In such cases, the successful bidder has to submit the additional CPS as per the increased PO/Contract value (1.5% of the increased order value inclusive of GST).

Example:

Quoted quantity by the bidder: 100 MTPD

Quoted price of the torrefied pellets: INR 5000/MT (Incl. of GST) *

PO/Contract Value: $100 \times 5000 \times 365 = \text{INR } 18,25,00,000.00$

CPS submitted by bidder during award of PO/Contract: 1.5% of PO/Contract value = INR 27,37,500
(Incl. of EMD converted into CPS) – (I)

Quantity Increased by Bidder & Approved by TSPL in concurrence with PSPCL : 20 MTPD

New PO/Contract value: $120 \times 365 \times 5000 = \text{INR } 21,90,00,000.000$

Increased PO/Contract value = $21,90,00,000 - 18,25,00,000 = 3,65,00,000$

Additional CPS to be submitted by bidder = 1.5% of Increased PO/Contract value

$$= 1.5\% \times 3,65,00,000 = \text{INR } 5,47,500 - \text{(II)}$$

Total CPS for PO/Contract = I + II = INR 32,85,000

(* Hypothetical price of the pellets given for ease of understanding of example)

Bidder shall intimate TSPL via e-mail at least two days in advance about the date of such visit.
- b) TSPL shall provide a copy of calibration certificates if requested by the Contractor. TSPL shall undertake the calibration of WB in line with the schedule/practice as recommended by Legal Metrology.
- c) Net adjusted quantity received at TSPL Power Plant i.e., quantity worked out by TSPL after carrying out adjustment due to quality variations with respect to the base parameters, if any, shall be applicable for the purpose of payment.

5. QUALITY DETERMINATION

TSPL receipt end quality determination:

5.1 TSPL will carry out the sampling, preparation, and testing of supplied torrefied pellets at TSPL Power Plant as per the provisions of either BIS/ASTM/ISO. TSPL will carry out the sampling and testing process as per the relevant BIS/ASTM/ISO standard for sampling from the consignment received in a day for each supplier separately.

5.2 TSPL at its discretion will conduct the HGI testing for the selective consignment at TSPL Power Plant.

5.3 The Sample shall be collected from each supply. Out of all the samples collected for all the supplies received in a single day in respect of each supplier, one sample will be prepared as per relevant standards. This sample will be used for quality determination (GCV determination) purposes for the quantity supplied on that day by each supplier.

5.4 The Contractor's representative will have the option to witness the sample collection, preparation, testing of the main sample, and final packing of the reserve sample through CCTV real-time footage (following coverage locations). Any dispute related to sampling, preparation, and analysis activity has to be raised strictly within 48 hours of the respective activity. Further, any dispute related to test results may be raised strictly within 5 days of the declaration of the results by TSPL. The dispute is to be registered/raised through email/ letter to TSPL, in case the prescribed format is not adhered to the claim for reserve sample testing will not be entertained. The disputes with respect to sampling and testing may be entertained only if backed up by logical and justifiable reasons. Frivolous/repeated disputes may invite penal action by TSPL.

5.5 Wherever CCTV coverage facility is not available for a particular area/activity, physical access to that process may be provided (TSPL representative may accompany the Contractor in such cases). However, for testing of reserve samples physical access to the testing facility will be allowed.

S. No.	Locations Under CCTV Coverage
1.	WB
2.	Unloading yard
3.	The area between the unloading yard and to lab
4.	Air drying room inside the lab
5.	Other areas of the Lab

5.6 Contractor acknowledges that TSPL has given the opportunity to witness the process

of sampling and testing through CCTV Realtime footage. Request for testing of reserve sample has to be based on justification acceptable to TSPL.

5.7 As this process of sampling and preparation is a continuous round-the-clock process to deal with the multiple consignment workloads, TSPL would carry out the process as per the time deemed suitable for the process, hence it is the responsibility of the Contractor's representative to be available at all times at CCTV monitor location to witness the same.

5.8 TSPL may request the Contractor to withdraw a representative who is not diligent and/or is not cooperative. Frivolous/unreasonable objections to the sampling and testing process at TSPL will not be entertained. It may be noted that witnessing of testing (if any) carried out outside of TSPL lab will not be feasible and should be avoided.

5.9 TSPL may also consider (at its option) sharing part of the sample (third sample) with the Contractor. The third sample is for the reference of the Contractor only and results of the analysis of the third sample will not be considered for determining the payments.

5.10 Reserve samples will be preserved in the TSPL laboratory under jointly (TSPL & PSPCL) locked almirah in sealed condition for 30 days (from the date of declaration of results) in the safe custody of TSPL.

5.11 Generally, quality reports will be generated within 7 days of receipt of the Material, and same will be communicated to Bidder subject to receipt of loading end quality report.

5.12 Despite having offered/ provided access to sampling, sample preparation and testing processes through CCTV real-time footage to demonstrate transparency, the right to raise a dispute for testing reserve sample will be given to the Contractor. The number of results challenged for referee sample testing by the Contractor shall be considered to the extent of 50% of the total vehicles received in a Batch. 50% of results challenged for the referee shall be tested at the TSPL lab and the remaining 50% of samples shall be analyzed at 3rd party external laboratory.

5.13 The SOP for testing of reserve sample subject to satisfaction of criteria as per 5.12

above as under:

- a) The Contractor will be intimated 4 days prior to the extraction of the referee sample from joint custody.

- b) Referee samples will be taken out from the joint custody of TSPL & PSPCL in the presence of the Contractor.

- c) For referee sample testing at a third-party external laboratory, the following procedure shall be followed:
 - I. The sample will be jointly re-packed and sealed by TSPL and Contractor post extraction from joint custody.
 - II. The sealed and packed sample will be sent to the 3rd party external laboratory for analysis. The details of third-party external laboratory are as under:
 1. National Metallurgical Laboratory
 2. Indian Institute of Chemical Technology
 3. Institute of Minerals & Materials Technology
 4. Inspectorate Griffith India Pvt Ltd
 5. Shriram Institute for Industrial Research
 - III. The 3rd party external laboratory for testing the referee sample amongst the above shall be decided by TSPL at its own discretion.
 - IV. Referee sample will in no case be handed over to the Contractor and shall be physically handed over to the 3rd party external laboratory in presence of TSPL and Contractor representative. If permitted by the external referee lab, analysis shall be carried out in presence of TSPL and Contractor's representative, if present.
 - V. The cost related to testing for the referee sample shall be to the account of the Contractor, the same shall be deducted from Contractor's monthly bill. It is to clarify that the Contractor shall directly bear the cost of travelling, boarding, lodging and other related expenses for its own representatives.

VI. Results reported by 3rd party external laboratory shall be final and binding on both Parties, the Contractor and TSPL for all commercial purposes.

d) For referee sample testing at TSPL laboratory, the following procedure shall be followed:

I. Referee sample testing shall be carried out in the presence of the Contractor's representative.

II. In case of testing of referee sample for GCV, the bomb calorimeter will be calibrated/verified as per BIS/ASTM/ISO prior to testing. Post successful verification of the bomb calorimeter, the referee sample will be tested as per applicable standards.

III. The calibration status of the oven, muffle furnace and weighing equipment will be demonstrated through valid calibration certificates.

IV. The entire process including taking out the referee samples from joint custody, extracting the quantity from the sealed packet, and final analysis will be captured on CCTV camera. If the CCTV camera is not functional in any area, video recording of that process will be done through the mobile camera.

V. Based on the testing TSPL will share the revised results. Results declared by TSPL shall be final and binding on both Parties, the Contractor and TSPL for all commercial purposes.

5.14 PSPCL representative (s) may witness the process including testing of referee samples.

5.15 Any misuse of real-time footage witnessed by the Contractor, or its representative will be viewed seriously and may result in disqualification/blacklisting of a Contractor, including denial of this access for the balance period of supply of torrefied pellets. The presence of more than one representative of a Contractor will be viewed as unnecessary and a violation of the privilege. Repeated violations may lead to the cancellation of the

gate pass and the banning of entry on the premises.

5.16 It may be noted that referee samples shall only be used in case of conflict of quality and price adjustment, whereas, in case of rejection of consignment due to Total moisture (TM); TSPL-determined Total Moisture (TM) result shall be considered final and binding.

5.17 To prevent misuse of the facility by disputing the majority of results of the lot, TSPL Power Plant will abort this reserve testing process for a period of 7 days, in case if the reserve sample results (first two) are within the repeatability limits (as per BIS 1350) from original results. In this case, original results will be considered for payment purposes.

5.18 Any torrefied pellets that are received at TSPL will not be returned/ permitted to be collected by the Contractor unless agreed to in writing by TSPL.

5.19 Standards/Methods as per the table below will be referenced/used for quality determination:

- a. Samples shall be collected from each truck/dumper for TM & VM determination.
- b. TM will be determined by TSPL Power Plant lab validated method based on IS 17655 (Part 1/2 /ISO 18134 -1/2,

(10g of 2.90mm passing sample will be heated for 2 hours at 108 +/- 2 Deg C. Total Moisture will be computed as per the formula below:

$$TM\% = (W1-W2) \times 100 / W1$$

Where: W1= Initial Weight of Sample (10 grams)

W2= Final Weight of Sample.

Note: Before unloading, samples shall be tested for total moisture & volatile matter at the TSPL end. If either of the TM % or VM% values are in the rejection level range, the consignment shall be rejected.

6. PRICE, PRICE BASIS & ITS EFFECTIVENESS

6.1 The Bidder shall quote its most competitive prices for the Scope of Work in Price Bid format (Annexure A Price Schedule). Any quantity that is allocated during the Contract period but not delivered during the Contract period will be executed at the price applicable for that specific Contract period along with the same terms and conditions under the Contract.

7.2 Penalty / Adjustment

7.2.1 Price Adjustment for Gross Calorific Value (GCV):

Computation for penalty/adjustment for the consignments (all the trucks) received in a Day shall be done for each supplier separately as per the following:

The contractor is required to quote GCV (ARB) of torrefied pellets within the preferable limit from 3400 Kcal/Kg & above to the maximum limit of 5000 Kcal/Kg. (Acceptable limit). If a consignment of Agro residue-based pellets does not meet the guaranteed

parameters for Gross Calorific Value (ARB) but is within the acceptable limit, the consignment shall be accepted but with **pro-rata upward or downward** price adjustment as calculated using the following formula:

Adjusted price = [Quoted Landed price x Actual GCV (ARB)]/Quoted GCV (ARB)

Upward price adjustment shall be done maximum of up to 5000 kcal/kg GCV (ARB), beyond this value, upward price adjustment shall not be done even if the Contractor supplies torrefied pellets of higher GCV.

For downward GCV variation from 3400 Kcal/kg, pro rata price adjustment shall be done for GCV variation of supplied Material as per the following formula:

a. For GCV less than 3400 Kcal/Kg & more than or equal to 3000 Kcal/Kg:

Adjusted Price= 0.75 X (Quoted Landed Price X Actual GCV(ARB))/Quoted GCV(ARB))

b. For GCV less than or equal to 3000 Kcal/Kg & more than or equal to 2600 Kcal/Kg

Adjusted Price= 0.50 X (Quoted Landed Price X Actual GCV(ARB))/Quoted GCV(ARB))

c. For GCV less than 2600 Kcal/Kg, the consignment shall be rejected, and no payment shall be made for the already delivered and/or consumed Material.

In case, the Contractor frequently supplies Material of GCV less than 2600 Kcal/Kg or deviates from the technical parameters, a warning letter shall be issued to the Contractor, or the Contract may be cancelled, if the Contractor continues to do so even after issuing a warning letter.

Illustration I:

Quoted Landed Price- Rs 5000/MT (FOR Basis)

Quoted GCV- 4000 Kcal/Kg

Actual GCV- 3600 Kcal/Kg

Adjusted Price- $[5000 \times 3600]/4000 = \text{Rs } 4500/\text{MT}$ (FOR Basis)

Illustration II:

Quoted Landed Price- Rs 5000/MT (FOR Basis)

Quoted GCV- 4000 Kcal/Kg

Actual GCV- 3300 Kcal/Kg

Adjusted Price- $0.75 \times [5000 \times 3300]/4000 = \text{Rs } 3093.75/\text{MT}$ (FOR Basis)

Illustration III:

Quoted Landed Price- Rs 5000/MT (FOR Basis)

Quoted GCV- 4000 Kcal/Kg

Actual GCV- 2900 Kcal/Kg

Adjusted Price- $0.50 \times [5000 \times 2900]/4000 = \text{Rs } 1812.50/\text{MT}$ (FOR Basis)

7.2.2 Penalty on account of excess VM % in consignment:

The contractor is required to supply the torrefied pellets within the acceptable range mentioned below:

The preferable limit for VM% shall be from 18% to 22%. Biomass torrefied pellets supplied with VM content above 22% up to 25% shall be subjected to penalties & supplies with VM% >25% shall be subjected to rejection. The sample shall be retested in case of analyzed VM% is within a tolerance limit of 1% of the acceptance range (i.e., up to 25.25%) as per IS 17844 /ISO 18123.

Penalties shall be levied as follows:

For every 1% increase in VM % in the biomass torrefied pellets above 22% & up to 25%, a penalty of INR 100 PMT shall be levied. It is further clarified that a penalty on a part percentage above 22% shall be levied on a prorated basis.

For VM more than 25%, the consignment shall be rejected, and no payment shall be made for the already delivered and/or consumed Material.

Illustration:

The upper limit of preferable VM% in Biomass pellets: 22%

Received VM% in consignment: 23.2%.

Penalty to be imposed on VM%: $23.2 - 22 = 1.2\%$

Penalty for Increased VM%: $1.2 * 100 = 120 \text{ Rs/MT}$

Adjusted Price due to GCV correction: 5000 Rs/MT

Final Price after VM Penalty for Billing: $5000 - 120 = 4880 \text{ Rs/MT}$

7.2.3 Recovery on account of excess fine in consignment

Biomass dust, crushed/ broken/ damaged torrefied pellets of length less than 3 mm in consignment as received at TSPL site shall be treated as fines and there shall be recovery on account of excess fines (ARB) if it is beyond 5%.

The recovery on account of excess fines will be worked out as per the following formula.

Recovery = (The adjusted price of Biomass pellets) X W X (Actual Weight % of fines beyond 5%)

“W” - Weight of consignment as received,

However, there shall be no additional payment to the vendor if fines are less than 5%.

Illustration:

Adjusted Price of Biomass Pallets due to GCV: 5000 Rs/MT

W = 100 MT

Fines % in Consignment: 6%

Allowable Fines %: 5%

% Fines beyond allowable limits: $6-5=1\%$

Recovery: $5000 \times 100 \times (1\%) = 5000 = 5,000$

7.3 REJECTION LEVEL

The consignment of Agro residue-based torrefied pellets received in a day at the TSPL plant shall initially be tested for the following and shall be rejected in case any of the following parameters (as given in Table 3) exceeds the rejection level given as follows:

Table -3 Rejection Level			
S. No	Technical Data	Units	Rejection Level
1.	Total Moisture (ARB*)	Wt%	More than 14%
2.	Volatile Matter	Wt%	More than 25%

8. DELIVERY SCHEDULE

The Contractor shall commence delivery of material within 5 days from the issue of PO/LOA. However, for any change in the quantity of agro residue-based Torrefied pellets to be delivered at TSPL, the changed delivery schedule shall be sent to the Contractor three (3) days in advance by the official e-mail ID of the engineer-in-charge or e-mail ID of any other person authorized by him in which quantity of agro residue based torrefied pellets to be delivered shall be mentioned, which may even be zero. In such cases, Contractor shall dispatch the consignment according to the revised schedule.

Furthermore, after the award of the Contract/PO, if the contractor doesn't start supplies within 15 days or fails to maintain the supplies as per the Delivery Schedule as quoted by the bidder, then TSPL reserves the right to terminate the PO of the bidder and take actions including but not limited to forfeiting of CPS.

Although the supplier shall supply the pellets as per the above delivery schedule, however, the supplier shall have the flexibility to supply the material in a higher quantity than the delivery schedule on a mutual consent basis to meet the annual supply requirement. In such a case, the supplier shall give one week's advance intimation to the Plant site and the site shall give the consent to supply material in higher quantity after assessing traffic congestion or other aspects as required.

The purchaser can also give a reduced daily delivery schedule to the supplier by giving one-week advance notice through the official e-mail ID of the Engineer-in charge or e-mail ID of any other person authorized by him and the supplier shall dispatch the consignment accordingly.

9. LIQUIDATED DAMAGE FOR DEVIATION FROM DELIVERY SCHEDULE

The Supplier shall have to commence delivery of Material within 5 days from the date of issue of the Purchase Order. To facilitate an initial capacity ramp-up, no Liquidated Damage shall be levied for an initial 10 days from the delivery start date (hereinafter referred to as 'NO LD Period').

Liquidated Damage (LD) shall not be applicable for short supply up to 15% in a month against the aggregate of daily delivery schedule in that month, however, for monthly short supply beyond 15%, liquidated damage (LD) @ 5% of quoted landed price of agro residue based torrefied pellet shall be recovered from Contractor only for shortfall quantity beyond 15% subject to the condition that aggregate of liquidated damage recovered from Contractor shall not exceed 5% of monthly contract value. GST extra/Taxes as applicable shall also be levied on Liquidated Damages.

Example:

Quoted Quantity for supply (MTPD): 10

Quoted Landed Price: INR 200/MT (Inclusive of GST/applicable taxes)

Monthly contracted quantity: 300 MT (considering 30 days per month)

Monthly Contract Value: $200 \times 300 = \text{INR } 60,000$

5% of the monthly contract value: INR 3,000

Supply Quantity in the month by a bidder: 200 MT

Short Supplied Quantity for the month: $300 - 200 = 100 \text{ MT}$

Short Supplied Quantity (%) = 33%

LD Applicable (%) = $33\% - 15\% = 18\%$

LD Applicable quantity (MT) = $300 \times 18\% = 54 \text{ MT}$

LD Value = $54 \times 200 \times 5\% = \text{INR } 540$

10. BILLING & PAYMENT TERMS

The Contractor shall submit the bills in triplicate for the Material received in a fortnight (15 days) at the TSPL Plant as per the methodology as under:

(a) TSPL shall release the 75% payment against undisputed invoice through EFT (Electronic Fund Transfer) for the quantity received, within Seven (7) working days from the date of receipt of such invoices (complete in all respects as determined solely by TSPL) as per the detail mentioned in 10.2 at the TSPL's designated office(s) located at the TSPL Power Plant.

(b) The balance 25% Payment shall be kept as a performance Guarantee which shall be released within 30 days of test results along with complete documents as mentioned in clause 10.1.

(c) However, it may happen that a vendor may supply material with lower GCV, and takes the 75% payment which may be more than the payment due against the adjusted amount as per GCV of the supplied material. To discourage such cases, contractors defaulting on quality of pellets, resulting in actual payment less than 75% of the invoiced amount, shall only be paid 50% of the invoiced value on receipt of the material, instead of the 75% for subsequent six months. The remaining 50% shall be paid on receipt and acceptance of test results. The facility may be restored based on satisfactory performance in previous six months.

10.3 In the case of the Contract closure, the differential amount shall be recovered from the contractor and other amounts due to the Contractor and/or payable by the Contractor at the time of closure of the Contract. Contract closure note shall be provided by the Contractor at the time of final settlement of the Contract.

time for timely release of payment.
