

PRESS RELEASE

Vedanta Power reported highest ever sales: Q2 Sales Up 26% YoY, H1 Sales Reach 10,817 Up 32% YoY

- *Meenakshi Energy Ltd. Q2 power sales grew by 160% YoY*
- *Jharsuguda Thermal Plant, Q2 power sales grew by 186% YoY, Plant Availability Factor (PAF) increased from 43% to 98%.*

Mumbai, October 3, 2026: Vedanta Power Limited, a leading power producer in India, today announced its production and operational performance for the second quarter and first half of FY2027, delivering its **highest-ever quarterly power sales of 5,593 million units, up 26% year-on-year**. The company recorded **10,817 million units of power sales in H1 FY2027, registering a 32% YoY growth**, as stronger plant performance and improved availability across its portfolio drove robust momentum.

The growth was led by a sharp acceleration at Meenakshi Energy and a significant turnaround at Jharsuguda Thermal Plant. At Meenakshi Energy, power sales increased **111% YoY to 1,470 million units in Q2**, taking H1 sales to **2,820 million units, up 160% YoY**. The performance reflects the operations of the expanded **1,000 MW capacity base**, strengthening the plant's contribution to the company's overall generation portfolio.

The momentum was further supported by the **Jharsuguda Thermal Plant**, where power sales rose **186% YoY to 873 million units in Q2**, taking H1 sales to **1,559 million units, up 59% YoY**. The plant also recorded a significant improvement in operational availability, with its **Plant Availability Factor increasing to 98% in Q2 from 43% in the corresponding period last year**, enabling higher generation and sales during the period.

Alongside these growth drivers, the **Talwandi Sabo Thermal Plant** continued to provide a strong and consistent operating base for the portfolio. Q2 power sales increased **6% YoY to 2,945 million units**, while H1 sales stood at **5,668 million units, up 3% YoY**. The plant recorded an availability of **86% in H1 FY2027**, remaining above the 80% normative availability level under its Power Purchase Agreement with the Punjab State Government.

With **10,817 million units of power sales in H1 FY2027**, Vedanta Power's performance reflects the strength of its diversified generation portfolio, underscores **stronger utilisation of Vedanta Power's existing portfolio**, with improved availability and higher contributions from key assets supporting the company's record sales in the first half of FY2027.

The company remains focused on delivering reliable power while supporting India's growing and evolving energy requirements.

About Vedanta Power Ltd.

Vedanta Power Limited (BSE: 544781 & NSE: VEDPOWER) is one of India's leading private power producers delivering reliable power for a growing economy, that lights homes, touches lives, and drives transformation across the nation. With a total installed thermal power capacity of 4,780 MW, the company supplies power to Discoms nationwide through long-term partnerships, while supporting emerging grid requirements. Its portfolio includes a 1,980 MW plant in Mansa, Punjab; a 1,000 MW facility in Nellore, Andhra Pradesh; 1200 MW in Sakti, Chhattisgarh; and a 600 MW unit in Jharsuguda, Odisha. Through operational excellence, technological leadership, and strategic capacity expansion, Vedanta Power Limited is reinforcing grid stability as a cornerstone of India's energy security. Anchored in environmental stewardship, with initiatives such as fly ash utilisation, biomass co-firing, and zero freshwater use, alongside community progress, and a people-first culture, the company

remains committed to delivering long-term stakeholder value while powering everyday life. For more information, visit: www.vedantapower.com
