measured at fair value/amortised cost .

These Unaudited Interim Condensed Financial Statements have been prepared in accordance with Indian Accounting Standard (Ind AS) 34 Interim Financial Reporting notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended) and other relevant provisions of the Companies Act, 2013 (the "Act") (as amended from time to time).

The Unaudited Interim Condensed Ind AS Financial Statements have been prepared by the Company for the limited purpose of inclusion in the notice convening meeting of secured and unsecured creditors of Talwandi Sabo Power Limited (the "Company"). These meetings are to be conducted in accordance with the order of National Company Law Tribunal, Mumbai Bench dated October 17, 2025, in connection with the proposed composite scheme of arrangement between Vedanta Limited "Demerged Company") and Vedanta Aluminium Metal Limited ("Resulting Company 1") and Talwandi Sabo Power Limited ("Resulting Company 2") and Malco Energy Limited ("Resulting Company 3") and Vedanta Iron and Steel Limited ("Resulting Company 4") and their respective shareholders and creditors ("Scheme"). As a result, Unaudited Interim Condensed Financial Statements are not suitable for any other purposes.

Accordingly, the Unaudited Interim Condensed Financial Statements do not include all of the information and disclosures required in the annual financial statements and should be read in conjunction with the Company's annual financial statements as at and for the year ended March 31, 2025.

2.B. MATERIAL ACCOUNTING POLICIES

These Unaudited Interim Condensed Financial Statements are prepared in all material respects, using the same accounting policies as applied in the audited financial statements for the year ended March 31, 2025

2.C. SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of financial statement in conformity with Ind AS requires management to make estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income, expenses and disclosures of contingent assets and liabilities at the date of these financial statements and the reported amounts of revenues and expenses for the years presented. Actual results may differ from these estimates under different assumptions and conditions.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised, and future periods affected.

Information about significant areas of estimation uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements are included in the following accounting policies and/or notes:

Critical estimates and judgements in applying accounting policies

The management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Information about estimates and judgements made in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements are as follows:

Critical estimates:

• Useful life of property, plant and equipment

Useful life of depreciable/ amortisable assets (tangible and intangible) - Management reviews its estimate of the useful lives and consumption pattern of depreciable/ amortisable assets at each reporting date, based on the expected utility of the assets. The reassessment may lead to a change in depreciation and amortisation charge. Accordingly, the Company has revised the useful life of its property, plant, and equipment from 40 years to 25 years during previous year.

Critical judgements:

• Determining whether an arrangement contains a lease and fixed rentals therein

Significant judgement is required to apply lease accounting rules under Ind AS 116 'Determining whether an arrangement contains a lease. In assessing the applicability to arrangements entered by the Company, management has exercised judgement to evaluate the right to use the underlying asset, substance of the transactions including legally enforceable agreements and other significant terms and conditions of the arrangements to conclude whether the arrangement meets the criteria under Ind AS 116.

The Company has ascertained that the Power Purchase Agreement (PPA) entered between the Company and Punjab State Power Corporation Limited (PSPCL) qualify as operating lease as per Ind AS 116 Leases. Accordingly, the consideration receivable under the PPA relating to recovery of capacity charges have been recognised as operating lease rentals and in respect of energy charges is considered as revenue from sale of products.

The Company has assessed the nature of operating lease payments received as a lessor. Management has assessed that the entire lease payments as disclosed are contingent in nature as the payments are based on the number of units of electricity made available by the Company. This is subject to variation on account of various factors like availability of coal, water, etc. of the plant.

• Contingencies and commitments

In the normal course of business, contingent liabilities may arise from litigation, taxation, and other claims against the Company. A tax provision is recognised when the Company has a present obligation as a result of a past event and it is probable that the Company will be required to settle that obligation.

Where it is management's assessment that the outcome cannot be reliably quantified or is uncertain, the claims are disclosed as contingent liabilities unless the likelihood of an adverse outcome is remote. Such liabilities are disclosed in the notes but are not provided for in the financial statements.

When considering the classification of legal or tax cases as probable, possible or remote, there is judgement involved. This pertains to the application of the legislation, which in certain cases is based upon management's interpretation of country specific tax law, in particular India, and the likelihood of settlement. Management uses in-house and external legal professionals to confirm their decision.

Although there can be no assurance regarding the final outcome of the legal proceedings, the Company does not expect them to have a materially adverse impact on the Company's financial position or profitability.

• Revenue Recognition of disputed dues:

The Company has evaluated the provisions of Ind-AS 115, which states that revenue should be recorded If it is probable that the entity will collect the consideration to which it will be entitled in exchange for the goods or services has been transferred to the customer. Management has assessed the recognition of revenue and recoverability of disputed dues with PSPCL as highly probable due to the following reasons:

▪ The Company has favorable legal opinions from senior advocates.
▪ Favourable judgement in one of the related matters.
▪ PSPCL being a government owned company, credit risk is low.

Talwandi Sabo Power Limited

Notes forming part of the Unaudited Interim Condensed Financial statements as at and for the three months ended June 30, 2025

Note 3

Misdeclaration Case

In an earlier year, Punjab State Power Corporation Limited ("PSPCL") imposed a penalty on the Company on account of alleged mis-declaration of declared capacity and deducted a penalty of ₹ 77.86 Crores (previous year ₹ 77.86 Crore) from the monthly bills. In February 2018, PSERC unfavourably disposed the petition determining penalty of ₹ 127.32 Crores. TSPL filed an appeal before Appellate Tribunal for Electricity ("APTEL") challenging the penalty. During the year ended March 31, 2025, APTEL pronounced the order in favour of the Company directing PSPCL to refund the deducted penalty along with 'Late Payment Surcharge'. Following the order, the counterparties-PSPCL and Punjab State Load Dispatch Center ("PSLDC ") have filed a Civil Appeal before the Hon'ble Supreme Court of India challenging the said decision in May 2025.The Hon'ble Supreme Court has directed the Company to file its reply/written submissions, and the matter is next listed for hearing on January 20, 2026.
During the current quarter, the Company has received a total of ₹250 crores, comprising of ₹77.86 crores towards the principal amount withheld and ₹172.14 crores towards Late Payment Surcharge (LPS). As per the accounting policy, Late Payment Surcharge has been accounted for as revenue from operations during the quarter.
Based on an internal assessment and supported by a legal opinion, the Company believes that it has strong case on merits and accordingly the likelihood of reversal of the appellate tribunal's decision is very low.

Disputed Trade Receivables

Punjab State Power Corporation Limited ("PSPCL"), which is the Company's sole customer has withheld payments aggregating to Rs. 378.85 Crore (As at March 31, 2025 Rs. 1691.35 Crore) which are on account of various disputes including in relation to procurement of alternate coal and certain charges relating to procurement of coal amongst other. As at March 31, 2025, amount withheld by PSPCL also included amounts in respect of disputes in relation to tax benefits at the time of intital plant set up and basis of computation of plant availability.

These matters are under litigation and the Company has obtained independent legal advice which supports its claims and is thus not expecting any material losses on these balances and believes that it is highly probable that the Company claims would be upheld. Based on the expected timing of realisation of these balances, which is in turn dependent on the settlement of legal disputes, the Company has bifurcated the receivables into current and non-current. The management has assessed the recoverability of the outstanding balances and does not believe that any material adjustment is required to be done.

(a) As of 31 March 2025, the Company had recognized a receivable of ₹1,319 crores in respect of Mega Power benefit based on its own assessment of the merits of the case supported by independent legal advice which validated the company's claim. Pursuant to the judgment of the Hon'ble Supreme Court of India dated 19 August 2025, the matter has been decided against the Company. Consequently, the aforesaid receivable is no longer recoverable and has been written off during the current period.

Further, the Company had earlier received ₹88 crore under the Mega Power benefit matter. Since the matter has now been decided against the Company, this amount is required to be refunded and has accordingly been recognized as Advance from Customer as at June 30, 2025.

Accordingly, a total charge of ₹1,407 crore has been recognized under exceptional items in the accompanying interim condensed statement of profit and loss. The Company has filed a Review Petition before the Hon'ble Supreme Court against the said order, which is currently pending adjudication.

Further the company has reversed brand fee to the extent of amount paid on the aforesaid mega power benefit written off or reversed.

(b) During FY 2023-24, the Company terminated its contract with SEPCO Electric Power Construction Corporation ("SEPCO") due to persistent non-performance affecting plant operations. As a result, ₹1,252 Crore of creditors were written back, including ₹794 Crore recognized as Exceptional Gain for prior years' performance loss, and the balance adjusted against capitalized spares and ancillaries.

Subsequently, under a Settlement Agreement dated September 11, 2025, the Company has agreed for a payment of USD 75 million to SEPCO towards full and final settlement of all pending claims and disputes between the Company and SEPCO. The settlement payment has been charged to statement of profit and loss and disclosed under exceptional items.

7.Biomass utilization for power generation as cofire fuel

In accordance with the Revised Ministry of Power (MoP) Policy dated October 10, 2021, coal-based thermal power plants are required to mandatorily utilize a minimum 5% blend of torrefied biomass pellets (with volatile content below 22%), primarily derived from agro-residue, along with coal, effective from FY 2024–25. During FY 2024–25, the Company achieved a biomass blending ratio of 0.34%, significantly below the prescribed threshold. Non-compliance with the mandate may result in a potential penalty exposure of ₹33.02 crore, payable as environmental compensation.

Considering that FY 2024–25 represents the first year of implementation of the biomass usage requirement, the Company has submitted a waiver application to CAQM under Clause 5 of the Notification, citing unforeseen challenges beyond management's control. These challenges primarily relate to supply chain constraints, technical limitations, and vendor unavailability.

Based on discussions with the management, it is their considered view that the waiver request is justified and expected to be favourably considered by the authorities. Furthermore, management has confirmed that the Company is taking proactive measures to ensure full compliance with the enhanced 5% biomass blending target applicable in the current financial year. Accordingly, no provision has been considered against the potential penalty exposure.

8.Deferred Tax Assets

Although the Company presently has significant tax losses and unabsorbed depreciation, the Company has recognized Deferred Tax Assets (DTA) on carried forward business losses and unabsorbed depreciation in accordance with Ind AS 12 "Income Taxes". The management has prepared projections for the remaining tenure of the Power Purchase Agreement (PPA), which indicate availability of sufficient taxable profits to absorb these losses. Based on this assessment, it is considered probable that the DTA recognized will be realized. Management will review the assumptions underlying such projections at each reporting date and reassesses the recoverability of the DTA in light of any changes in business performance or regulatory framework.

9.Subsequent Events

Subsequent to 30 June 2025, a short seller has published a series of reports making certain allegations against Vedanta Group ("the Group") entities including the Company. Further, the Group has submitted requisite details and explanations pursuant to a request for information and summons for production of documents issued by the market regulator, and no further communication has been received from the regulator thereafter. Based on its assessment, legal advise obtained, and involvement of external experts engaged by the Group as of date, management of the Company continues to believe that these allegations are baseless and that the transactions and accounting treatments have appropriate commercial substance; and that the said transactions have been duly approved through necessary processes and are in compliance with contractual obligations and applicable laws and regulations. Based on the above, management is confident that there are no implications to the interim condensed financial statements of the Company as at and for the three months ended 30 June 2025, or any prior periods, with respect to the allegations in the short seller reports published till date.

4.20. The determination of a fair share entitlement ratio is not a precise science and the conclusions arrived at in many cases will be subjective and dependent on the exercise of individual judgment. There is therefore no indisputable single value. While we have provided an assessment of the value based on an analysis of information available to us and within the scope of our engagement, others may place a different opinion.

4.21. Whilst all reasonable care has been taken to ensure that the factual statements in the Report are accurate, neither us, nor any of our partners, officers or employees shall in any way be liable or responsible either directly or indirectly for the contents stated herein. 5.1. For the purpose of undertaking this valuation exercise, we have relied on the following sources of information provided by the management/ representatives of the Companies:

- Carved out financials of Aluminium Business of VEDL for Financial Year **("FY")** ended March 31, 2023;
- Carved out financials of Aluminium Business of VEDL for the period ended June 30, 2023;
- Financials of BALCO for FY ended March 31, 2023 and for the period ended June 30, 2023;
- Shareholding pattern of VEDL as at June 30, 2023;
- Draft Scheme of Arrangement between VEDL and Aluminium Co. and their respective shareholders and creditors under sections 230 to 232 and other relevant provisions of the Companies Act, 2013;
- Proposed Capital Structure of Aluminium Co. as on the Effective Date (as defined in the Scheme); and
- Other relevant data and information provided to us by the representatives of the Companies either in written or oral form or in form of soft copy of the Companies.

5.2. We have also obtained the explanations, information and representations, which we believed were reasonably necessary and relevant for our exercise from the management of VEDL **("Management")**. VEDL has been provided with the opportunity to review the draft Report (excluding the recommended Fair Share Entitlement Ratio) as part of our standard practice to make sure that factual inaccuracies/ omissions are avoided in our final Report.

5.3. The Management has informed us that there would be no significant variation between the draft Scheme and the final scheme approved and submitted with the relevant authorities.

Sensitivity: Public (C4)

6. Procedures Adopted

6.1. Procedures used in our analysis included such substantive steps as we considered necessary under the circumstances, including but not limited to the following:

- Discussion with the Management to:
  - Understand the rationale for the Proposed Demerger and the Scheme;
  - Understand the current and proposed capital structure of Aluminium Co.;
  - Understand the business and fundamental factors that affect the operations of VEDL and Aluminium Co.;
- Requested and received financial and qualitative information;
- Analysis of information shared by the Management;
- Reviewed the draft Scheme of Arrangement between the Companies;
- Reviewed the audited financial results/statements of VEDL, Carved out financials of Aluminium Co for the FY ended March 31, 2023 and period ended June 30, 2023;
- Reviewed the shareholding pattern of VEDL as at June 30, 2023;
- Determined the fair share entitlement ratio for issue of equity shares of Aluminium Co to the shareholders of VEDL as consideration for the Proposed Demerger after taking into consideration the proposed capital structure of Aluminium Co and the effect of capital reduction in VEDL forming part of the Scheme.

Sensitivity: Public (C4)

7. Approach for Determination of Fair Share Entitlement Ratio

7.1. As mentioned earlier, as per the Scheme, the Aluminium Undertaking is proposed to be demerged from VEDL into Aluminium Co. VEDL has identified all the assets and liabilities of Aluminium Undertaking of VEDL which are to be taken over by and transferred to Aluminium Co. and corresponding issuance of equity shares of Resulting Company to the shareholders of VEDL and reduction and cancellation of the entire share capital of Resulting Company.

7.2. We understand that, upon the scheme being effective, the shareholding pattern of VEDL and Aluminium company will be identical. All the shareholders of VEDL would also become the shareholders of Aluminium Co. and every shareholder of VEDL will hold same percentage of equity ownership in Aluminium as owns in VEDL and accordingly their shareholding in Aluminium Co would mirror their existing shareholding in VEDL prior to the Scheme.

7.3. Taking into account the above facts and circumstance, any share entitlement ratio can be considered appropriate and fair for the Proposed Demerger as the proportionate equity shareholding of any shareholder pre-demerger and post-demerger would remain same and not vary. We have therefore not carried out any independent valuation of the subject business.

7.4. Based on the aforementioned and upon the Scheme becoming effective (post demerger), the set of shareholders and holding proportion in the Demerged Company shall be identical to that of Resulting Company. The beneficial economic interest of Demerged Company shareholders in Resulting Company will remain same as at the time of demerger and hence would not have any impact on the economic interest of the shareholders of the Demerged Company. The share entitlement ratio would not have any impact on the ultimate value of the shareholders of Demerged Company and the Proposed Demerger will be value-neutral to the Demerged Company's shareholders.

Sensitivity: Public (C4)

8. Recommendation of Fair Share Entitlement Ratio for the Proposed Demerger

8.1. On the basis of the foregoing, considering the proposed Capital Structure of Aluminium Co as informed to us by the Management and on consideration of all the relevant factors and circumstances as discussed and outlined hereinabove, a share entitlement ratio in the event of the Proposed Demerger would be as follows:

"1 (One) fully paid Equity Share of INR 1/- (Indian Rupee One) each in Aluminium Co. for every 1 (One) fully paid Equity Share of INR 1/- (Indian Rupee One) each held in Vedanta Limited"

8.2. Our Report and fair share entitlement ratio is based on the current equity share capital structure of VEDL and envisaged equity share capital of Aluminium Co as mentioned above. Any variation in the equity share capital structure of VEDL and Aluminium Co apart from the above mentioned may have an impact on the fair share entitlement ratio.

8.3. Upon the Scheme being effective, fresh issue of shares would be made to the existing shareholders of VEDL on a proportionate basis such that their existing holding in VEDL is replicated in Aluminium Co. Accordingly, we believe that any fair share entitlement ratio can be considered appropriate and fair for the Proposed Demerger as the inter-se proportionate equity shareholding of any shareholder pre-demerger and post-demerger would remain same and not vary and we have therefore not carried out any independent valuation of the subject business.

8.4. Accordingly, considering the approach and the rationale for the fair share entitlement ratio discussed in para 7 above, the valuation approaches as indicated in the format (as shown below) as prescribed by circular number NSE/CML/2017/12 of NSE and LIST/COMP/02/2017-18 of BSE have not been undertaken as they are not applicable in the instant case:

We, BDO Valuation Advisory LLP **("BDO VAL" or "We" or "Us")**, have been appointed vide Letter of Award of Contract dated May 26, 2023 to recommend the fair share entitlement ratio for the proposed demerger of the Merchant Power Undertaking of Vedanta Limited **("VEDL" or "Demerged Company")** into Talwandi Saboo Power Limited **("TSPL" or "Resulting Company")** on going concern basis pursuant to Scheme of Arrangement between VEDL and TSPL and their respective shareholders and creditors under sections 230 to 232 and other relevant provisions of the Companies Act, 2013 ("**the Scheme**").

We are pleased to present herewith our report (**"Report"**) on the same.

We have determined the fair share entitlement ratio for the proposed demerger as on September 29, 2023 **("Valuation Date" or "Report Date").** A summary of the analysis is presented in the accompanying Report, as well as description of the methodology and procedure we used, and the factors we considered in formulating our opinion.

We believe that our analysis must be considered as a whole. Selecting portion of our analysis or the factors we considered, without considering all factors and analysis together could create a misleading view of the process underlying the valuation conclusions. The preparation of a valuation is a complex process and is not necessarily susceptible to partial analysis or summary description. Any attempt to do so could lead to undue emphasis on any particular factor or analysis. This letter should be read in conjunction with the attached Report.

- Carved out / Set of financials of Merchant Power Undertaking of VEDL for Financial Year **("FY")** ended March 31, 2023;
- Carved out / Set of financials of Merchant Power Undertakings of VEDL for the period ended June 30, 2023;
- Shareholding pattern of VEDL and TSPL as at June 30, 2023;
- Draft Scheme of Arrangement between VEDL and TSPL and their respective shareholders and creditors under sections 230 to 232 and other relevant provisions of the Companies Act, 2013;
- Proposed Capital Structure of TSPL as on the Effective Date (as defined in the Scheme); and
- Other relevant data and information provided to us by the representatives of the Companies either in written or oral form or in form of soft copy of the Companies.

5.2. We have also obtained the explanations, information and representations, which we believed were reasonably necessary and relevant for our exercise from the management of Companies **("Management")**. 6. Procedures Adopted

6.1. Procedures used in our analysis included such substantive steps as we considered necessary under the circumstances, including but not limited to the following:

- Discussion with the Management to:
  - Understand the rationale for the Proposed Demerger and the Scheme;
  - Understand the current and proposed capital structure of TSPL;
  - Understand the business and fundamental factors that affect the operations of VEDL and TSPL;
- Requested and received financial (historical, Current & Projected) and qualitative information;
- Analysis of information shared by the Management;
- Reviewed the draft Scheme of Arrangement between the Companies;
- Reviewed the audited financial results/statements of VEDL for the FY ended March 31, 2023 and Carved out financials of Merchant Power Undertaking for the FY ended March 31, 2023 and for period ended June 30, 2023;
- Considered the shareholding pattern of the Companies as at June 30, 2023;
- Determined the fair share entitlement ratio for issue of equity shares of TSPL to the shareholders of VEDL as consideration for the Proposed Demerger after taking into consideration the proposed capital structure of TSPL and the effect of capital reduction in VEDL forming part of the Scheme.

7. Approach for Determination of Fair Share Entitlement Ratio

7.1. As mentioned earlier, as per the Scheme, the Demerged Undertaking i.e. business of Merchant Power Undertaking is proposed to be demerged from VEDL into TSPL. VEDL has identified all the assets and liabilities of Merchant Power Undertaking of VEDL which are to be taken over by and transferred to TSPL and corresponding issuance of equity shares of Resulting Company to the shareholders of VEDL and reduction and cancellation of the entire share capital of Resulting Company.

7.2. We understand that, upon the scheme being effective, the shareholding pattern of VEDL and TSPL will be identical. All the shareholders of VEDL would also become the shareholders of TSPL and every shareholder of VEDL will hold same percentage of equity ownership in TSPL as owns in VEDL and accordingly their shareholding in TSPL would mirror their existing shareholding in VEDL prior to the Scheme.

7.3. Taking into account the above facts and circumstance, any share entitlement ratio can be considered appropriate and fair for the Proposed Demerger as the proportionate equity shareholding of any shareholder pre-demerger and post-demerger would remain same and not vary. We have therefore not carried out any independent valuation of the subject business.

7.4. Based on the aforementioned and upon the Scheme becoming effective (post demerger), the set of shareholders and holding proportion in the Demerged Company shall be identical to that of Resulting Company. The beneficial economic interest of Demerged Company shareholders in Resulting Company will remain same as at the time of demerger and hence would not have any impact on the economic interest of the shareholders of the Demerged Company. The share entitlement ratio would not have any impact on the ultimate value of the shareholders of Demerged Company and the Proposed Demerger will be value-neutral to the Demerged Company's shareholders.

Sensitivity: Public (C4)

8. Recommendation of Fair Share Entitlement Ratio for the Proposed Demerger

8.1. On the basis of the foregoing, considering the proposed Capital Structure of TSPL as informed to us by the Management and on consideration of all the relevant factors and circumstances as discussed and outlined hereinabove, a share entitlement ratio in the event of the Proposed Demerger would be as follows:

"1 (One) fully paid Equity Share of INR 10/- (Indian Rupees Ten) each in TSPL for every 1 (One) fully paid Equity Share of INR 1/- (Indian Rupee One) each held in Vedanta Limited"

8.2. Our Report and fair share entitlement ratio is based on the current equity share capital structure of VEDL and envisaged equity share capital of TSPL as mentioned above. Any variation in the equity share capital structure of VEDL and TSPL apart from the above-mentioned may have an impact on the fair share entitlement ratio.

8.3. Upon the Scheme being effective, fresh issue of shares would be made to the existing shareholders of VEDL on a proportionate basis such that their existing holding in VEDL is replicated in TSPL. Accordingly, we believe that any fair share entitlement ratio can be considered appropriate and fair for the Proposed Demerger as the inter-se proportionate equity shareholding of any shareholder pre-demerger and post-demerger would remain same and not vary and we have therefore not carried out any independent valuation of the subject business.

8.4. Accordingly, considering the approach and the rationale for the fair share entitlement ratio discussed in para 7 above, the valuation approaches as indicated in the format (as shown below) as prescribed by circular number NSE/CML/2017/12 of NSE and LIST/COMP/02/2017-18 of BSE have not been undertaken as they are not applicable in the instant case:

Valuation Approach	VEDL		TSPL	
	Value Per Share (INR)	Weights	Value Per Share (INR)	Weights
Asset Approach	NA	NA	NA	NA
Income Approach	NA	NA	NA	NA
Market Approach	NA	NA	NA	NA
Value Per Share	NA		**NA**	
Share entitlement Ratio	**NA**		**NA**

Nothing has come to our knowledge to indicate that the material provided to us was mis-stated or incorrect or would not afford reasonable grounds upon which to base our Report.

4.13. For the present valuation exercise, we have also relied upon information available in the public domain; however, the accuracy and timeliness of the same has not been independently verified by us.

4.14. In addition, we do not take any responsibility for any changes in the information used by us to arrive at our conclusion as set out here in which may occur subsequent to the date of our Report or by virtue of fact that the details provided to us are incorrect or inaccurate.

4.15. We have arrived at a relative value based on our analysis. Any transaction price may however be significantly different and would depend on the negotiating ability and motivations of the respective buyers and sellers in the transaction.

4.16. Our scope is limited to recommendation of fair share entitlement ratio. Sensitivity: Public (C4)

4.18. This Report does not look into the business/commercial reasons behind the Proposed Demerger nor the likely benefits arising out of the same. Similarly, it does not address the relative merits of the Proposed Demerger as compared with any other alternative business transaction or any other alternatives, whether or not such alternatives could be achieved or are available. The assessment of commercial and investment merits of the Companies are sole responsibility of the investors of the Companies and we don't express opinion on the suitability or otherwise of entering into any financial or other transactions with the Companies.

4.19. No investigation/inspection of the Companies' claim to the title of assets has been made for the purpose of this Report and the same has assumed to be valid. No consideration has been given to liens or encumbrances against such assets, beyond the loans disclosed in the accounts. Therefore, no responsibility is assumed for matters of legal nature.

4.20. The determination of a fair share entitlement ratio is not a precise science and the conclusions arrived at in many cases will be subjective and dependent on the exercise of individual judgment. There is therefore no indisputable single value. While we have provided an assessment of the value based on an analysis of information available to us and within the scope of our engagement, others may place a different opinion.

4.21. Whilst all reasonable care has been taken to ensure that the factual statements in the Report are accurate, neither us, nor any of our partners, officers or employees shall in any way be liable or responsible either directly or indirectly for the contents stated herein. Accordingly, we make no representation or warranty, express or implied, in respect of the completeness, authenticity or accuracy of such factual statements. We expressly disclaim any and all liabilities, which may arise based upon the information used in this Report.

In the particular circumstances of this case, our liability, if any (in contract or under statute or otherwise) for any economic loss or damage arising out of or in connection with this engagement, howsoever the loss or damage caused, shall be limited to the amount of fees actually received by us from the Company, as laid out in the engagement letter, for such valuation work.

4.23. We do not accept any liability to any third party in relation to the issue of this Report. It is understood that this analysis does not represent a fairness opinion. This Report is not a substitute for the third party's own due diligence/ appraisal/ enquiries/ independent advice that the third party should undertake for his purpose.

Sensitivity: Public (C4)

4.24. This Report does not in any manner address the prices at which equity shares of the Companies will trade following the announcement and/or implementation of the Proposed Demerger and we express no opinion or recommendation as to how the shareholders of the Companies should vote at the shareholders' meeting(s) to be held in connection with the Proposed Demerger.

4.25. The recommendation(s) rendered in this report only represent our recommendation(s) based upon information furnished by the Companies (or its representatives) and other sources and the said recommendation(s) shall be considered to be in the nature of non-binding advice, (our recommendation will however not be used for advising anybody to take buy or sell decision, for which specific opinion needs to be taken from expert advisors).

5.1. For the purpose of undertaking this valuation exercise, we have relied on the following sources of information provided by the management/ representatives of the Companies:

- Carved out / Set of financials of Oil and Gas Undertaking of VEDL for Financial Year **("FY")** ended March 31, 2023;
- Carved out / Set of financials of Oil and Gas Undertakings of VEDL for the period ended June 30, 2023;
- Shareholding pattern of VEDL and Malco as at June 30, 2023;
- Draft Scheme of Arrangement between VEDL and Malco and their respective shareholders and creditors under sections 230 to 232 and other relevant provisions of the Companies Act, 2013;
- Proposed Capital Structure of Malco as on the Effective Date (as defined in the Scheme); and
- Other relevant data and information provided to us by the representatives of the Companies either in written or oral form or in form of soft copy of the Companies.

5.2. We have also obtained the explanations, information and representations, which we believed were reasonably necessary and relevant for our exercise from the management of Companies **("Management")**. 6. Procedures Adopted

6.1. Procedures used in our analysis included such substantive steps as we considered necessary under the circumstances, including but not limited to the following:

- Discussion with the Management to:
  - Understand the rationale for the Proposed Demerger and the Scheme;
  - Understand the current and proposed capital structure of Malco;
  - Understand the business and fundamental factors that affect the operations of VEDL and Malco;
- Requested and received financial (historical, Current & Projected) and qualitative information;
- Analysis of information shared by the Management;
- Reviewed the draft Scheme of Arrangement between the Companies;
- Reviewed the audited financial results/statements of VEDL for the FY ended March 31, 2023 and Carved out financials of Oil and Gas Undertaking for the FY ended March 31, 2023 and for period ended June 30, 2023;
- Considered the shareholding pattern of the Companies as at June 30, 2023;
- Determined the fair share entitlement ratio for issue of equity shares of Malco to the shareholders of VEDL as consideration for the Proposed Demerger after taking into consideration the proposed capital structure of Malco and the effect of capital reduction in VEDL forming part of the Scheme.

7. Approach for Determination of Fair Share Entitlement Ratio

7.1. As mentioned earlier, as per the Scheme, the Demerged Undertaking i.e. business of Oil and Gas Undertaking is proposed to be demerged from VEDL into Malco. VEDL has identified all the assets and liabilities of Oil and Gas Undertaking of VEDL which are to be taken over by and transferred to Malco and corresponding issuance of equity shares of Resulting Company to the shareholders of VEDL and reduction and cancellation of the entire share capital of Resulting Company.

7.2. We understand that, upon the scheme being effective, the shareholding pattern of VEDL and Malco will be identical. All the shareholders of VEDL would also become the shareholders of Malco and every shareholder of VEDL will hold same percentage of equity ownership in Malco as owns in VEDL and accordingly their shareholding in Malco would mirror their existing shareholding in VEDL prior to the Scheme.

7.3. Taking into account the above facts and circumstances, any share entitlement ratio can be considered appropriate and fair for the Proposed Demerger as the proportionate equity shareholding of any shareholder pre-demerger and post-demerger would remain same and not vary. We have therefore not carried out any independent valuation of the subject business.

7.4. Based on the aforementioned and upon the Scheme becoming effective (post demerger), the set of shareholders and holding proportion in the Demerged Company shall be identical to that of Resulting Company. The beneficial economic interest of Demerged Company shareholders in Resulting Company will remain same as at the time of demerger and hence would not have any impact on the economic interest of the shareholders of the Demerged Company. The share entitlement ratio would not have any impact on the ultimate value of the shareholders of Demerged Company and the Proposed Demerger will be value-neutral to the Demerged Company's shareholders.

Sensitivity: Public (C4)

8. Recommendation of Fair Share Entitlement Ratio for the Proposed Demerger

8.1. On the basis of the foregoing, considering the proposed Capital Structure of Malco as informed to us by the Management and on consideration of all the relevant factors and circumstances as discussed and outlined hereinabove, a share entitlement ratio in the event of the Proposed Demerger would be as follows:

"1 (One) fully paid Equity Share of INR 1/- (Indian Rupee One) each in Malco for every 1 (One) fully paid Equity Share of INR 1/- (Indian Rupee One) each held in Vedanta Limited"

8.2. Our Report and fair share entitlement ratio is based on the current equity share capital structure of VEDL and envisaged equity share capital of Malco as mentioned above. Any variation in the equity share capital structure of VEDL and Malco apart from the above-mentioned may have an impact on the fair share entitlement ratio.

8.3. Upon the Scheme being effective, fresh issue of shares would be made to the existing shareholders of VEDL on a proportionate basis such that their existing holding in VEDL is replicated in Malco. Accordingly, we believe that any fair share entitlement ratio can be considered appropriate and fair for the Proposed Demerger as the inter-se proportionate equity shareholding of any shareholder pre-demerger and post-demerger would remain same and not vary and we have therefore not carried out any independent valuation of the subject business.

8.4. Accordingly, considering the approach and the rationale for the fair share entitlement ratio discussed in para 7 above, the valuation approaches as indicated in the format (as shown below) as prescribed by circular number NSE/CML/2017/12 of NSE and LIST/COMP/02/2017-18 of BSE have not been undertaken as they are not applicable in the instant case:

Valuation Approach	VEDL		Malco	
	Value Per Share (INR)	Weights	Value Per Share (INR)	Weights
Asset Approach	NA	NA	NA	NA
Income Approach	NA	NA	NA	NA
Market Approach	NA	NA	NA	NA

7. Approach for Determination of Fair Share Entitlement Ratio

7.1. As mentioned earlier, as per the Scheme, the Demerged Undertaking i.e. business of Iron Ore Undertaking is proposed to be demerged from VEDL into Iron Ore Co. VEDL has identified all the assets and liabilities of Iron Ore Undertaking of VEDL which are to be taken over by and transferred to Iron Ore Co. and corresponding issuance of equity shares of Resulting Company to the shareholders of VEDL and reduction and cancellation of the entire share capital of Resulting Company.

7.2. We understand that, upon the scheme being effective, the shareholding pattern of VEDL and Iron Ore Co will be identical. All the shareholders of VEDL would also become the shareholders of Iron Ore Co and every shareholder of VEDL will hold same percentage of equity ownership in Iron Ore Co as owned in VEDL and accordingly their shareholding in Iron Ore Co would mirror their existing shareholding in VEDL prior to the Scheme.

7.3. Taking into account the above facts and circumstance, any share entitlement ratio can be considered appropriate and fair for the Proposed Demerger as the proportionate equity shareholding of any shareholder pre-demerger and post-demerger would remain same and not vary. We have therefore not carried out any independent valuation of the subject business.

7.4. Based on the aforementioned and upon the Scheme becoming effective (post demerger), the set of shareholders and holding proportion in the Demerged Company shall be identical to that of Resulting Company. The beneficial economic interest of Demerged Company shareholders in Resulting Company will remain same as at the time of demerger and hence would not have any impact on the economic interest of the shareholders of the Demerged Company. The share entitlement ratio would not have any impact on the ultimate value of the shareholders of Demerged Company and the Proposed Demerger will be value-neutral to the Demerged Company's shareholders.

Sensitivity: Public (C4)

8. Recommendation of Fair Share Entitlement Ratio for the Proposed Demerger

8.1. On the basis of the foregoing, considering the proposed Capital Structure of Iron Ore Co as informed to us by the Management and on consideration of all the relevant factors and circumstances as discussed and outlined hereinabove, a share entitlement ratio in the event of the Proposed Demerger would be as follows:

"1 (One) fully paid Equity Share of INR 1/- (Indian Rupee One) each in Iron Ore Co for every 1 (One) fully paid Equity Share of INR 1/- (Indian Rupee One) each held in Vedanta Limited"

8.2. Our Report and fair share entitlement ratio is based on the current equity share capital structure of VEDL and envisaged equity share capital of Iron Ore Co as mentioned above. Any variation in the equity share capital structure of VEDL and Iron Ore Co apart from the above-mentioned may have an impact on the fair share entitlement ratio.

8.3. Upon the Scheme being effective, fresh issue of shares would be made to the existing shareholders of VEDL on a proportionate basis such that their existing holding in VEDL is replicated in Iron Ore Co. Accordingly, we believe that any fair share entitlement ratio can be considered appropriate and fair for the Proposed Demerger as the inter-se proportionate equity shareholding of any shareholder pre-demerger and post-demerger would remain same and not vary and we have therefore not carried out any independent valuation of the subject business.

8.4. Accordingly, considering the approach and the rationale for the fair share entitlement ratio discussed in para 7 above, the valuation approaches as indicated in the format (as shown below) as prescribed by circular number NSE/CML/2017/12 of NSE and LIST/COMP/02/2017-18 of BSE have not been undertaken as they are not applicable in the instant case:

Valuation Approach	VEDL		Iron Ore Co.	
	Value Per Share (INR)	Weights	Value Per Share (INR)	Weights
Asset Approach	NA	NA	NA	NA
Income Approach	NA	NA	NA	NA
Market Approach	NA	NA	NA	NA
Value Per Share	NA		**NA**	
Share entitlement Ratio	**NA**		**NA**

*(i) Sterlite Industries (India) Limited v. Securities and Exchange Board of India (SEBI Appeal 20 of 2001) before the Bombay High Court**

Vedanta Aluminium Metal Limited

The Securities Appellate Tribunal ("**SAT**") on the basis that inter alia there was insufficient material evidence to establish that Sterlite Industries India Limited (now merged with VEDL) ("**SIIL**") had, directly or indirectly, engaged in market manipulation allowed the Appeal filed by SIIL against the order passed by SEBI, under Section 24 read with Section 27 of the SEBI Act, 1992 to prohibit SIIL from accessing the capital markets for a period of two years and initiated proceedings for alleged violation of Regulations 4(a) and 4(d) of the SEBI (Prohibition of Fraudulent and Unfair Trade Practices relating to Securities Market) Regulations, 1995 against SIIL through its director including Anil Agarwal. SEBI had also initiated criminal proceedings against SIIL and its Directors, which proceedings on an application made by SIIL before the High Court of Judicature for Bombay ("**Bombay High Court**") has been stayed owing to setting aside of the SEBI order by SAT. SEBI has filed an appeal before the Bombay High Court against the SAT order which is pending adjudication.

(ii) *Vedanta Limited & Ors. v. SEBI (SAT Appeal No. 202 of 2024) before the Securities Appellate Tribunal*

Cairn UK Holdings Limited ("**CUHL**") filed a complaint on the SEBI complaint redress system ("**Complaint**") alleging non-payment of dividend amounting to ₹666 crores by Cairn India Limited (now merged with VEDL) ("**CIL**") in respect of the equity shares held by CUHL in CIL. SEBI in 2017 disposed of the Complaint on the ground that the unpaid dividends had been paid to the Government of India pursuant to the recovery notice issued by the Deputy Commissioner of Income Tax and the said matter was pending before the relevant income tax authorities. CUHL filed an appeal before the Securities Appellate Tribunal ("**SAT**") challenging the disposal of the Complaint by SEBI. Subsequently, the SAT directed SEBI to reconsider the Complaint for violation of provisions of the Companies Act and Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("**SEBI Listing Regulations**") for non-payment of dividends. Basis re-examination, SEBI in 2019 disposed of the Complaint on the ground that inter alia there was absence of mens rea on the part of CIL, which is required to constitute an offence under Section 127 of the Companies Act ("**Disposal of Complaint**"). CUHL challenged the Disposal of Complaint before the SAT. The SAT observed that a prima-facie case was made out by CUHL and directed SEBI to investigate the alleged violations of the Companies Act and SEBI Listing Regulations within six months ("**SAT Order**"). SEBI filed an appeal before the Supreme Court and the Supreme Court upheld the SAT Order and extended the time for completing the enquiry. Thereafter, SEBI issued a show cause notice dated 6 June 2023 to VEDL, our Directors (current and erstwhile) (collectively, "**Parties**") to show cause as to why suitable directions should not be initiated for inter alia alleged violations of certain provisions of the Companies Act and SEBI Listing Regulations for non-payment of dividend. Pursuant to an order dated 12 March 2024 ("**Order**"), SEBI directed VEDL to pay CUHL ₹77.63 crores, that is simple interest at the rate of 18% per annum for delayed payment of dividend, due and payable to CUHL within 45 days of the Order and pursuant to its directions inter alia (a) restrained our Directors from accessing the securities market and further prohibited from buying, selling or otherwise dealing in securities, directly or indirectly, or being associated with securities market in any manner, whatsoever, for a period of two months from the date of the Order; and (b)

Vedanta Aluminium Metal Limited

restrained our Director, Priya Agarwal Hebbar and certain others from accessing the securities market and further prohibited from buying, selling or otherwise dealing in securities, directly or indirectly, or being associated with securities market for a period of one month from the date of the Order. Aggrieved by the Order, the Parties filed an appeal before SAT and subsequently, SAT granted a stay on the effect and operation of the Order subject to payment of 50% of the interest amount by VEDL to CUHL. The aforesaid payment of 50% of the interest amount was deposited by VEDL. The matter is currently pending before the SAT.

*(iii) SEBI v. Vedanta & Ors. (CA 25/26 of 2024) before the Supreme Court of India**

SEBI issued a show cause notice ("**Notice**") to VEDL and others, alleging that pursuant to an investigation, it had observed that Cairn India Limited (now merged with VEDL) ("**CIL**") had made a misleading announcement in relation to a buyback without any intention to fulfil the same. Pursuant to the Notice, SEBI directed VEDL and others to show cause as to why (a) an enquiry shall not be held against them; and (b) penalty shall not be imposed under Section 15HB of the SEBI Act, 1992 for violation of the Securities and Exchange Board of India (Prohibition of Fraudulent and Unfair Trade Practices relating to Securities Market) Regulations, 2003 ("**PFUTP Regulations**") and the Securities and Exchange Board of India (Buyback) Regulations, 1998 ("**Buyback Regulations**"). Subsequently, the Adjudicating Officer, SEBI ("**AO**") held VEDL to be in violation of the provisions of the PFUTP Regulations and Buyback Regulations ("**Order**") and imposed a penalty of ₹5.25 crores on VEDL for making misleading announcement in relation to a buyback of its shares. VEDL filed an appeal against the Order before the Securities Appellate Tribunal ("**SAT**") contending inter alia that it cannot be conclusively proved that VEDL made such misleading announcement in relation to a buyback of its shares. Pursuant to its order, SAT set aside the Order ("**SAT Order**"). SEBI has filed an appeal before the Supreme Court of India challenging the SAT Order. The matter is currently pending.

C. **Regulatory Action, if any - disciplinary action taken by SEBI or Stock Exchanges against the Promoter in last 5 Financial years including outstanding action, if any:**

(i) *Sterlite Industries (India) Limited v. Securities and Exchange Board of India (SEBI Appeal 20 of 2001) before the Bombay High Court*

The Securities Appellate Tribunal ("**SAT**") on the basis that inter alia there was insufficient material evidence to establish that Sterlite Industries India Limited (now merged with VEDL) ("**SIIL**") had, directly or indirectly, engaged in market manipulation allowed the Appeal filed by SIIL against the order passed by SEBI, under Section 24 read with Section 27 of the SEBI Act, 1992 to prohibit SIIL from accessing the capital markets for a period of two years and initiated proceedings for alleged violation of Regulations 4(a) and 4(d) of the SEBI (Prohibition of Fraudulent and Unfair Trade Practices relating to Securities Market) Regulations, 1995 against SIIL through its director including Anil Agarwal. SEBI had also initiated criminal proceedings against SIIL and its Directors, which proceedings on an application made by SIIL before the High Court of Judicature for Bombay ("**Bombay High Court**") has been stayed owing to setting aside of the SEBI order by SAT. SEBI has filed an appeal before the Bombay High Court against the SAT order which is pending adjudication.

(ii) *Vedanta Limited & Ors. v. SEBI (SAT Appeal No. 202 of 2024) before the Securities Appellate Tribunal*

Cairn UK Holdings Limited ("**CUHL**") filed a complaint on the SEBI complaint redress system ("**Complaint**") alleging non-payment of dividend amounting to ₹666 crores by Cairn India Limited (now merged with VEDL) ("**CIL**") in respect of the equity shares held by CUHL in CIL. SEBI in 2017 disposed of the Complaint on the ground that the unpaid dividends had been paid to the Government of India pursuant to the recovery notice issued by the Deputy Commissioner of Income Tax and the said matter was pending before the relevant income tax authorities. CUHL filed an appeal before the Securities Appellate Tribunal ("**SAT**") challenging the disposal of the Complaint by SEBI. Subsequently, the SAT directed SEBI to reconsider the Complaint for violation of provisions of the Companies Act and Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("**SEBI Listing Regulations**") for non-payment of dividends. Basis re-examination, SEBI in 2019 disposed of the Complaint on the ground that inter alia there was absence of mens rea on the part of CIL, which is required to constitute an offence under Section 127 of the Companies Act ("**Disposal of Complaint**"). CUHL challenged the Disposal of Complaint before the SAT. CUHL filed an appeal before the Securities Appellate Tribunal ("**SAT**") challenging the disposal of the Complaint by SEBI. Basis re-examination, SEBI in 2019 disposed of the Complaint on the ground that inter alia there was absence of mens rea on the part of CIL, which is required to constitute an offence under Section 127 of the Companies Act ("**Disposal of Complaint**"). CUHL challenged the Disposal of Complaint before the SAT. The SAT observed that a prima-facie case was made out by CUHL and directed SEBI to investigate the alleged violations of the Companies Act and SEBI Listing Regulations within six months ("**SAT Order**"). SEBI filed an appeal before the Supreme Court and the Supreme Court upheld the SAT Order and extended the time for completing the enquiry. Thereafter, SEBI issued a show cause notice dated 6 June 2023 to VEDL, our Directors (current and erstwhile) (collectively, "**Parties**") to show cause as to why suitable directions should not be initiated for inter alia alleged violations of certain provisions of the Companies Act and SEBI Listing Regulations for non-payment of dividend. Pursuant to an order dated 12 March 2024 ("**Order**"), SEBI directed VEDL to pay CUHL ₹77.63 crores, that is simple interest at the rate of 18% per annum for delayed payment of dividend, due and payable to CUHL within 45 days of the Order and pursuant to its directions inter alia (a) restrained our Directors from accessing the securities market and further prohibited from buying, selling or otherwise dealing in securities, directly or indirectly, or being associated with securities market in any manner, whatsoever, for a period of two months from the date of the Order; and (b) restrained our Director, Priya Agarwal Hebbar and certain others from accessing the securities market and further prohibited from buying, selling or otherwise dealing in securities, directly or indirectly, or being associated with securities market for a period of one month from the date of the Order. Aggrieved by the Order, the Parties filed an appeal before SAT and subsequently, SAT granted a stay on the effect and operation of the Order subject to payment of 50% of the interest amount by VEDL to CUHL. The aforesaid payment of 50% of the interest amount was deposited by VEDL. The matter is currently pending before the SAT.

TSPL invoked arbitration proceedings against PSPCL against the demand of liquidated damages of ₹ 9,529.24 million ("**Liquidated Damages**") raised by the Complainant on the grounds that there was a delay in commissioning of three units (660 MW each), in terms of the PPA and delay in the availability of coal on account of the fuel supply agreement not being signed. Pursuant to the same, the Tribunal held that TSPL was under no liability to pay Liquidated Damages to PSPCL for the delay in commissioning of the three power generation units ("**Arbitral Award**"). Aggrieved by the Arbitral Award, the Complainant filed an appeal before the Additional District Judge, Patiala ("**Trial Court**") under Section 34 of the Arbitration Act to set aside the Arbitral Award. The Trial Court dismissed the appeal and observed, inter alia, that the reasons for granting the Arbitral Award were proper, intelligible and there was no proof that the Tribunal had not adopted a judicial approach for deciding the Arbitral Award ("**Impugned Order**").			
2	Punjab State Power Corporation Limited ("**PSPCL**" or "**Respondent**") issued a preliminary default notice to the Respondent alleging an event of default because the TSPL had failed to achieve average power availability of 65% for a non-consecutive time period of 12 months in a continuous aggregate time period of 36 months ("**Default Notice**"). The PSERC observed, inter alia, that TSPL did not raise any objection on the receipt of environmental clearance for the project with regard to the direction by the Ministry of Environment, Forest and Climate Change for space provisioning for retrofitting of the flue gas desulphurization ("**FGD**") equipment and selective non catalytic reduction technology system ("**SNCR**") at a later stage and allocating funds for the same. Aggrieved by the PSERC Judgment, TSPL filed an appeal before the Appellate Tribunal for Electricity, New Delhi ("**APTEL**"). APTEL set aside the PSERC Order and observed, inter alia, that the installation and operation of the FGD, SNCR and associated system to comply with emission levels of sulphur dioxide is change in law and additional expenditure for same has to be included as additional capital costs to be incurred by the Respondent ("**APTEL Order**").

Our Company, Anil Agarwal and Navin Agarwal have challenged the Order before the Appellate Tribunal under SAFEMA at New Delhi ("**Appellate Authority**"). The Appellate Authority granted waiver of the pre-deposit of the penalty imposed on the Parties as the Appellate Authority could not find any prima facie evidence relied upon by the Adjudicating Authority to conclusively prove the above charges. The matter is currently pending.

(iii) Vedanta Limited & Ors. v. SEBI (SAT Appeal No. 202 of 2024) before the Securities Appellate Tribunal

Cairn UK Holdings Limited ("**CUHL**") filed a complaint on the SEBI complaint redress system ("**Complaint**") alleging non-payment of dividend amounting to ₹666 crores by Cairn India Limited (now merged with our Company) ("**CIL**") in respect of the equity shares held by CUHL in CIL. SEBI in 2017 disposed of the Complaint on the ground that the unpaid dividends had been paid to the Government of India pursuant to the recovery notice issued by the Deputy Commissioner of Income Tax and the said matter was pending before the relevant income tax authorities. CUHL filed an appeal before the Securities Appellate Tribunal ("**SAT**") challenging the disposal of the Complaint by SEBI. Subsequently, the SAT directed SEBI to reconsider the Complaint for violation of provisions of the Companies Act, 2013 ("**Companies Act**") and Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("**SEBI Listing Regulations**") for non-payment of dividends. Basis re-examination, SEBI in 2019 disposed of the Complaint on the ground that inter alia there was absence of *mens rea* on the part of CIL, which is required to constitute an offence under Section 127 of the Companies Act ("**Disposal of Complaint**"). CUHL challenged the Disposal of Complaint before the SAT. The SAT observed that a prima-facie case was made out by CUHL and directed SEBI to investigate the alleged violations of the Companies Act and SEBI Listing Regulations within six months ("**SAT**

Order"). SEBI filed an appeal before the Supreme Court of India which upheld the SAT Order and enlarged the time for completing the enquiry. Thereafter, SEBI issued a show cause notice dated 6 June 2023 to our Company, our Directors (current and erstwhile) (collectively, "**Parties**") to show cause as to why suitable directions should not be initiated for inter alia alleged violations of certain provisions of the Companies Act and SEBI Listing Regulations for non-payment of dividend. Pursuant to an order dated 12 March 2024 ("**Order**"), SEBI directed our Company to pay CUHL ₹77.63 crores, that is simple interest at the rate of 18% per annum for delayed payment of dividend, due and payable to CUHL within 45 days of the Order and pursuant to its directions *inter alia* (a) restrained our Directors from accessing the securities market and further prohibited from buying, selling or otherwise dealing in securities, directly or indirectly, or being associated with securities market in any manner, whatsoever, for a period of two months from the date of the Order, and (b) restrained our Director, Priya Agarwal Hebbar and certain others from accessing the securities market and further prohibited from buying, selling or otherwise dealing in securities, directly or indirectly, or being associated with securities market for a period of one month from the date of the Order. Aggrieved by the Order, the Parties filed an appeal before SAT and subsequently, SAT granted a stay on the effect and operation of the Order subject to payment of 50% of the interest amount by our Company to CUHL. The aforesaid payment of 50% of the interest amount was deposited by our Company. The matter is currently pending before the SAT.

(iv) SEBI v. Vedanta & Ors. (CA 25/26 of 2024) before the Supreme Court of India

Pursuant to the Notice, SEBI directed our Company and others to show cause as to why (a) an enquiry shall not be held against them, and (b) penalty shall not be imposed under Section 15HB of the Securities and Exchange Board of India Act, 1992 for violation of the Securities and Exchange Board of India (Prohibition of Fraudulent and Unfair Trade Practices relating to Securities Market) Regulations, 2003 ("**PFUTP Regulations**") and the Securities and Exchange Board of India (Buyback) Regulations, 1998 ("**Buyback Regulations**"). Subsequently, the Adjudicating Officer, SEBI ("**AO**") held our Company to be in violation of the provisions of the PFUTP Regulations and Buyback Regulations ("**Order**") and imposed a penalty of ₹5.25 crores on our Company for making a misleading announcement in relation to a buyback of its shares. Our Company filed an appeal against the Order before the Securities Appellate Tribunal ("**SAT**") contending *inter alia* that it cannot be conclusively proved that our Company made such misleading announcement in relation to a buyback of its shares. Pursuant to its order, SAT set aside the Order ("**SAT Order**"). SEBI has filed an appeal before the Supreme Court of India challenging the SAT Order. The matter is currently pending.

(v) Vedanta Limited v. District Collector (WA 1228/ 2023) before the Madras High Court

The District Collector, Salem ("**District Collector**") issued a notice to our Company ("**Demand Notice**") directing our Company to pay an amount of ₹42.92 crores as annual compensation towards surface rights over government Poramboke lands, for the period from 1997 to 2016. Our Company challenged the Demand Notice by filing a writ petition ("**Petition**") before the Madras High Court, contending that the Demand Notice was in violation of Section 13(2)(j) of the Mines and Minerals (Development & Regulation) Act, 1957 ("**Act**") read with Rule 27(1)(t) of the Mineral Concession Rules, 1960 ("**Rules**"), which prescribe that the State Government is not to be compensated for the use of surface of the land by the lessee in case of a government land put for mining operations. However, the Madras High Court dismissed the Petition and allowed our Company to issue a representation to the District Collector in respect of the quantum of the demand in the Demand Notice ("**Impugned Order**"). The representation was furnished, but as on date no action has been taken to revise or revoke the Demand Notice. Our Company has filed an appeal before the Madras High Court challenging the Impugned Order. The High Court passed interim direction to issue pr passes subject to the outcome of the writ appeals and the writ petitions. The matter is currently pending.

Our Company has challenged these Impugned Notices by filing a writ petition before the Madras High Court ("**Writ Petition**") on

the ground that inter alia the impugned Notices are in violation of Section 13(2)(j) of the Act read with Rule 27(1)(t) of the Mineral Concession Rules, 1960. The High Court ordered to tag the Writ Petition along with the matter - Vedanta Limited v. District Collector (WA 1278/ 2023 before the Madras High Court) which is pending on the subject matter. (ix) Vedanta Limited v. Directorate of Mines and Geology & 2 Ors. WP No. 2569 of 2024 (F) before High Court of Bombay at Goa

Writ petition ("**Petition**") was preferred against the Mamlatdar of Tiswadi – Panaji, Goa ("**Respondent**") owing to its failure to consider our Company's ("**Petitioner**") representations dated 11 September 2018, 29 June 2021, 18 September 2022, and 04 March 2024, seeking adjustment of certain sums which are lawfully due to the Petitioner from the Respondent, as against the sums allegedly due from the Petitioner to the Respondent. It is the Petitioner's case that once such sums are adjusted, no amount is in fact due from the Petitioner to the Respondent as the said sum exceeds the principal amount payable under the order/demand notice dated 28 August 2018. Whilst the Petitioner's representations seeking reconciliation remain pending, without any consideration, the Respondent had initiated revenue recovery proceedings. Hence, the Petitioner had to file the Petition. The High Court of Bombay at Goa ("**High Court**") has ordered the Petitioner to deposit a Bank Guarantee of INR 50 crores with the Registrar, High Court. The matter is pending before the High Court. B. Material Commercial Disputes

a. ***Material Civil Litigations***

(i) Gujarat Gas Limited v. Vedanta Limited & Ors. before the arbitral tribunal

Our Company, ONGC and Invenire ("**Respondents**") entered into certain agreements with Gujarat Gas Limited ("**Gujarat Gas**") for the sale of gas produced from the CB-OS/2 block ("**Agreements**"). Gujarat Gas

initiated arbitration proceedings against the Respondents alleging breach of the Agreements by the Respondents in relation to, inter alia, sale of gas from the CB-OS/2 block to third parties, reduction of allocation of gas from CB-OS/2 Block to Gujarat Gas and the failure of the Respondents to notify Gujarat Gas of plans to develop new oil wells. Gujarat Gas has claimed approximately ₹ 1120 crores as damages from the Respondents for the breach of the Agreements. The Respondents filed a counter claim seeking *inter alia* USD 86.77 million on account of price revision under the Agreements. The matter is currently pending.

(iv) Vedanta Limited & Cairn Energy Hydrocarbon Limited v. Union of India [PCA Case No 2020-39] & [OMP (Comm) 125/2024 ARB. A. (COMM.) - 31/2024] before the Delhi High Court

The Government of India ("**GoI**") entered into a production sharing contract ("**PSC**") with Oil and Natural Gas Corporation and Shell India Production Development ("**SIPD**") for, *inter alia*, carrying out exploration, discovery, development and production of petroleum resources on the Rajasthan block RJ-ON-90/1 and subsequently, our Company acquired SIPD's interest in the PSC. The GoI demanded payment from our Company on the basis of the audit carried out by the GoI in terms of the PSC ("**Audit Exceptions**"). Our Company invoked arbitration proceedings against the GoI regarding *inter alia* recovery of exploration, development, and production costs. Further, our Company challenged the demand of payment of dues arising out of Audit Exceptions. The GoI filed a counterclaim demanding *inter alia* ₹8,596.80 crores on the basis of its Audit Exceptions. Pursuant to its order, the arbitral tribunal ("**Tribunal**") decided in our Company's favour on substantial issues and *inter alia* dismissed the GoI's counterclaim to enforce the Audit Exceptions. The Tribunal passed a final partial award regarding the interpretation of the PSC and observed, *inter alia*, that the audit exceptions pertaining to the allocation of development costs, production costs, exploration costs are unenforceable and provided that if the parties could not agree on precise figures for the quantum of costs, then the Tribunal would provide appropriate directions ("**Final Partial Award**"). Subsequently, the GoI applied before the Tribunal for injunctive relief under Section 17 of the Arbitration and Conciliation Act, 1996 ("**Arbitration Act**") against unilateral deductions. The Tribunal held, *inter alia*, that unilateral deductions do not amount to unilaterally setting quantum and the accounts at issue did not violate the Final Partial Award. Therefore the requests made by the GoI for restraining our Company from implementing the Final Partial Award would not meet the threshold for harm to the GoI required for injunctive relief ("**Impugned Order**"). Aggrieved by the Impugned Order, the GoI filed an appeal before the Delhi High Court under Section 37 of the Arbitration Act. Separately, GoI also filed an application before the Delhi High Court under Section 34 of the Arbitration Act seeking the setting aside of the Final Partial Award. The matter is currently pending.

(iii) Vedanta Limited & Anr. v. UOI & Ors. [SLP (C)11123/2021] before the Supreme Court of India

The Government of India ("**GoI**") entered into a production sharing contract ("**PSC**") with the Oil and Natural Gas Corporation and Shell India Production Development ("**SIPD**") in relation to, *inter alia*, carrying out petroleum-related operations in the Rajasthan block and subsequently, our Company acquired SIPD's interest in the PSC. As per the PSC, in case commercial production of natural gas continued beyond the term of the PSC, the PSC would get extended for a further period of 10 years. In light of this, our Company filed a writ petition before the Delhi High Court seeking an extension of the PSC, however, the GoI introduced an extension policy revising the terms of the PSC and insisted on an increase in the share of profit payable to the GoI ("**Extension Policy**"). The GoI also called upon our Company to submit a formal application ("**Application**") in accordance with the Extension Policy to seek extension of the PSC. Our Company submitted the Application but challenged the applicability of the Extension Policy contending that the extension of the PSC was a contractual right under the PSC which could not be altered by the Extension Policy. Pursuant to an order, the Delhi High Court held that the Extension Policy was contrary to the terms of the PSC ("**Order I**"). Aggrieved by the Order I, the GoI filed an appeal ("**Appeal**") before the Division Bench of the Delhi High Court ("**Division Bench**"). The Division Bench vide its order ("**Order II**") set aside the Order I and held that the Extension Policy was the "applicable law" and that the Application would be extended under the Extension Policy. Aggrieved by the Order II, our Company filed a special leave petition ("**Special Leave Petition**") before the Supreme Court of India. Pending the Special Leave Petition, PSC has been extended for a period of 10 years with effect from 15 May 2020. The matter is currently pending.

(v) Vedanta Limited v. Gujarat State Petroleum Corporation Limited [Arbitration Petition no. 853 of 2023] before the Delhi High Court

Our Company issued a Notice Inviting Offer ("**NIO**") and a Request for Proposal ("**RFP**") inviting companies to

offtake all or a portion of auctioned gas volumes available for sale from the gas block in Barmer, Rajasthan ("**Rajasthan Block**"). Pursuant to the e-auction process, Gujarat State Petroleum Corporation Limited ("**GSPC**") along with four other bidders emerged as the successful bidder. However, GSPC denied its obligation to sign the gas sales agreement ("**GSA**"), abide by the terms of the GSA and offtake the gas at the price i.e., 20.3% average brent price of crude oil and rather offered to offtake the bid volume of 1,907 543 standard cubic meters per day of gas at the price of 14.1% average brent price of crude oil with effect from 1 April 2023. Our Company entered into a without prejudice interim arrangement in order to avoid loss/wastage of natural gas. Subsequently, our Company initiated arbitration proceedings against GSPC and issued notice invoking arbitration appointing nominee arbitrator however GSPC refused to appoint their nominee arbitrator. Thereafter, our Company has filed an application under Section 11(6) of the Arbitration and Conciliation Act, 1996 before the High Court of Delhi. The matter is currently pending.

(v) Vedanta Limited & Anr. v Government of India (O.M.P.(EFA)(COMM.) 5/2017) before the Delhi High Court

Our Company along with Ravva Oil Singapore ("**ROS**") (constituents of the contractor parties) are involved in a dispute against the Government of India ("**GOI**") relating to the recovery of contractual costs in terms of calculation of payments that the Contractor Parties were required to make in connection with the Ravva Block. The Ravva Block production sharing contract ("**PSC**") obliges the Contractor Parties to pay a proportionate share of ONGC's exploration, development, production and contract costs in consideration for ONGC's payment of costs related to construction and other activities it conducted in Ravva prior to the effective date of the Ravva Block PSC (the "**ONGC Carry**"). The question as to how the ONGC Carry was to be recovered and calculated, along with other issues, was submitted to an arbitral tribunal having its seat at Malaysia ("**International Arbitration Tribunal**") in August 2002 which rendered a decision on the ONGC Carry in favour of the Company & ROS ("**Claimants**") whereas four other issues were decided in favour of GOI in October 2004 (the "**Partial Award**").

The GOI then proceeded to challenge the International Arbitration Tribunal's decision in relation to the ONGC Carry issue before the Malaysian courts, as Kuala Lumpur was the seat of the arbitration. On 11 October 2011, the Federal Court of Malaysia adjudicated the matter and upheld the Partial Award. Per the decision of the International Arbitration Tribunal with regards to Partial Award, the Claimants and the GOI were required to arrive at a quantification of the sums relating to each of the issues under the Partial Award. Also, the International Arbitration Tribunal retained the jurisdiction for determination of any remaining issues in the matter. Pursuant to the decision of the Federal Court of Malaysia, the Claimants approached the Ministry of Petroleum and Natural Gas ("**MoPNG**") to implement the Partial Award while reconciling the statement of accounts as outlined in the Partial Award. GOI failed to implement the Partial Award by way of reconciling accounts as provided in the Partial Award. However, on 10 July 2014, the MoPNG issued a show cause notice alleging that since the Partial Award had not been enforced the profit petroleum share of the GOI had been short paid, the MoPNG threatened to recover that amount from the sale proceeds payable by the oil marketing companies to the Contractor Parties. The Contractor Parties replied to the show cause notice taking various legal contentions.

As the Partial Award did not quantify the sums, the Claimants approached the same International Arbitration Tribunal to pass a final award in the subject matter since the International Arbitration Tribunal had retained the jurisdiction to do so. The International Arbitration Tribunal was reconstituted, and the final award was passed on 26 October 2016 in the Company's favour upholding that no further amounts are due from the Claimants. The final award specifies that each party should bear the arbitration costs equally ("**Final Award**"). The GOI had, in parallel, challenged the final award that was dismissed by the High Court of Malaysia on 8 January 2018. The GOI then appealed before the Malaysian Court of Appeal which was dismissed on 27 September 2018. The GOI further appealed against the decision of the Malaysian Court of Appeal before the Federal Court of Malaysia which was also dismissed on 28 February 2019.

Meanwhile, our Company filed a petition before the High Court of Delhi for the enforcement of the Partial Award and Final Award on 22 May 2017. In connection with the arbitration proceedings on issues related to the cost recovery of the Ravva Block, our Company received an order dated 22 October 2018 from the GOI, directing the OMCs (who are the petroleum off-takers for Ravva) to divert the sale proceeds to the GOI's account. The GOI alleged that the Ravva Joint Operating Partners had short paid profit petroleum of USD 314 million (Company's oil and gas business share being approximately USD 64 million for the ONGC Carry issue). Against an interim application filed before the High Court of Delhi by our Company and ROS sought the stay

of such action from the GOI. The High Court of Delhi vide its order dated 29 October 2018 directed the said OMCs to deposit sales proceeds in the High Court of Delhi. However, our Company and ROS were given the liberty to seek withdrawal of the proportionate amounts from the High Court of Delhi upon furnishing a bank guarantee of commensurate value. Our Company deposited the bank guarantees and withdrew the amounts deposited by the OMCs before the High Court of Delhi. The High Court of Delhi directed that all future sale proceeds in respect of the Ravva Block PSC are to be paid directly to our Company by the OMCs with effect from 5 June 2020. Our Company has filed an application for vacation of interim arrangement dated 29 October 2018 in January 2023. The matter is currently pending.

(vi) GRIDCO v. Vedanta Limited & Ors. (Civil Appeal No. 465/2022) before the Supreme Court of India

Our Company entered into a consolidated power purchase agreement ("**PPA**") with the Grid Corporation of Odisha ("**GRIDCO**") for the supply of power from our Company's power plant located in Jharsuguda, Odisha. Our Company filed a petition before the Odisha Electricity Regulatory Commission ("**OERC**") under Section 86(1) of the Electricity Act, 2003 for adjudication of disputes between our Company and GRIDCO regarding, *inter alia*, payment of outstanding dues and execution of the revised PPA ("**Petition**"). The OERC dismissed the Petition, *inter alia*, on the grounds that the matter for payment of outstanding disputes was pending before the Supreme Court of India and the revised PPA was to be considered for approval after *the sub judice* matter had been settled by the OERC ("**Impugned Order**"). Aggrieved by the Impugned Order, our Company filed an appeal before the Appellate Tribunal for Electricity ("**APTEL**"). APTEL dismissed the appeal and observed, *inter alia*, that the entire issue was covered by previous judgments of APTEL and ordered GRIDCO to make payments amounting to ₹ 448.90 crores to our Company for supply of power from 2010 to 2015 ("**Appellate Judgement**"). Aggrieved by the Appellate Judgement, GRIDCO has filed an appeal before the Supreme Court of India under Section 125 of the Electricity Act, 2003. The appeal is currently pending.

(vii) Vedanta Limited v. GRIDCO & Ors. (DFR No. 295 of 2020) and GRIDCO v. Vedanta Limited and Ors. (DFR No. 476 of 2021) before the Appellate Tribunal for Electricity

GRIDCO also filed an application before the OERC under Section 86(1)(f) of the Electricity Act, 2003 for resolution of disputes regarding, *inter alia*, definition of marginal sources and priority of marginal sources and calculations of annual fixed charges and capacity charges. The OERC observed, *inter alia*, that marginal source should include un-requisitioned power from the interstate generating station, power overdrawn under demand side management and power drawn from the Indian Energy Exchange Limited, and directed both parties to make amendments to the PPA keeping in view the directions given by the OERC *vide* its order ("**OERC Order**"). Aggrieved by the OERC Order, our Company filed an appeal before APTEL under Section 111 of the Electricity Act, 2003. GRIDCO also filed a cross appeal before APTEL against the OERC Order on the grounds of short supply of power by our Company and incorporation of the penalty clause in the PPA. The matter is currently pending.

(viii) Vedanta Limited v. Orissa Mining Corporation & Ors. (WP (C) 9617/2023) before the Orissa High Court

Our Company filed a writ petition against Odisha Mining Corporation Limited ("**OMC**") before the Orissa High Court ("**High Court**") challenging the unilateral application of Rule 45 of the Minerals (Other than Atomic and Hydro Carbons Energy Minerals) Concession Rules, 2016 ("**MCR Rules**") in fixing the price of bauxite. Our Company contended that Rule 45 of the MCR Rules is not applicable to the sale of bauxite and accordingly OMC shall supply the agreed quantity of bauxite in accordance with, *inter alia*, the sales agreements between our Company and OMC ("**Agreement**"). The High Court passed an interim order directing OMC to supply the agreed quantity of bauxite at ₹ 1,000 per metric tonne (excluding the Royalty and others) subject to the final outcome of the petition. An undertaking was given in this regard. The matter is currently pending, and the interim order is continuing.

(ix) Vedanta Limited v. Union of India (OMP (Comm) No. 208/2020) before the High Court of Delhi

Our Company entered into a share purchase agreement ("**SPA**") with the Union of India ("**Respondent**") and BALCO on 2 March 2001 ("**Closing Date**") to purchase 51% of the issued, subscribed and paid up capital of BALCO. Pursuant to the SPA, our Company entered into a shareholders agreement ("**SHA**") with the Respondent and BALCO on the Closing Date. Under Clause 5.8 of the SHA, the Petitioner had a right to issue a call notice ("**Call Notice**") upon the expiry of the third anniversary of the Closing Date or any time thereafter.

pursuant to which the Respondent was under an obligation to sell its entire existing shareholding to our Company. At the request of the Respondent, our Company agreed to extend the time of sale of the shareholding of the Respondent in BALCO until March 2026. Basis the report prepared by a valuer, the Respondent determined the value of the shares to be sold at ₹101.65 per share. In the interest of an expeditious sale of the Respondent's shares, our Company issued a cheque for an amount of ₹1,098.90 crores to the Respondent subject to final determination in arbitration. In view of the defaults and delays by the Respondent, our Company issued a notice to the Respondent which entitled the Petitioner to purchase shares at a lower price ("**Demand Notice**"). The Respondent replied to the Demand Notice and argued that Clause 5.8 of the SHA is violative of Section 111A of the Companies Act, 1956 ("**Companies Act**"). Upon the failure of the parties to resolve the dispute through mediation and negotiation, the matter was referred to an arbitral tribunal ("**Arbitral Tribunal**"). The Arbitral Tribunal held, *inter alia*, that Clause 5.8 of the SHA was void, ineffective and inoperative by virtue of being violative of Section 111A of the Companies Act ("**Award**"). (i) OERC v. Vedanta Aluminium Limited (Civil Appeal No. 5467 of 2013) before the Supreme Court of India

In 2010, the Odisha State Commission ("**State Commission**") approved the Orissa Electricity Regulatory Commission (Renewable and Co-generation Purchase Obligation and its Compliance) Regulations, 2010 ("**RCPO Regulations**"). Under the RCPO Regulations, every obligated entity was to purchase not less than 5% of its total annual energy consumption from co-generation and renewable energy sources from Fiscal Year 2012. Bhushan Steel and Power Limited filed a petition before the State Commission praying for relaxation from the RCPO Regulations. In order to have a comprehensive hearing, the State Commission decided to hear the power generating entities in the state, including Vedanta Aluminium Limited (now merged into our Company) ("**Appellant**"). With a view to take a common decision on the applicability of the RCPO Regulations, the State Commission initiated *suo motu* proceedings on fulfilling the renewable purchase obligation under the RCPO Regulations and decided to hear the obligated entities in Odisha ("**Suo-Motu Proceedings**"). The Appellant was impleaded as a party to the Suo-Motu Proceedings by the State Commission. The Appellant objected to the applicability of the RCPO Regulations on the grounds that, *inter alia*, the direction of the State Commission that captive plants and open access consumers should compulsorily purchase renewable energy is beyond the jurisdiction of the State Commission and alternatively, sought exemption from the RCPO Regulations. The State Commission held, *inter alia*, that reopening of issues with respect to various provisions of the RCPO Regulations cannot be entertained as it would amount to re-opening of the issues that have been previously decided by the State Commission and rejected the submissions made by the Appellant ("**Impugned Order**"). Aggrieved by the Impugned Order, the Appellant filed an appeal before the Appellate Tribunal for Electricity, New Delhi ("**APTEL**"). APTEL observed, *inter alia*, that the State Commission had failed to follow the rationale laid down by APTEL and set aside the Impugned Order ("**Impugned Judgment**"). Aggrieved by the Impugned Judgment, the State Commission filed a special leave petition before the Supreme Court of India. The matter is currently pending.

The Complainant argued that the EC granted to our Company was invalid on the grounds that, *inter alia*, the expert appraisal committee ("**EAC**") had failed to verify facts with respect to encroachment on forest lands by the project proponent and the EAC had failed to conduct a fresh public consultation regarding the EC granted to the Plant. The Tribunal dismissed the appeal on the grounds of insufficient cause for the condonation of delay for 39 days from the date of communication of the EC and 56 days from the grant of EC ("**Impugned Judgement**"). Aggrieved by the Impugned Judgment, the Complainant filed an appeal before the Supreme Court of India. The Supreme Court of India has remanded the matter to the Tribunal. The matter is currently pending.

(iii) OPTCL v. OERC & Ors. [DFR no. 554/2023(Appeal no.907/2023)] before the Appellate Tribunal for Electricity

The Odisha Electricity Regulatory Commission ("**OERC**") vide a tariff order approved a retail supply tariff for the financial year 2022 for all its distribution utilities in Odisha ("**Tariff Order**"). As per the Tariff Order, only 20% of the transmission and wheeling charge was payable by an open access consumer drawing power from renewable source except biomass power plant and co-generation ("**Consumers**"). Odisha Power Transmission Corporation Limited ("**OPTCL**") filed a petition before OERC seeking to allow to levy 100% transmission charges to all Consumers. Our Company and others were impleaded as parties to the proceedings. OERC passed an order withdrawing all concession charges given to Consumers for the Financial Year 2023 ("**Order I**"). Pursuant to the Order I, OPTCL retrospectively applied Order I and levied 100% transmission charges for Consumers for the financial years 2021 and 2022 ("**Charges**"). OERC held the Charges to be illegal ("**Order II**"). Subsequently, OPTCL has challenged Order II before the Appellate Tribunal for Electricity, New Delhi. The matter is currently pending.

(iv) Vedanta Limited v. OERC & Ors. (Appeal no. 351 of 2023) before the Appellate Tribunal for Electricity

Our Company operates captive power generating plants ("**CGP**") in Odisha for self-consumption. TP Western Odisha Distribution Limited ("**TPWODL**") issued demand notices and invoices to our Company demanding payment of cross subsidy charges for the Financial Year 2016 ("**Notices**"). Our Company challenged the Notices before the Odisha Electricity Regulatory Commission ("**OERC**") contending that *inter alia* CGP is exempt from the payment of cross subsidy charges. OERC observed that our Company lost its CGP status in Financial Year 2016 and directed our Company to make the payment in terms of the Notices ("**Order**"). Thereafter, TPWODL issued a revised notice demanding payment of cross subsidy charges ("**Revised Notice**"). Our Company has challenged the Order before the Appellate Tribunal for Electricity, New Delhi on the ground that *inter alia* our Company was not granted a fair hearing and that the CGP status was wrongfully denied to our Company. The matter is currently pending.

(v) Vedanta Limited v. OERC & Ors. (Appeal 508/ 2023) before the Appellate Tribunal For Electricity

Our Company entered into a consolidated power purchase agreement ("**PPA**") with the Grid Corporation of Odisha Limited ("**GRIDCO**") for supplying 25% of the energy produced from the coal fired power plant ("**Power Plant**") located in Jharsuguda, Odisha at full tariff. Our Company filed a petition before the Odisha Electricity Regulatory Commission ("**OERC**") to convert its four units of the power plant from independent power plants ("**IPP**") to captive generating plants ("**CGP**"). The OERC passed an order, *inter alia*, allowing the conversions of three units of the Power Plant to CGP but held that the remaining unit ("**Unit-II**") of the Power Plant will continue to remain an IPP and connected to the state grid ("**Impugned Order**"). Aggrieved by the Impugned Order, our Company filed a review petition before the OERC for allowing the conversion of Unit-II from IPP to CGP. The OERC passed an order allowing Unit-II to normally operate as CGP subject to certain conditions, including but not limited to operating Unit-II as IPP if GRIDCO requires power from our Company for state consumption and has given a three month notice for the same ("**Review Order**"). Aggrieved by the Review Order, GRIDCO filed an appeal before the Appellate Tribunal for Electricity, New Delhi ("**APTEL**"). APTEL set aside the Review Order on the sole ground that OERC had not indicated the reasons for reviewing the Impugned Order and ordered OERC to pass a fresh order ("**APTEL Order**"). In compliance with the APTEL Order, the OERC undertook the matter for hearing and held, *inter alia*, that in compliance with the PPA and the Impugned Order, Unit-II of the Power Plant will not convert from IPP to CGP ("**Final Order**"). Aggrieved by the Final Order, our Company has filed an appeal before APTEL. The matter is currently pending.

(vii) National Confederation of Officers Association & Ors. v. Union of India & Ors. (WP (C) 229 of 2014) before the Supreme Court of India

Pursuant to the Government of India's ("**GoI**") policy of disinvestment, Sterlite Opportunities & Ventures Limited (now merged with our Company) ("**SOVL**") acquired 25% of the equity share capital of HZL from the GoI. In terms of the shareholders' agreement ("**SHA**"), SOVL had two call options to purchase the equity shares held by GoI in HZL. SOVL exercised the first call option on 29 August 2003 and acquired an additional 18.9% of HZL's issued share capital. SOVL exercised its second call option in 2006, however the same was refused by the GoI. Consequently, SOVL initiated arbitral proceedings for enforcing its rights under the SHA to exercise the call options and to purchase the remaining equity shares held by the GoI in HZL. Separately, a writ petition ("**Petition**") was filed before the Supreme Court of India ("**Supreme Court**") questioning the decision of GoI to divest its shareholding in HZL. The Supreme Court disposed off the Petition and allowed the GoI's proposal to divest its entire shareholding in HZL in the open market in accordance with the applicable law and directed the Central Bureau of Investigation of India to register a regular case ("**CBI Enquiry**") in relation to the process followed by GoI for the disinvestment of HZL ("**Order**") and submit reports every quarter. Pursuant to the Order, our Company has withdrawn the arbitration claim, which has been accepted by the arbitration tribunal. Our Company also filed a miscellaneous application ("**Application**") before the Supreme Court on the grounds that the GoI had not divested its remaining shareholding HZL. The Application was subsequently disposed off by the Supreme Court. The CBI Enquiry is currently pending.

The Commissioner of Income Tax ("**CIT**") had filed an intervention application before the Bombay High Court objecting to the scheme of amalgamation and arrangement ("**Scheme**") amongst Ekaterina Limited, Sterlite Industries (India) Limited, Madras Aluminium Company Limited, Sterlite Energy Limited, Vedanta Aluminum Limited and our Company on the grounds that by virtue of the Scheme the entire tax liability of our Company would be wiped out and refunded to it. However, the Bombay High Court passed an order stating that the Central Government and the income tax authorities do not have the power to intervene or to be heard on any scheme which is filed for seeking sanction. Aggrieved by the High Court's order, the CIT and the Ministry of Corporate Affairs have filed separate special leave petitions against the Bombay High Court order before the Supreme Court of India. (ix) State of Karnataka v. NMDC & Others (SLP 6219-6313/2015) and State of Karnataka v. Vedanta Limited (SLP 4329-4396/2018; before the Supreme Court of India

Our Company and others ("**Petitioners**") filed separate writ petitions ("**Writ Petitions**") before the High Court of Karnataka ("**High Court**"), against the State of Karnataka ("**State**"), challenging the imposition and legal validity of the forest development tax ("**FDT**") under the Karnataka Forest (Amendment) Act, 2008 ("**Amendment Act**"). The High Court asked us to deposit 50% of the FDT till the pendency of the writ petition. We made an application against the order of the High Court seeking modification of this order dated 19 August 2009. However, the application was not taken up for hearing. Subsequently, we filed Special Leave Petition before the Supreme Court of India ("**Supreme Court**") against the order of the High Court. In November 2009, the Supreme Court ordered the High Court to dispose the application for modification of the order given in August 2009 and ordered our Company to furnish a bank guarantee towards payment of the FDT. In April 2010, the High Court made an interim arrangement for payment of 50% of the FDT amount pending disposal of the writ petition and pay 25.0% of the demand in cash and furnish a bank guarantee for the remaining 25%. On 3 December 2015, the High Court passed its final order in our favour by quashing the FDT notification and directing a refund of the amount collected from mining leases other than state government owned companies ("**Impugned Judgment I**"). Aggrieved by the Impugned Judgement I, the State filed a special leave petition before the Supreme Court. In the interim, the Supreme Court has stayed the refund of the forest development tax amount as ordered by the High Court.

Meanwhile, the State issued the Karnataka Forest Development (Amendment) Act, 2018 (the "**Amendment Act**") to validate the earlier law, making certain amendments with retroactive effect. The Amendment Act has also changed the nomenclature of "Forest Development Tax" to "Forest Development fee ("FDF")" with retroactive effect, since the court had previously declared that FDT was a tax and not a fee, as claimed by the State. The validity of the Amendment Act was challenged by our Company by way of a writ petition before the High Court. The High Court passed an interim order directing for furnishing bank guarantee for 25% of the demand in relation to future transactions in favor of the State and the State was restrained from collecting Forest Development Fee till the disposal of the writ petition. The High Court on 4 October 2017 struck down the Amendment Act directing

refund of the amounts collected ("**Impugned Judgment II**")

On 13 March 2018, the Supreme Court in the appeal filed by State against the Impugned Judgment II, has stayed the refund of the amount collected as FDF. On 21 March 2018, the Supreme Court directed that appeals against both the FDT and FDF matters will be heard together. The matter is currently pending.

The suspension was imposed by the State Government of Goa and this suspension was upheld by the Supreme Court of India on the mining activities in the state of Goa from September 2012 to April 2014. Following the Supreme Court of India's order in April 2014, High Court of Bombay at Goa in August 2014 pronounced the order to renew mining leases in Goa. In August 2015, the mining operations resumed in the principal mines after completion of necessary statutory formalities and fulfilment of conditions annexed by Supreme Court of India and the State Government of Goa. The Supreme Court of India passed its final order in the matter on 7 February 2018 wherein it set aside the second renewal of the mining leases granted by the State of Goa. The Supreme Court of India directed all lease holders operating under a second renewal to stop all mining operations with effect from 16 March 2018 until fresh mining leases (not fresh renewals or other renewals) and fresh environmental clearances are granted under the Mines and Minerals (Development and Regulation) (MMDR) Act. However, due to the outbreak of Ebola in Liberia, Vedanta Limited's project was temporarily suspended in August 2014 as the staff had to be evacuated. Since then, iron ore prices have fallen significantly, due to which it was considered not viable to resume operations. In April 2022, a memorandum of understanding was signed with government of Liberia which settles matters such as outstanding financial obligations, required approvals, etc. In June 2022, the Environment Protection Agency

In March 2018, the technical committee approved the report for issuing of letter of intent to Vedanta Limited for grant of a mining lease for Dhobil iron ore mine. In March 2021, the GoI amended the MMDR Act, which nullified Vedanta's claim for mining lease in the Dhobil iron ore deposit. Vedanta Limited challenged the removal of its rights over the lease. IV. Detailed rationale for arriving at the swap ratio for issuance of shares as proposed in the draft scheme of arrangement

Rationale for the 1:1 share entitlement ratio under the Scheme

Upon the scheme being effective, the shareholding pattern of Vedanta Limited ("Demerged Company" or "Company") and Vedanta Aluminium Metal Limited ("Resulting Company 1"), Talwandi Sabo Power Limited ("Resulting Company 2"), Malco Energy Limited ("Resulting Company 3"), Vedanta Iron and Steel Limited ("Resulting Company 4") (collectively "Resulting Companies") will be identical. All the shareholders of Demerged Company would also become the shareholders of Resulting Companies and every shareholder of Demerged Company will hold same percentage of equity ownership in Resulting Companies as owns in Demerged Company and accordingly their shareholding in Resulting Companies would mirror their existing shareholding in Demerged Company prior to the Scheme.

Based on the aforementioned and upon the Scheme becoming effective (post demerger), the set of shareholders and holding proportion in the Resulting Companies shall be identical to that of Demerged Company. The beneficial economic interest of Demerged Company's shareholders in Resulting Companies will remain same as at the time of demerger and hence would not have any impact on the economic interest of the shareholders of the Demerged Company. The share entitlement ratio would not have any impact on the ultimate value of the shareholders of Demerged Company and the proposed demerger will be value-neutral to the Demerged Company's shareholders.

Taking into account the above facts and circumstance, any share entitlement ratio can be considered appropriate and fair for the proposed demerger as the proportionate equity shareholding of any shareholder pre-demerger and post-demerger would remain same and not vary.

- Vedanta's mining operations are carried out in the states of Goa and Karnataka, both of which became subject to suspension of mining activities due to alleged environmental and other violations by miners, which has adversely impacted the production of iron ore since August 2011. The suspension was imposed by the State Government of Goa and this suspension was upheld by the Supreme Court of India on the mining activities in the state of Goa from September 2012 to April 2014. Following the Supreme Court of India's order in April 2014, High Court of Bombay at Goa in August 2014 pronounced the order to renew mining leases in Goa. The MoEF and the state government also revoked their suspension orders subject to limits imposed by the Supreme Court of India, for renewal of the leases and consent to operate from the State Government of Goa. In August 2015, the mining operations resumed in the principal mines after completion of necessary statutory formalities and fulfilment of conditions annexed by Supreme Court of India and the State Government of Goa. The Supreme Court of India passed its final order in the matter on 7 February 2018 wherein it set aside the second renewal of the mining leases granted by the State of Goa. The Supreme Court of India directed all lease holders operating under a second renewal to stop all mining operations with effect from 16 March 2018 until fresh mining leases (not fresh renewals or other renewals) and fresh environmental clearances are granted under the Mines and Minerals (Development and Regulation) (MMDR) Act.
- Operations in Karnataka resumed from 28 February 2015 after receiving al statutory clearances.
- Vedanta Limited won the Bicholim and Cudnem mines in the Goa State Government e-auction. The letter of intent was received in January 2023 and July 2023, respectively.
- On 25 July 2011, Vedanta Limited acquired a 51.0% ownership interest in Western Cluster Limited (WCL), a Liberian iron ore exploration company which was a wholly-owned subsidiary of Elenilto Minerals and Mining LLC ("Elenilto"), for a cash consideration of $90.0 million. On 20 December 2012, Vedanta Limited acquired the remaining 49.0% of the outstanding common shares of WCL from Elenilto for a cash consideration of $33.5 million. However, due to the outbreak of Ebola in Liberia, Vedanta Limited's project was temporarily suspended in August 2014 as the staff had to be evacuated. Since then, iron ore prices have fallen significantly, due to which it was considered not viable to resume operations. In April 2022, a memorandum of understanding was signed with government of Liberia for which settles matters such as outstanding financial obligations, required approvals, etc. In June 2022, the Environment Protection Agency (EPA) permit was received to commence mining operations. Mining Operations have started in the same month at Bomi mines.
- Goa Energy Limited, which merged into Vedanta Limited on 24 March 2015, owned one of the 30 MW waste heat recovery power plants in Goa which generates power from the waste gases of the metallurgical coke plant and blast furnace.
- In October 2015, Vedanta Limited proposed to the State Government of Jharkhand to set up a 1 mtpa pig iron plant in Jharkhand, for Dhobil mining lease. On 6 May 2016, a memorandum of understanding for the first phase was signed between the State Government of Jharkhand and Vedanta Limited to set up a 1 mtpa hot metal plant. Further on 1 November 2017, the memorandum of understanding for the second phase was signed. The exploration drilling in the lease area commenced in May 2017 and a report was submitted to the State Government of Jharkhand in October 2017. The exploration report was examined by a technical committee comprising experts from Geological Survey of India, IBM and state geology and mining departments. In March 2018, the technical committee approved the report for issuing of letter of intent to Vedanta Limited for grant of a mining lease for Dhobil iron ore mine. In March 2021, the GoI amended the MMDR Act, which nullified Vedanta's claim for mining lease in the Dhobil

IV. Detailed rationale for arriving at the swap ratio for issuance of shares as proposed in the draft scheme of arrangement

Rationale for the 1:1 share entitlement ratio under the Scheme

Upon the scheme being effective, the shareholding pattern of Vedanta Limited ("Demerged Company" or "Company") and Vedanta Aluminium Metal Limited ("Resulting Company 1"), Talwandi Sabo Power Limited ("Resulting Company 2"), Malco Energy Limited ("Resulting Company 3"), Vedanta Base Metals Limited ("Resulting Company 4"), Vedanta Iron and Steel Limited ("Resulting Company 5") (collectively "Resulting Companies") will be identical. All the shareholders of Demerged Company would also become the shareholders of Resulting Companies and every shareholder of Demerged Company will hold same percentage of equity ownership in Resulting Companies as owns in Demerged Company and accordingly their shareholding in Resulting Companies would mirror their existing shareholding in Demerged Company prior to the Scheme.

Based on the aforementioned and upon the Scheme becoming effective (post demerger), the set of shareholders and holding proportion in the Resulting Companies shall be identical to that of Demerged Company. The beneficial economic interest of Demerged Company's shareholders in Resulting Companies will remain same as at the time of demerger and hence would not have any impact on the economic interest of the shareholders of the Demerged Company. The share entitlement ratio would not have any impact on the ultimate value of the shareholders of Demerged Company and the proposed demerger will be value-neutral to the Demerged Company's shareholders.

Taking into account the above facts and circumstance, any share entitlement ratio can be considered appropriate and fair for the proposed demerger as the proportionate equity shareholding of any shareholder pre-demerger and post-demerger would remain same and not vary.

Dear Sir/Madam,

Kindly note that as per the records available with us and to the best of our knowledge, the details in relation to the material actions taken by or pending with any government, regulatory body or agency of a substantially like nature against all the entities involved in the Scheme for the period of the recent eight years have been provided below:

"The consent to operate for Vedanta Limited's 400 ktpa copper smelter plant at Tuticorin was due to expire on 31 March 2018. Vedanta Limited filed an application on January 31, 2018 with the Tamil Nadu Pollution Control Board ("TNPCB") for renewal of the consent to operate. However, the TNPCB rejected the said renewal application on April 9, 2018. Subsequently, TNPCB on May 23, 2018 ordered the disconnection of electricity supply and closure of the existing copper smelter plant with immediate effect ("Rejection Order"). Thereafter, the State Government of Tamil Nadu, proclaiming and endorsing TNPCB's Rejection Order, issued an order dated May 28, 2018 with a direction to seal the existing copper smelter plant unit permanently. Vedanta Limited's challenge to the aforementioned orders is pending final hearing in the Supreme Court of India."

Rationale for the 1:1 share entitlement ratio under the Scheme

Upon the scheme being effective, the shareholding pattern of Vedanta Limited ("Demerged Company" or "Company") and Vedanta Aluminium Metal Limited ("Resulting Company 1"), Talwandi Sabo Power Limited ("Resulting Company 2"), Malco Energy Limited ("Resulting Company 3"), Vedanta Base Metals Limited ("Resulting Company 4"), Vedanta Iron and Steel Limited ("Resulting Company 5") (collectively "Resulting Companies") will be identical. All the shareholders of Demerged Company would also become the shareholders of Resulting Companies and every shareholder of Demerged Company will hold same percentage of equity ownership in Resulting Companies as owns in Demerged Company and accordingly their shareholding in Resulting Companies would mirror their existing shareholding in Demerged Company prior to the Scheme.

Based on the aforementioned and upon the Scheme becoming effective (post demerger), the set of shareholders and holding proportion in the Resulting Companies shall be identical to that of Demerged Company. The beneficial economic interest of Demerged Company's shareholders in Resulting Companies will remain same as at the time of demerger and hence would not have any impact on the economic interest of the shareholders of the Demerged Company. The share entitlement ratio would not have any impact on the ultimate value of the shareholders of Demerged Company and the proposed demerger will be value-neutral to the Demerged Company's shareholders.

Taking into account the above facts and circumstance, any share entitlement ratio can be considered appropriate and fair for the proposed demerger as the proportionate equity shareholding of any shareholder pre-demerger and post-demerger would remain same and not vary.

smelter, a refinery, a copper rod plant, a sulphuric acid plant, a phosphoric acid plant and two captive power plants with a total capacity of 46.5 MW.

1.1. Tuticorin Smelter

Tuticorin smelter processes copper concentrate into copper anodes.

1.2. Tuticorin Acid Plants

The sulphur dioxide gas produced at Tuticorin in the process of creating copper anodes is fed through the sulphuric acid plant at Tuticorin to be converted into sulphuric acid. Most of the sulphuric acid is further treated in the phosphoric acid plant to be converted into phosphoric acid. Both the sulphuric acid and the phosphoric acid are sold primarily to fertilizer manufacturers.

2. Silvassa

The Silvassa facility commissioned in 1997, comprises a refinery and two copper rod plants and is located approximately, 140 kilometres from Mumbai in the union territory of Dadra and Nagar Haveli in Western India.

2.1. Silvassa and Tuticorin Refineries

In the refineries at Silvassa and Tuticorin, copper anodes are electrolytically refined to produce copper cathodes which are treated further in a slime treatment plant to recover additional copper. The residual slimes are sold to third parties. Copper cathodes are either sold to customers or sent to the Company's copper rod plants.

2.2. Silvassa and Tuticorin Copper Rod Plants

In the copper rod plants, copper cathodes are first melted in a furnace and cast in a casting machine, and then extruded and passed through a cooling system that begins solidification of copper into copper bars. The resulting copper bars are gradually stretched in a rolling mill to achieve the desired diameter. The rolled bar is then cooled and sprayed with a preservation agent and collected in a rod coil that is compacted and sent to customers.

Vedanta Limited

SBH & CO. CHARTERED ACCOUNTANTS FRN 121830W

- Vedanta's mining operations are carried out in the states of Goa and Karnataka, both of which became subject to suspension of mining activities due to alleged environmental and other violations by miners, which has adversely impacted the production of iron ore since August 2011. The suspension was imposed by the State Government of Goa and this suspension was upheld by the Supreme Court of India on the mining activities in the state of Goa from September 2012 to April 2014. Following the Supreme Court of India's order in April 2014, High Court of Bombay at Goa in August 2014 pronounced the order to renew mining leases in Goa. The MoEF and the state government also revoked their suspension orders subject to limits imposed by the Supreme Court of India, for renewal of the leases and consent to operate from the State Government of Goa. In August 2015, the mining operations resumed in the principal mines after completion of necessary statutory formalities and fulfilment of conditions annexed by Supreme Court of India and the State Government of Goa. The Supreme Court of India passed its final order in the matter on 7 February 2018 wherein it set aside the second renewal of the mining leases granted by the State of Goa. The Supreme Court of India directed all lease holders operating under a second renewal to stop all mining operations with effect from 16 March 2018 until fresh mining leases (not fresh renewals or other renewals) and fresh environmental clearances are granted under the Mines and Minerals (Development and Regulation) (MMDR) Act.
- Operations in Karnataka resumed from 28 February 2015 after receiving al statutory clearances.
- Vedanta Limited won the Bicholim and Cudnem mines in the Goa State Government e-auction. The letter of intent was received in January 2023 and July 2023, respectively.
- On 25 July 2011, Vedanta Limited acquired a 51.0% ownership interest in Western Cluster Limited (WCL), a Liberian iron ore exploration company which was a wholly-owned subsidiary of Elenilto Minerals and Mining LLC ("Elenilto"), for a cash consideration of $90.0 million. On 20 December 2012, Vedanta Limited acquired the remaining 49.0% of the outstanding common shares of WCL from Elenilto for a cash consideration of $33.5 million. However, due to the outbreak of Ebola in Liberia, Vedanta Limited's project was temporarily suspended in August 2014 as the staff had to be evacuated. Since then, iron ore prices have fallen significantly, due to which it was considered not viable to resume operations. In April 2022, a memorandum of understanding was signed with government of Liberia for which settles matters such as outstanding financial obligations, required approvals, etc. In June 2022, the Environment Protection Agency (EPA) permit was received to commence mining operations. Mining Operations have started in the same month at Bomi mines.
- Goa Energy Limited, which merged into Vedanta Limited on 24 March 2015, owned one of the 30 MW waste heat recovery power plants in Goa which generates power from the waste gases of the metallurgical coke plant and blast furnace.
- In October 2015, Vedanta Limited proposed to the State Government of Jharkhand to set up a 1 mtpa pig iron plant in Jharkhand, for Dhobil mining lease. On 6 May 2016, a memorandum of understanding for the first phase was signed between the State Government of Jharkhand and Vedanta Limited to set up a 1 mtpa hot metal plant. Further on 1 November 2017, the memorandum of understanding for the second phase was signed. The exploration drilling in the lease area commenced in May 2017 and a report was submitted to the State Government of Jharkhand in October 2017. The exploration report was examined by a technical committee comprising experts from Geological Survey of India, IBM and state geology and mining departments. In March 2018, the technical committee approved the report for issuing of letter of intent to Vedanta Limited for grant of a mining lease for Dhobil iron ore mine. In March 2021, the GoI amended the MMDR Act, which nullified Vedanta's claim for mining lease in the Dhobil

iron ore deposit. Vedanta Limited challenged the removal of its rights over the lease. Vedanta Limited is still awaiting the letter of intent to further carry on the process.

IV. <u>Detailed rationale for arriving at the swap ratio for issuance of shares as proposed in the draft scheme of arrangement</u>

Rationale for the 1:1 share entitlement ratio under the Scheme

Upon the scheme being effective, the shareholding pattern of Vedanta Limited ("Demerged Company" or "Company") and Vedanta Aluminium Metal Limited ("Resulting Company 1"), Talwandi Sabo Power Limited ("Resulting Company 2"), Malco Energy Limited ("Resulting Company 3"), Vedanta Base Metals Limited ("Resulting Company 4"), Vedanta Iron and Steel Limited ("Resulting Company 5") (collectively "Resulting Companies") will be identical. All the shareholders of Demerged Company would also become the shareholders of Resulting Companies and every shareholder of Demerged Company will hold same percentage of equity ownership in Resulting Companies as owns in Demerged Company and accordingly their shareholding in Resulting Companies would mirror their existing shareholding in Demerged Company prior to the Scheme.

Based on the aforementioned and upon the Scheme becoming effective (post demerger), the set of shareholders and holding proportion in the Resulting Companies shall be identical to that of Demerged Company. The beneficial economic interest of Demerged Company's shareholders in Resulting Companies will remain same as at the time of demerger and hence would not have any impact on the economic interest of the shareholders of the Demerged Company. The share entitlement ratio would not have any impact on the ultimate value of the shareholders of Demerged Company and the proposed demerger will be value-neutral to the Demerged Company's shareholders.

Taking into account the above facts and circumstance, any share entitlement ratio can be considered appropriate and fair for the proposed demerger as the proportionate equity shareholding of any shareholder pre-demerger and post-demerger would remain same and not vary.

1. **In the cases of capital reduction/ reorganization, Reasons along with relevant provisions of Companies Act, 2013 or applicable laws for proposed utilization of reserves viz. Capital Reserve, Capital Redemption Reserve, Securities premium, as a free reserve**

Relevant provisions as per the Companies Act, 2013

As per Section 66 of the Companies Act, 2013 ("the Act") dealing with the Capital Reduction, a company can reduce its share capital on confirmation from the National Company Law Tribunal ("NCLT"). As per Section 52 of the Act, the provisions of Section 66 of the Act relating to reduction of share capital shall apply as if the securities premium were the paid-up share capital of the company. Accordingly, utilisation of securities premium requires confirmation from the NCLT. Similarly, NCLT has powers to allow utilisation of Capital Reserves in any scheme of arrangement filed under the provisions of section 230 to 232 of the Act.

The Capital Redemption Reserve of the Company is not being utilised in the Scheme and hence provisions of Section 55 and Section 69 of the Act relating to the utilisation of Capital Redemption Reserve are not applicable to the Company.

The Company has complied with above requirements of the Act relating to capital reduction / reorganisation since specific reliefs regarding utilisation of reserves are being requested from the NCLT in the Scheme.

Relevant provisions as per Indian Accounting Standards notified by the Central Government under section 133 of the Companies Act, 2013

The management of the Demerged Company has complied with the accounting standards notified by the Central Government under section 133 of the Act, as applicable. Accordingly, as per the Scheme, the difference, if any, between the book value of assets and liabilities transferred to the Resulting Companies will be recognised in "Other Equity" and adjusted firstly against amount lying to the credit of 'Capital Reserve', if any; thereafter with the amount lying to the credit of 'Securities Premium', if any; thereafter with the amount lying to the credit of 'General Reserve', if any; and the remaining balance, if any, against the amount lying to the credit of 'Retained Earnings' of the Demerged Company. Accordingly, the statutory auditors of the Demerged Company have issued necessary certificate confirming that the accounting treatment contained in the Scheme is in compliance with the applicable accounting standards. The said certificate has been annexed to the Scheme.

Further, as per the Scheme, a mirror shareholding is proposed in the resulting companies, i.e., the set of shareholders and holding proportion in the Resulting Companies shall be identical to that of Demerged Company. The beneficial economic interest of Demerged Company's shareholders in Resulting Companies will remain same as at the time of demerger and hence would not have any impact on the economic interest of the shareholders of the Demerged Company.

Dear Sir/Madam,

Kindly note that as per the records available with us and to the best of our knowledge, the details in relation to the material actions taken by or pending with any government, regulatory body or agency of a substantially like nature against all the entities involved in the Scheme for the period of the recent eight years have been provided below:

"The consent to operate for Vedanta Limited's 400 ktpa copper smelter plant at Tuticorin was due to expire on 31 March 2018. Vedanta Limited filed an application on January 31, 2018 with the Tamil Nadu Pollution Control Board ("TNPCB") for renewal of the consent to operate. However, the TNPCB rejected the said renewal application on April 9, 2018. Subsequently, TNPCB on May 23, 2018 ordered the disconnection of electricity supply and closure of the existing copper smelter plant with immediate effect ("Rejection Order"). Thereafter, the State Government of Tamil Nadu, proclaiming and endorsing TNPCB's Rejection Order, issued an order dated May 28, 2018 with a direction to seal the existing copper smelter plant unit permanently. Vedanta Limited's challenge to the aforementioned orders is pending final hearing in the Supreme Court of India."

Rationale for the 1:1 share entitlement ratio under the Scheme

Upon the scheme being effective, the shareholding pattern of Vedanta Limited ("Demerged Company" or "Company") and Vedanta Aluminium Metal Limited ("Resulting Company 1"), Talwandi Sabo Power Limited ("Resulting Company 2"), Malco Energy Limited ("Resulting Company 3"), Vedanta Base Metals Limited ("Resulting Company 4"), Vedanta Iron and Steel Limited ("Resulting Company 5") (collectively "Resulting Companies") will be identical. All the shareholders of Demerged Company would also become the shareholders of Resulting Companies and every shareholder of Demerged Company will hold same percentage of equity ownership in Resulting Companies as owns in Demerged Company and accordingly their shareholding in Resulting Companies would mirror their existing shareholding in Demerged Company prior to the Scheme.

Based on the aforementioned and upon the Scheme becoming effective (post demerger), the set of shareholders and holding proportion in the Resulting Companies shall be identical to that of Demerged Company. The beneficial economic interest of Demerged Company's shareholders in Resulting Companies will remain same as at the time of demerger and hence would not have any impact on the economic interest of the shareholders of the Demerged Company. The share entitlement ratio would not have any impact on the ultimate value of the shareholders of Demerged Company and the proposed demerger will be value-neutral to the Demerged Company's shareholders.

Taking into account the above facts and circumstance, any share entitlement ratio can be considered appropriate and fair for the proposed demerger as the proportionate equity shareholding of any shareholder pre-demerger and post-demerger would remain same and not vary.
